# 2023-2024

**Penn High School** 

**Program of Studies** 

# Message from the Principal

Dear Students and Parents,

Penn High School is committed to preparing its students for our rapidly changing world. Our mission is to provide an educational environment of support for students to reach their highest academic achievement, while preparing students to be responsible, healthy, contributing citizens. Penn is comprised of the interdependent Smaller Learning Communities of the Freshman Academy, the Science, Technology, Engineering, and Math Academy (STEM), Fine Arts and Communications Academy (FACA), the Management & Business Academy (MBA), the Health and Human Services Academy (HHSA) and the Penn Academy for Early College (PAEC).

Coupled with this mission is a shared responsibility among the school, student, and home to make wise choices and plan well for a 6-8+ year course of study that leads to continued education and employment after graduating from Penn High School. A successful young person needs to be knowledgeable, emotionally and physically healthy, motivated, civically inspired, engaged in the arts, and prepared for work and self-sufficiency.

This *Program of Studies* is intended as a planning tool that can assist students as they set goals and make informed plans for the future.

As you prepare for registration, you should complete these steps:

- · read this Program of Studies,
- explore and identify plans for a career,
- develop or revise a four-year plan with the help of your counselor and parents,
- seek information about specific courses from your counselor and teachers,
- attend The Penn High School Showcase if you are a freshman, sophomore or junior.

Your counselor, teachers and parents are important sources of guidance for you as you choose courses. They can help you plan for, as well as understand, graduation requirements. They can help you use other planning resources like the Career Resource Center. Finally, they serve as important sources of experience and wisdom. Keep in mind that ultimately; the final selection of courses is yours. For that reason, you need to be an active participant in the selection of courses and development of your career plan.

The staff of Penn High School and the Board of School Trustees is committed to continuous improvement of student performance. In keeping with this charge, students are expected to deliver their best effort in the classroom, observe school rules, and respect the rights of fellow students and staff members.

Your success is our success. Your active involvement with our dedicated staff will lead to success. You are instrumental in continuing the tradition of excellence for which Penn High School is recognized.

Please let us know how we can be of assistance to you.

Sincerely,

Sean Galiher Principal

# Penn-Harris-Madison School Corporation Mission, Vision, and Beliefs

#### Mission

Our mission is to provide an educational environment for students to reach their highest academic
achievement. We will prepare them to be responsible, healthy, contributing citizens who have acquired the
skills to be lifelong learners ready to adapt to a changing world.

#### Vision

- Our curriculum is clearly defined, rigorous, integrated with technology, frequently assessed to reach every student, and supported by innovative teaching strategies.
- Our students are lifelong learners who demonstrate creativity, analytical problem-solving, and are engaged in positive social, emotional and healthy life skills.
- Our school climate is the result of communication and collaboration among the administration, parents, teachers, staff and students. A safe and personalized learning environment in our schools nurtures the whole child.
- Our personnel are highly trained individuals who model innovative best practices in all areas of their job
  assignment. Continuous opportunities for professional development are provided to support their performance
  at the highest level.
- Our creative and visionary leadership team exhibits responsible fiscal management that is committed to our mission and is accountable to the community.
- Our corporation seeks to collaborate with the greater Penn-Harris-Madison community in support of our mission.

#### **Values**

- We value learning as a priority and challenge all students to excellence through a continuous improvement model.
- We provide a healthy, safe, respectful and nurturing learning environment.
- We support continuous professional growth of a quality staff.
- We model a collaborative relationship among students, staff, and parents.
- We value community partnerships.
- We respect the uniqueness of each student.
- We demonstrate fiscal responsibility in support of our mission.

#### Goals

- Annually, all students will achieve proficiency in core academic areas as measured by state standards through multiple assessments.
- Annually, all students will demonstrate continuous academic progress through multiple assessments.
- All 10th grade students will demonstrate mastery of the proficiencies on the Graduation Qualifying Exam
- Annually, expenditures will not exceed revenues as measured by the certified budget.

# Penn-Harris-Madison School Corporation Profile of a Graduate

A graduate of Penn-Harris-Madison School Corporation schools is expected to acquire the knowledge and skill to:

#### Be an effective communicator who:

- Reads, comprehends, and analyzes material from a variety of sources.
- Communicates thoughts and ideas through writing, speaking, and performance.
- Applies active listening skills, seeking first to understand.
- Receives and evaluates information sources across a range of mediums.
- Communicates ideas effectively using a variety of media and the latest technology.
- Recognizes the necessity to tailor communication to meet the needs of an audience both locally and globally.
- Collaborates with others.

#### Be a thoughtful problem-solver who:

- Uses basic and advanced academic, social, and technological skills to solve problems.
- Thinks critically and creatively.
- Collects, analyzes and assesses source material as an informed thinker.
- Develops, evaluates, chooses and implements solutions to problems.

# Be an effective contributor and collaborative team member who:

- Works cooperatively.
- Resolves disputes constructively.
- Works collaboratively towards a common good, a common challenge, which involves the contribution and exchange of ideas, knowledge or resources to achieve the goal.
- Perceives divergent viewpoints and responds with understanding.
- Treats others with dignity and respect.
- Functions responsibly as a member of a family, a social group and the larger global community.

# Be a lifelong learner and contributing member of a society who:

- Seeks learning opportunities throughout life.
- Creates a personal vision and sets attainable goals for achievement.
- Assumes personal and social responsibility for actions.
- Continually acquires new skills necessary for success in the 21<sup>st</sup> century and the global economy.

# Be a responsible citizen who:

- Understands the ideals and responsibilities of the American heritage.
- Is dedicated to democratic values and pursues the common good.
- Upholds legal rights and civic duties.
- Safeguards universal human rights and the dignity of all people.

# Be a healthy individual who:

- Pursues a variety of healthy interests and maintains balance among them.
- Demonstrates a commitment to physical and emotional well-being.
- Exhibits self-regulating behavior.
- Confidently pursues his/her full potential.

- Expresses emotion constructively.
- Adapts to life changes.
- Exercises both body and mind.

# Be a contemporary learner who:

- Effectively uses information and communications technology (ICT) and information literacy.
- Learns through digital networks.
- Learns through digital means, such as social networking, ICT (information & communications technology) literacy, technological awareness and simulation.
- Functions in social networks and contributes to the development of social and intellectual capital.

# **Penn High School Mission Statement**

Penn High School instills in students the knowledge, skills and abilities required to be contributing members of the global community. We educate students through exemplary educational practices, effective communication, collaboration and cooperation in a safe, non-threatening environment. We embrace diversity and inspire students to reach challenging academic goals while conducting themselves with respect, with responsibility and with integrity.

# ACADEMIC PLANNING

# **Planning Your Schedule**

The Program of Studies, now available online, contains a wealth of information for the scheduling process. Whether your plans for life after high school involve work, apprenticeship, military, technical college, two-year or four-year college, your choices are important. Please take the time to explore your interests and formulate a map to reach your goals. Take time to check the prerequisites required for some classes. Applications are needed for some courses.

Your schedule is a full-year commitment, so courses must be chosen carefully. Your counselor will meet with you to finalize your choices.

# Schedule Change Policy

It is the school's position that schedule changes after the school year begins disrupt instructional time. Since staffing and the master schedule are determined by student course selection, <u>students are expected to honor the commitment they make when selecting courses and the spring deadline for making schedule changes</u>. There are, however, circumstances that warrant a schedule change. Schedule change requests prior to school starting must meet at least one of the following criteria:

## Criteria for schedule changes:

- 1. Failure to meet course prerequisites
- 2. Failure to meet graduation requirements.
- 3. Change in college or career plans.
- 4. Course changes due to completion of summer school.
- 5. Inappropriate level placement.
- 6. Students earning a failing grade from the teacher the previous year.
- 7. Incomplete Schedule not enough classes listed on schedule.
- 8. Schedule Conflict two of the student's selected courses are offered only during the same block.

# Criteria for schedule changes after the start of school:

- 1. Extenuating circumstances, such as hardship or extended illness.
- 2. Changes in a course or a course level, if appropriate, are considered. The student, teacher, or parent may initiate the discussion for a course level change. In any case, and prior to any determination, the teacher, student, and parent must first have a conversation to determine the appropriate recommendation, and all three parties must sign a course level adjustment form which must be obtained from the school counselor. Academy leaders and counselors are involved as needed.
- 3. Course level changes must be completed as soon as possible in the semester.
- 4. Courses may not be changed or added after the second week of school.
- Courses dropped after the fourth full week of school will result in a grade of W/F (withdraw/fail) on the student's transcript. Students will still be charged for any course that is dropped after October 1 of each school year.
- 6. Requests for teacher changes will not be honored.

# **Penn High School Graduation Requirements**

# **High School Courses Taken In Middle School**

High School courses offered to middle school students are meant to supplement middle school course offerings and to prepare students for four more years of rigorous high school coursework. The Indiana State Board of Education does not restrict high school credit to course work completed in Grades 9 through 12. Schools may elect to award high school credit to students who complete high school courses before entering Grade 9 if the course is fully equivalent to its high school counterpart. Parents/students may choose to have high school courses taken before grade nine added to the high school transcript.

# **Indiana Core 40 Expectations**

In the State of Indiana, all students entering the ninth grade are encouraged to work toward completing the requirements of a Core 40 diploma at a minimum. All Penn High School students are expected to meet the requirements of the Core 40 diploma. The Core 40 is a directed set of high school courses that will help prepare students for success, whether pursuing a career that requires four or more years of college, one or two years of post-secondary education in a business or technical college, or training through an apprenticeship program. Indiana's Core 40 is the default diploma for all Indiana High School students.

- Students must complete the Core 40 to be considered for admission to Indiana's four-year colleges, and the same courses are strongly recommended for admission to a two-year college or entry into the workplace.
- Students who complete the Core 40 requirements with a 2.0 GPA and who qualify for need-based financial aid may qualify for additional aid from the State of Indiana.
- Most Penn High School students take additional electives beyond their 40 required credits. Some courses not specified by Core 40 may be essential for successful completion of required academic studies.
- Please check specific colleges and universities for their world language requirements as well as their specific
  admissions requirements. While a world language is not a requirement for the Core 40, it may be a
  requirement for admission to some post-secondary institutions.
- For more details see the Graduation Requirements charts on the pages that follow.

# **CORE 40**

	Course and Credit Requirements	
English/ Language	8 credits	
Arts	Including a balance of literature, composition and speech.	
Mathematics	6 credits (in grades 9-12)	
	2 credits: Algebra I 2 credits: Geometry 2 credits: Algebra II Or complete Integrated Math I, II, and III for 6 credits. Students must take a math or quantitative reasoning course each year in high school.	
Science	6 credits	
'	2 credits: Biology I 2 credits: Chemistry I or Physics I or Integrated Chemistry-Physics 2 credits: any Core 40 science course	
Social Studies	6 credits	
•	2 credits: World History/Civilization or Geography/History of the World 2 credits: U.S. History 1 credit: U.S. Government 1 credit: Economics	
Directed Electives	5 credits	
·	World Languages Fine Arts Career and Technical Education	
Physical Education	2 credits	
Health and Wellness	1 credit	
Electives*	6 credits (College and Career Pathway courses recommended)	
40 Total	State Credits Required	

All students are strongly encouraged to complete a College and Career Pathway (selecting electives in a deliberate manner) to take full advantage of career exploration and preparation opportunities.

# **Core 40 with Academic Honors Diploma**

The Indiana State Board of Education has established a Core 40 with Academic Honors Diploma. The diploma is intended to bring honor to those students who choose challenging courses and accumulate at least 47 credits in high school. To be eligible for this diploma, a student must have a grade point average of "B" (3.0) or above. No grade lower than a "C" in a required class may count toward the diploma. A gold seal is placed on the diploma and the student's transcript notes the awarding of the Academic Honors Diploma.

- Students must be fully eligible at the end of the 7th semester in order to wear the academic honors hood at senior recognition night and commencement.
- In the area of world language, students must take three years of one language or two years of one language and two years of another language.
- Students who earn less than a C in a required class may retake that class with a Penn teacher or online (world language courses cannot be taken online) for AHD purposes. Retaking courses does not replace the grade on the Penn High School transcript.
- For more details see the Graduation Requirement Chart for Core 40 with Academic Honors Diploma.

# CORE 40 With Academic Honors (minimum 47 credits)

For the Core 40 with Academic Honors diploma, students must:

- Complete all requirements for Core 40.
- Earn 2 additional Core 40 math credits.
- Earn 6-8 Core 40 world language credits. (6 credits in one language or 4 credits each in two languages).
- Earn 2 Core 40 fine arts credits.
- Earn a grade of a "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Complete one of the following:
  - A. Earn 4 credits in 2 or more AP® courses and take corresponding AP® exams
  - B. Earn 6 verifiable transcripted college credits in dual credit courses form the approved dual credit list
  - C. Earn 2 of the following:
    - 1. A minimum of 3 verifiable transcripted college credits from the approved dual credit list.
    - 2. 2 credits in AP® courses and corresponding AP® exams.
    - 3. 2 credits in IB standard level courses and corresponding IB exams.
  - D. Earn a composite score of 1250 or higher on the SAT and a minimum score of 560 on math and 590 on the evidence based reading and writing section. \*\*
  - E. Earn an ACT composite score of 26 or higher and complete written section
  - F. Earn 4 credits in IB courses and take corresponding IB exams.

# **Core 40 with Technical Honors Diploma**

The Indiana State Board of Education has established a Core 40 with Technical Honors diploma. The diploma is intended to bring honor to those students who complete Core 40 requirements and a career-technical program. To be eligible for this diploma, a student must have a grade point average of "B" (3.0) or above. No grade lower than a "C" in a required course may count toward the diploma.

For more details see the Graduation Requirement Chart for Core 40 with Technical Honors Diploma.

# CORE 40 with Technical Honors (minimum 47 credits)

For the Core 40 with Technical Honors diploma, students must:

- Complete all requirements for Core 40.
- Earn 6 credits in the college and career preparation courses in a state-approved College & Career Pathway and one of the following:
  - 1. Pathway designated industry based certification or credential, or
  - 2. Pathway dual credits from the approved dual credit list resulting in 6 transcripted college credits
- Earn a grade of "C" or better in courses that will count toward the diploma.
- Have a grade point average of a "B" or better.
- Complete one of the following:
  - A. Any one of the options (A-F) of the Core 40 with Academic Honors
  - B. Earn the following scores or higher on WorkKeys; Reading for Information Level 6, Applied Mathematics Level 6, and Locating Information Level 5.
  - C. Earn the following minimum score(s) on Accuplacer: Writing 80, Reading 90, Math 75.
  - D. Earn the following minimum score(s) on Compass: Algebra 66, Writing 70, Reading 80.

# **General Diploma**

The core 40 is Indiana's graduation requirement. To graduate with less than Core 40, the following formal opt-out process must be completed:

The student, parent/guardian and counselor must meet to discuss the student's progress, career and course plan. At this meeting, the parent/guardian determines whether the student will achieve greater educational benefits by completing the general curriculum or the Core 40 curriculum.

If the decision is made to opt-out of the Core 40, the parent/guardian and counselor will sign a Diploma Track Change form. The form will be kept on file in the Counseling Center.

# **Graduation Requirements Beginning With The Class Of 2023**

The high school diploma is what gets students started; it's no longer the finish line. Students need to be equipped for a more demanding job market and postsecondary opportunities that differ from the status quo of a graduation test.

Until recently, Indiana's approach to graduation requirements was a one-size-fits-all approach requiring every student to pass graduation qualifying exams (ISTEP). This approach required students who did not pass these exams to take remedial classes to prepare for and retake them. While these remedial classes were designed to help students, it frequently prevented students from taking classes that would help prepare them for college and career opportunities after high school.

With the passage of Graduation Pathways, students are now able to individualize their graduation requirements to align to their postsecondary goal. No longer must all students fit into the same academic mold, but rather, they can choose the options that best meet their postsecondary needs and aspirations. Students can create pathways that serve their educational interests and prepare them for postsecondary educational and career opportunities. Overall, this plan ensures that students are truly prepared to be successful in whatever they want to pursue after high school.

Students must now satisfy at least one option from each of the three boxes listed in the table below in order to graduate.

Students may use the courses listed in the Penn High School Program of Studies that have been approved by the P-H-M School Board when completing the 40 credits required for graduation. Also, the board recognizes courses approved by the College Board, the Elkhart Area Career Center, as well as college and university courses for which students receive dual credit, and courses as specified by Indiana Code.

Penn High School will offer courses it deems relevant to the educational goals of the Penn-Harris-Madison School Corporation and its students. These offerings will be contingent upon budgetary constraints, staff availability, and minimum student enrollment for such courses.

Please see the Graduation Requirement Charts for specific requirements

# Penn High School Graduation Requirements (Starting with Class of 2023)

Req	<sub>l</sub> uirements	Graduation Pathway Options
	High School Diploma (Students must complete the course requirements of one of the following diplomas.)	<ul> <li>Core 40 designation;</li> <li>Academic Honors designation;</li> <li>Technical Honors designation;</li> <li>General Diploma</li> </ul>
(	Learn and Demonstrate Employability Skills (Students must complete <u>at least one</u> of the following employability experiences.	Learn employability skills standards through locally developed programs. Employability skills are demonstrated by one the following:  • Project-Based Learning Experience; OR  • Service-Based Learning Experience; OR  • Work-Based Learning Experience.
(	Postsecondary-Ready Competencies (Students must complete <u>at least one</u> of the following.)	<ul> <li>Honors Designation: Fulfill all requirements of either the Academic or Technical Honors designation; OR</li> <li>ACT: Minimum score of 18 in English, 22 in Math and 23 in Science; OR</li> <li>SAT: Minimum score of 480 in English and 530 in Math; OR</li> <li>ASVAB: Earn at least the minimum AFQT score of 31 to qualify for placement into one of the branches of the US military; OR</li> <li>State- and Industry-recognized Credential or Certification: OR</li> <li>Federally-recognized Apprenticeship: OR</li> <li>Career-Technical Education Concentrator: Must earn a C average or higher in at least two/three advanced courses in a career pathway (class of 2024 = 2 courses, class of 2025-2027 = 3 courses); OR</li> <li>AP®/IB/Dual Credit/ Exams: Must earn a C average or higher in at least three courses.</li> </ul>

# **Smaller Learning Communities (SLCs)**

Penn High School has six Smaller Learning Communities (SLCs). The benefits of our SLCs include:

- Increased student attendance
- Increased student engagement
- Greater student achievement
- Increase in student positive behavior

# Freshman Academy

The Freshman Academy at Penn High School has been in place for over a decade. It was established with the purpose to help students acclimate to a large high school while giving smaller learning community support to ensure that all students thrive, graduate, and feel part of the greater school community. Penn High School can offer students the opportunities of a large school, with the personalization and strong relationships of a small school. Students are placed within teams and share the same core teachers (Math, English, Biology and Geography). Freshmen are encouraged to explore their interests and sign up for a large array of electives. The teacher teams utilize a common time to meet and discuss student concerns while looking to grow professionally in the context of the whole child. This endeavor is supported by dedicated freshmen counselors. The transition to high school is assisted by upperclassmen who work as freshman mentors meeting with freshmen in small groups throughout the first semester. Each core subject teacher meets in a professional learning community (PLC) to develop academically appropriate lessons as well as formative and summative assessments. All teachers are further supported by a reading coach, a math enrichment coach, and a literacy specialist. Adding to this professional team are physical education teachers who help with structuring fitness and movement to improve cognition. From the first day of school, students know they are part of a smaller learning community at Penn. They develop an identity and forge relationships with adults and students within their house.

# **Pathway Academies**

After the freshman year, students choose one of four achievement academies, the Health and Human Services Academy, Fine Arts and Communications Academy, Science, Technology, Engineering and Math (STEM) Academy or the Management and Business Academy. We know that students in these academies will also realize the same benefits they saw in the freshman academy. The achievement academies were designed by students, parents, teachers, administrators, and community members to help students bridge the gap between high school and the myriad of post-secondary options. Each of the achievement academies will help students concentrate their efforts on making a meaningful senior year with classes and projects designed specifically for each student. During the scheduling process each freshman will elect one of the four academies:

- The Fine Arts and Communications Academy
- The Health and Human Services Academy
- The Management & Business Academy
- The Science, Technology, Engineering and Math (STEM) Academy

The Achievement Academies at Penn High School have been designed to bring focus, rigor and relevance to students' high school course of study. Based on Federal and State Career Pathways models, students may choose one of four academies in which to study their sophomore, junior and senior years. Students will begin to consider the focus of their high school education when they complete their four year plan in the eighth grade. Students will choose their desired diploma-Core 40, Core 40 with Academic Honors, or Core 40 with Technical Honors and select courses that meet those requirements. Students will select their Penn Achievement Academy in Preparing for College and Careers (PCC) class.

Selection of an academy will not limit the courses a student may take. Students in each academy will be supported by a group of teachers in that academy, as well as community partners, to create an individualized learning plan that helps each student with his/her post-secondary goals.

Students will be required to take a minimum of one elective within an academy per semester, beginning their sophomore year. Most students will select additional courses within their chosen academy to individualize their education to specific pathways related to post-secondary plans. Students will be encouraged to seek Capstone Courses and Work-Based Learning experiences, which include Registered Apprenticeship, Cooperative Education, Internship, School Based Enterprise, or Service Learning.

# Early College Academy

The Penn Academy for Early College is a program designed to offer students a unique opportunity to begin working toward college requirements while simultaneously fulfilling graduation courses at Penn High School. Penn High School is partnered with Ivy Tech Community College to offer a selection of courses, including dual credit courses, that can potentially earn a student college credits up to an Associate's Degree by the time the student graduates from Penn High School. The four-year sequence of courses for Early College students is specific and required. Students may select elective courses when available.

The mission of Penn's Academy for Early College is to serve students who need extra support and guidance in order to prepare and pursue post-secondary educational opportunities. Most students are identified as potential candidates for this program in middle school based on specific criteria. Students may only select courses in the academy if they are members of the academy at the beginning of their freshman year. The Penn Academy for Early College is a four-year commitment.

# Work-Based Learning

Penn High School encourages students to explore career pathways, and choose courses on a pathway that aligns with their future interests and post-secondary ambitions. Juniors and seniors who have earned a minimum of 2 credits on a related pathway have the opportunity to participate in Work-Based Learning (WBL). These experiences can include both inside and outside of the building components. Examples of WBL are:

- Registered Apprenticeship
- Professional Work Based-Management & Business
- Internship
- School-Based Enterprise
- Service Learning

Students may apply in the Counseling Office. Please be prepared to self-report the pathway courses you have completed, which qualify you for this experience.

# Four Year Plan

A student's four year plan will include these areas:

Grade 9	Grade 10	Grade 11	Grade 12
Freshman Academy	Achievement Academy	Achievement Academy	Achievement Academy
English 9 (Honors)	English 10 (Honors)	English 11 (Honors, AP®)	English 12 (ACP, AP®, Ivy Tech)
Math (Honors)	Math (Honors)	Math ( AP®)	Math/Elective (ACP/ AP®)
Biology (Honors)	ICP or Chemistry (H)	Science	Science/Elective
Geography & History of the World/AP World History	Health Elective	US History (AP®/ACP/Ivy Tech)	Government/Economics (AP®/ACP/Ivy Tech)
Physical Education	AA/Pathway Elective	AA/Pathway Elective	AA/Pathway Elective
Elective	Elective	Elective	Elective
Elective	Elective	Elective	Elective
Study Hall/PCC & Career Information and Exploration	Study Hall	Study Hall/ Work-Based Learning/College Based	Study Hall/Work-Based Learning/College Based

# **Assessment Philosophy**

All students should know that:

- They will receive grades that are based upon multiple forms of assessment, such as tests, quizzes, projects, reports, collaborative work, presentations, laboratory reports and writing assignments.
- The way grades will be determined will be explained at the beginning of the course and with each assignment.
- Assessment practices will measure the extent to which a student has attained the standards of the course.
- They will have opportunities to produce work of which they are proud and, at the teacher's discretion, opportunities will be given for self-correction and resubmission of work.
- They will have opportunities to know which test items they missed and why their answers were unacceptable.
- They will receive ample feedback to know how well they are doing and whether they should make changes in what they are doing.

# **Grading Standards for Penn High School**

- Student progress may be monitored by using Skyward.
- Report cards are issued at the end of each semester. The letter grades listed below are used to designate the student's progress.
- Only semester grades are recorded on the permanent record and student's official transcript.
- Penn High School is on a four point system to determine grade point average and all course grades are included in the grade point average.

GRADE	<b>GRADE POINT VALUE</b>
Α	4.0
В	3.0
С	2.0
D	1.0
F	0.0
W/F	0.0
N	Not calculated

## **Weighted Grades**

Advanced Placement® (AP®) courses will be weighted on a 5.0 scale. Advanced College Project (ACP) courses will also be weighted on a 5.0 scale when students earn an A, B or C for the semester. Dual-credit classes and certain designated classes will be weighted on a 4.5 scale.

AP® and ACP classes will be weighted as follows:

GRADE	GRADE POINT VALUE		
Α	5.0		
В	4.0		
С	3.0		
D	N/A		
F	N/A		

The following courses will be weighted on a 5.0 scale for the 2021-22 academic year:

- All Advanced Placement® (AP®) courses
- All Advance College Project (ACP) courses

Students must complete weighted courses with a grade of 'C' or better and complete the accompanying exam or performance assessment in order to receive the weighted credit.

Dual-credit classes and certain designated classes will be weighted on a 4.5 scale.

The following courses will be weighted on a 4.5 scale for the 2023-24 academic year:

- Symphonic Winds
- Symphonic Choir
- Advanced Orchestra
- Advanced Jazz Band
- Medical Statistics
- All dual-credit classes
- Automation Robotics I and II and FIRST Robotics Internship

Students must complete weighted courses with a grade of 'C' or better and complete the accompanying exam or performance assessment in order to receive the weighted credit.

GRADE	GRADE POINT VALUE
Α	4.5
В	3.5
С	2.5
D	N/A
F	N/A

## **Incompletes Due to Excessive Absences**

Students who receive a grade of "Incomplete" must complete necessary make-up work no later than the first ten days of the subsequent grading period. Students who receive a grade of Incomplete because of prolonged illness or unusual circumstances must obtain approval from the Director of Counseling Services before the end of the ten-day period to extend the deadline.

# Withdrawing from a Course

Any course withdrawals after the fourth full week of the semester will result in a grade of "W/F" (Withdraw/Fail).

# **Course Repeats**

A student may want to repeat a course for no additional credit to meet necessary prerequisites in order to continue with the next course level in a sequence of courses. A student who receives a grade below a C may retake a course to re-qualify for the Academic Honors Diploma and/or Technical Honors Diploma. The repeated course is also calculated in the GPA but credit is earned only once for a course.

#### **Report Cards**

Report cards are issued soon after the close of each semester.

#### **Summer School**

Summer school information will be listed on our Penn High School website as it becomes available. Please visit us there at penn.phmschools.org.

# Skyward

Parents have access to Skyward on their personal computer. A password for the site is issued by the school. Both grades and attendance information are available to you with Skyward. Access Skyward through this link: https://skyweb.phmschools.org/StudentSTS/.

# **Commencement Participation Policy**

Students must be within seven credits of completing all graduation requirements by the end of the first nine weeks of the second semester of their senior year to participate in the commencement ceremony.

# **NCAA** and NAIA Eligibility Centers

- · Register with the Eligibility Center in the junior year.
- · Policies are different for all Divisions I, II, III, NAIA.
- · The NCAA Eligibility Center covers Division I and II only.
- · Students can pick up materials in the Counseling Center Career Resource Room.

Please consult the NCAA Clearinghouse web page for the most current information about preparing to participate in Division I or II college sports at: www.eligibilitycenter.org

NCAA approved courses are signified with

NAIA information can be found at: www.playnaia.org

Penn High School CEEB Code: 152347

#### **Fees**

Most student fees are course-specific and vary depending on the amount of consumable supplemental supplies needed to support mastery of learning objectives. Current school year course fees are available on Penn High School's website. This information can be found on the Penn High School website under counseling beginning in June for the coming school year. Course fees for the new school year are approved in June each year. Student fees are shared with families in November of each school year. Any course dropped after October 1st of each school year will still be included in student fee statements. Any new course added will not be included in student fees statements. In addition, all students are charged a digital fee of \$22.50 to cover digital learning resources.

# **COUNSELING SERVICES**

Web Address: http://penn.phmschools.org/counseling

#### **Mission Statement**

In partnership with parents and the community, the Penn High School Counseling Center is committed to keeping students a priority and focusing on their health, well-being and educational growth. Through activities and programs, our students will find the services they need to pursue goals in their future. It is our goal to help students become responsible, contributing citizens.

#### **Your Counselors**

Penn High School has twelve counselors. Three are assigned to our Freshman Academy, six are alphabetically assigned to grades 10-12, with one Early College Counselor. Our Director is the counselor for students in alternative education settings - Pennway and Night School, and also foreign exchange students. We also have a Wellness Counselor that works to meet the social-emotional wellness of students. All of the counselors at Penn High School meet the standards and licensing requirements for *School Counselor* by the State of Indiana, hold a master's degree in Counseling and keep their licenses current.

Please visit us on the Web to learn more about Counseling Services at Penn.

#### SAT® and ACT

Some traditional four-year colleges require the SAT® or ACT as part of their admissions process.

- Registration for either test may be completed by using the paper registration form or by using the online registration service at collegeboard.com for the SAT® or act.org for the ACT.
- Registration, test dates and test sites are determined by the testing companies. They develop and score their
  own tests.
- A description of each test and a comparison of the two tests can be found on the Counseling page of the Penn-Harris-Madison website.
- We advise juniors who are currently taking geometry to take the SAT®/ACT in the spring of their junior year.
- We advise juniors who have already completed geometry to take the SAT®/ACT any time during the junior year.
- If you have a question about your registration, scoring or score reports contact the College Board or ACT directly.
- Students who have an Individual Education Plan (IEP) must complete a College Board/SSD or ACT
  accommodations request application two to three months before a test date. This procedure will be a point of
  discussion at annual case conferences.
- Test scores are sent to the student and the four colleges the students request on their registration form.
- When applying to colleges and universities the student is responsible to contact ACT.org or Collegeboard.com to request that the scores be sent. Scores are not on the Penn transcript.
- Students are advised to be at the test site early with sharpened pencils, a picture ID and proof of registration.
- No electronic devices are permitted during testing.
- Athletes must report SAT® or ACT scores directly to the NCAA Eligibility Center. Use the '9999' number under
  the 'sending scores area' in the school section of the registration form so that your "official scores" will be sent
  to the Eligibility Center. The Eligibility Center will no longer accept scores from the high school. For more
  information, go to the section on NCAA.

• In order to be formally recruited or to make an official campus visit a college must have your SAT® or ACT results and a high school transcript.

# **College Application Procedures**

Penn High School utilizes Naviance to fulfill electronic college document requests in conjunction with the use of the Common Application. Both are secure online systems that allow students to order transcripts and submit applications electronically. Our staff sends the requested transcripts and the Secondary School Report to the colleges and universities requested by the student. With the Common Application, students must match their Naviance and Common Application accounts in order to connect the two programs for automatic updates. For both Common Application schools and schools with their own electronic application, students must make transcript requests in Naviance. Schools with their own application must be added by the student application list manually within Naviance, Common Application schools will automatically add to the list when the accounts are matched. Students will still submit applications through the Common Application program or directly to an institution but before doing so, schools must be represented accurately on the "Colleges I'm Applying To" list in Naviance. Students hoping to apply in early August must wait for confirmation from the Counseling Center when Naviance is ready to accept new applications and transcript requests for that academic year. Students are notified when the transcript has been sent and when the transcript has been received in Naviance.

You must allow 10 school days for the Secondary School Report and Counselor Recommendation portions of the Naviance request to be completed.

Step 1 If using Common Application, match your Common Application and Naviance accounts to add schools to the Naviance application list. If applying directly to an institution, add those schools to the application list in Naviance manually. When schools are accurately listed in Naviance, applications can be submitted electronically.

Step 2 In Naviance, official transcript requests should be made for both Common Application and non-Common Application schools. Request transcripts (in Naviance) for all colleges/universities that will receive your application.

Step 3 Request official ACT or SAT results to be sent to colleges/universities requiring them as part of the application process. ACT scores can be requested online through <a href="www.act.org">www.act.org</a> and SAT scores can be requested online at <a href="www.collegeboard.org">www.collegeboard.org</a>. ACT/SAT® scores are not on the Penn High School diploma or transcript.

# **AWARDS**

#### **Honor Roll**

Students who earn between a 3.0 and a 3.49 grade point average with no grade below C are eligible for the Honor Roll.

# **High Honor Roll**

Students who earn between a 3.5 and 3.75 grade point average with no grade below C are eligible for the High Honor Roll.

#### **Academic Excellence**

Students who earn a 4.0 grade point average are eligible for Academic Excellence.

#### **Academic Letter**

An academic letter will be awarded to all students with a cumulative GPA >3.50 after their fourth and sixth semesters. The letter, with a lamp of knowledge, will be white with black and gold trim. Qualifying students who received letters after the fourth semester will receive a chevron after the sixth semester. The chevrons will match the academic letter in color and design. Academic letters will be presented in a public ceremony every January or February.

# **National Honor Society**

Teachers at Penn participate in the selection of students that are juniors or seniors for The National Honor Society, a national organization for the recognition of outstanding students. Membership in The National Honor Society is an honor and is based equally upon scholarship (3.5 minimum), leadership, service and character.

#### **Graduation with High Honors**

Students are eligible to be recognized as a graduate with High Honors based upon earning a 3.5 or above Cumulative GPA with no grades below a C. Students must be fully eligible at the end of the 7<sup>th</sup> semester in order to be recognized at senior recognition night and commencement.

# **Latin Honors System**

Penn High School uses a Latin Honors System to recognize academic success. Students can receive the designation of Summa Cum Laude, Magna Cum Laude, and Cum Laude based on minimum GPA requirements. Students must have already completed seven semesters and/or be on track to receive an Academic or Technical Honors diploma at the time of graduation to receive a Latin designation.

Latin Designation	GPA Minimum	Required Diploma Type	Definition
Cum laude	3.75	Core 40	With praise
Magna cum laude	4.00	Academic or Technical Honors	With high praise
Summa cum laude	4.25	Academic or Technical Honors	With highest praise

# **Scholarships**

Colleges, businesses and industry, as well as civic, fraternal and educational groups offer scholarship opportunities. Students should consult with their counselor and visit the Scholarship area in the College/Career Resource Center (located in the Counseling Center) for more information. A list of scholarships and applications are available in the CCRC, at the Counseling Center web page, and can also be accessed through Twitter by following @PennScholarship. Some of the awards require an examination; others require a written application or an interview. Students and parents are encouraged to do their own free scholarship search on any one of a number of scholarship sites available on the Internet like the Collegeboard's Big (bigfuture.collegeboard.org), FastWeb (fastweb.com) and FinAid (finaid.org).

In addition, students also have the ability to search for scholarships using Naviance. Partnering with Sallie Mae, Naviance provides students the opportunity to conduct a national scholarship search based on an individual student profile and scholarship filters.

In each of the past several years, Penn students have gathered over eight million dollars in scholarship monies.

# SPECIAL PROGRAMS

# **Early Graduation**

Any student who wishes to graduate early must confer with their parents and counselor. Parents will be asked to send written permission that includes their approval, signature and date. Remaining required credits will be completed in summer school prior, or online through Independent Study during the student's final year of high school.

For students who graduate from a publicly supported high school at least one year early, the Mitch Daniels Early Graduation Scholarship awards students who qualify \$4,000 toward tuition and fees, and can be used at any eligible Indiana college.

#### Advanced Placement® (AP®)

"AP® and Advanced Placement® are registered trademarks of the College Board. Used with permission."

Advanced Placement® courses are taught at the college level. They afford students an opportunity to earn high school credit as well as college credit and/or appropriate placement at the college level. In order to receive weighted credit and Advanced Placement® designation on transcripts, students must successfully complete both semesters of the Advanced Placement® course and complete the Advanced Placement® examination in that course. Students who choose to take an AP® course outside of Penn must also take the corresponding AP® examination to receive weighted grade/credit. In order to earn college credit, a student must attain a specific score on a national standardized examination, and attend one of the many colleges and universities who recognize students' participation in the College Board's Advanced Placement® Program. By selecting an AP® class during spring scheduling a student is making a firm commitment to complete this course the following school year.

# Students enrolled in an AP® course are required to take the related national Advanced Placement® examination in the spring.

The estimated fees for Advanced Placement® exams are in the fee document online. These are determined and set each year by The College Board® and are subject to change after this printing.

# The following AP® courses are typically offered at Penn High School:

AP® Art History

AP® Biology

AP® Calculus AB

AP® Calculus BC

AP® Capstone

(AP® Seminar & AP® Research)

AP® Chemistry

AP® Chinese

AP® Comparative Government & Politics

AP® Computer Science Principles

AP® Computer Science A

AP® Economics: Micro & Macro

AP® English Language and Composition

AP® English Literature and Composition

AP® Environmental Science

AP® European History

AP® French

AP® German

AP® Human Geography

AP® Music Theory

AP® Physics I (C:Mechanics)

AP® Physics II (C:Electricity & Magnetism)

AP® Physics - Algebra Based

AP® Pre-Calculus

AP® Psychology

AP® Spanish

AP® Statistics

AP® Studio Art: 3-D Design

AP® Studio Art: Drawing

AP® Studio Art: Painting

AP® Studio Art: Photography

AP® U.S. Government & Politics

AP® U.S. History

AP® World History

# **Advance College Project (ACP)**

High School-based courses offered for dual credit through Indiana University. These courses are noted in the course descriptions using the  $\Psi$  symbol.

**ACP Biology** 

ACP Brief Survey of Calculus

**ACP Cadet Teaching Experience** 

ACP Calculus I

**ACP Calculus II** 

**ACP Composition & Literature** 

ACP Microeconomics

**ACP Macroeconomics** 

**ACP Political Science** 

ACP Principles of Business Management

**ACP Speech** 

**ACP US History** 

#### **Dual Credit Courses**

High School-based courses offered for dual credit through Purdue University **P**, Ball State University **A**, or Ivy Tech Community College **Y**. These courses are noted in the course descriptions using the associated symbols.

# **Project Lead the Way Classes**

Project Lead the Way (PLTW) classes will fulfill requirements for the Academic and Technical Honors Diplomas. Most classes listed below will meet the dual high school/college course credit requirement. The classes listed below also meet the requirements for the Directed Electives. All PLTW classes are based on national standards for math, science, communications and technology. Additional information can be found on the Project Lead the Way website PLTW.org.

# Engineering:

- Introduction to Engineering Design (9-12)
- Principles of Engineering (10-12)
- Digital Electronics (10-12)
- Civil Engineering & Architecture (10-12)
- Aerospace Engineering (11-12)
- Engineering Design & Development (12)

#### Biomedical Science:

- Principles of Biomedical Sciences (9-12)
- Human Body Systems (10-12)
- Medical Interventions (11-12)
- Biomedical Innovation Capstone (12)

# Computer Science:

- Introduction to Computer Science (9-12)
- AP® Computer Science Principles (11-12)
- Cybersecurity (11-12)

# Elkhart Area Career Center (EACC)

The Elkhart Area Career Center offers a variety of career and technical education programs intended to provide the student with the skills necessary to directly enter the job market after graduation or provide preparation for more advanced study at a technical school. The programs are available only to juniors and seniors. Tuition for the Elkhart Area Career Center programs is paid for by the PHM system. Once a student commits to an EACC program it is expected that they finish the year.

# Interested students need to:

- Complete an online application. Applications are available from your counselor.
- (First Year Students Only) Attend the EACC Open House. The open house is intended to inform students of the available programs and to help the student make an informed decision about making this type of commitment.
- Be aware of equipment, supplies and uniforms, which might be required for the course for which they are applying. Financial assistance is available.
- Make sure that their schedule for class in the upcoming school year includes the Elkhart Area Career Center.

Acceptance into the EACC program will be based upon space availability, academic progress, attendance and behavior. Students must apply annually to the EACC for acceptance.

A detailed description of the courses offered at the Elkhart Area Career Center is available in the reception area of the Counseling Office.

# **Elkhart Area Career Center Program Clusters**

Go to <u>www.myeacc.org</u> for detailed information. Course numbers listed are *AM/PM* classes. Level 1 courses must be taken before level 2 courses in all pathways.

# **COLLEGE BASED DUAL CREDIT PROGRAM**

#### Penn# 0672/0673

A College Based Dual Credit Program:

Penn students may participate in a supplemental postsecondary educational program if eligibility requirements are met. A junior or senior attending Penn High School may enroll in postsecondary credit classes at approved institutions and earn high school credit as well as post-secondary credit. Counselors will provide students with information on the application procedure if requested.

Juniors and Seniors

(All Listed Courses are Tuition Free for Penn Students)

These courses are weighted on a 4.5 scale if a "C" or better is earned.

<u>Academic & Technical Honors Diploma</u>: All classes from Bethel, IUSB, Ivy Tech Community College, Purdue Polytechnic Institute and Southwestern Michigan College may be applied to the requirements for these Honors Diplomas.

CORE 40: All classes listed may be applied as Directed Electives for the CORE 40 Diploma.

Students may take dual credit classes at Bethel, IUSB, Ivy Tech, Purdue Polytechnic or Southwestern Michigan. The classes listed below are a sampling of those courses that are offered. Students must work with Mr. Berres and the Post Secondary Institute for scheduling, requirements, and expectations. Please feel free to contact Mr. Berres (mberres@phm.k12.in.us) with any questions you may have.

# MICHIANA BEAUTY COLLEGE or VOGUE BEAUTY - Cosmetology (Penn# 0692, 0693, 0672, 0673)

# PHARMACY TECHNICIAN TRAINING

(IUSB Extended Learning Services–Certification Program- seniors only)

This program is presented in cooperation with the Extended Learning Services Program at IUSB, Memorial Hospital and Elkhart General Hospital.

1 Semester 1-2 Credits Grade 12

Tuition: Tuition will be free for Penn Students

<u>Textbooks/Fees:</u> Students must purchase their own textbooks and materials—approximately \$200. Students must also complete an application and provide a \$25 application fee.

Prerequisite: Pass pharmacy technician math test.

Other: Students must provide their own transportation. Classes will take place at South Bend Memorial Hospital or Elkhart General Hospital.

Classes meet 6-8:30 PM on 10 Mondays and Thursdays

Student schedules are individualized. Students may enroll for one or two credits—depending upon the blocks available in the individual student schedule. Students are released from high school during the regular school day and will make-up the time during the evening Pharmacy Technician Classes.

# **Penn High School Course Numbers:**

	First Semester	Second Semester
One Period (afternoon)	690	691
Two Periods (afternoon)	672	673
One Period (morning)	696	697
Two Periods (morning)	696 & 694	697 & 695

Additional Information regarding the Pharmacy Technician Program may be obtained by emailing: dblack@phm.k12.in.us.

This program has been designed and taught by experienced, practicing pharmacists. By successfully completing this class and paying a certification fee, you can become state certified upon graduation from high school. Successful completion of this class will qualify you for an "entry-level" position. This is not a college credit program—this is a Pharmacy Technician Certification Program.

You are required to attend all classes. If, due to an emergency, you miss a class, it will be your responsibility to gather notes from other students to obtain the information you need. There will be no make-up quizzes for missed classes. A minimum grade of 65% on each exam will be required to pass the course. An overall grade of 70% is required to pass the course. IUSB requires 80% attendance to pass the course.

The contents of the training program include specific training duties required to assist a pharmacist in the technical functions associated with the practice of pharmacy, and shall include, at a minimum the following Understanding the duties and responsibilities of the technician and the pharmacist, including the standards of patient confidentiality and ethics governing pharmacy practice, Tasks and technical skills, policies, and procedures related to the technician's position, Working knowledge of pharmaceutical-medical terminology, abbreviations, and symbols commonly used in prescriptions and drug orders, Working knowledge of the general storage, packaging, and labeling requirements of drugs, prescriptions, or drug orders, Ability to perform the arithmetic calculations required for the usual dosage determinations, Working knowledge and understanding of the essential functions related to drug purchasing and

inventory control, The record keeping functions associated with prescriptions and drug orders

\*Refers to the Indiana Core Transfer Library (CTL)

A full explanation of the CTL is available at www.transferIN.net/ctl or Google Core Transfer Library.

#### **Code of Conduct**

Students enrolled in courses that involve extra-curricular activities are subject to the terms of the Penn High School Code of Conduct. Students found in violation of the Code of Conduct will not suffer grade penalties. However, they may be subject to consequences detailed in the Code of Conduct.

# **Student Assistants (Course number 1805-1849)**

A junior or senior in good standing may help a teacher during one block in place of their study hall. Students should apply through the Counseling Center prior to scheduling. No credit is awarded. This is a volunteer position. Good grades and a clean disciplinary record are required. Not everyone who requests a student assistantship will be selected.

# Student Interns (Course number 1850)

Juniors and seniors in good standing may work as a student intern in any of the offices at Penn. Applications can be filled out in the Counseling Center. Interns receive credit and take their intern assignment as they would an elective class. Interns retain their study hall. Only students with unremarkable discipline and attendance will be considered. As part of this Work-Based Learning experience, students will complete a number of components resulting in a portfolio.

# Kingsmen Tutor Internship (Course number 0661 with 1851 or 1865)

Kingsmen Tutor Internship provides students with opportunities to tutor peers and assist a teacher during the school year in the classroom. Tutors will receive training and attend monthly meetings with the Kingsmen Tutor Leaders. The internship is considered volunteer experience earning approximately 70 volunteer hours per semester, if taken for no credit. Many college admission offices and scholarship committees are looking for this kind of long term service. We strongly advise you to take this class as an elective for credit, but it can also be taken in place of a study hall for no credit. The grade will be based on homework assignments, attendance and teacher evaluations. Kingsmen Tutors will be placed in classrooms for various subjects including but not limited to foreign language, Algebra I and II, Geometry, Biology, ICP, English and Chemistry. As part of this Work-Based Learning experience, students will complete a number of components resulting in a portfolio.

# Peer Leaders (Course number 1603)

Students (Grades 9-12) may earn 2 credits for work and interaction with students having moderate and severe disabilities. Students will provide 5 blocks over two weeks of in-class and/or community based instructions to disabled students under the personal supervision and direction of the course instructor or classroom teaching staff. As part of this Work-Based Learning experience, students will complete a number of components resulting in a portfolio. A complete description of this course may be found in the Multidisciplinary Courses.

#### Foreign Exchange

Penn High School welcomes all foreign exchange students who live within the P-H-M school district. We believe that a foreign exchange program can do much to create a better understanding between young people of different countries. For enrollment of a foreign exchange student at Penn, it is necessary that the student is enrolled in a high school in his home country and is residing with a resident of the Penn-Harris-Madison school district. We also expect applications in the spring prior to enrollment, with a deadline of May 1<sup>st</sup>. Foreign exchange students <u>must</u> enroll for the entire school year (August – June).

The staff at Penn High School stands ready to assist the foreign exchange student in any way possible to make the transition a comfortable one. Special effort will be made to enter the student into classes comparable with their ability and interest. It is expected that foreign exchange students are able to communicate in English. Students are

encouraged to take electives in areas that may be new to them. Foreign exchange students receive a *Certificate of Attendance* at the end of the school year, not a Penn High School diploma. Foreign exchange students are always encouraged to take part in school activities-clubs, athletics, band and chorus, and other school wide events.

Several services not provided by the school to foreign exchange students include free lunches, books, class rings, yearbooks, caps and gowns and the cost of field trips. These are all provided by the host parent unless otherwise indicated. The school is not responsible for recruiting families from its area to provide homes for students.

#### **Freshman Mentors**

Upperclassmen interested in serving as role models and guiding freshmen through their first year of high school can apply to be part of the Freshman Mentor program. Each mentor is assigned a group of 5-6 freshman students whom they will get to know personally during the Freshman Connections class. Mentors participate in training sessions each semester in preparation for leading freshmen through a number of activities designed to build community and ease the transition into high school life. The program's focus on building positive relationships and life skills benefits peer leaders and freshmen alike. Applications are available through the freshman counselors in the Counseling Office.

# **Pennway Alternative School**

Pennway Alternative day school offers a 9th-12th grade Core 40 diploma program in a smaller classroom setting across from Penn High School's main campus. Participation is by counselor recommendation only.

# **Pennway Night School**

The Penn-Harris-Madison School Corporation offers the Pennway Night School which provides coursework toward a high school Core 40 diploma for students over the age of 18 or beyond their senior cohort living in or outside PHM boundaries. Night School provides a comprehensive core curriculum of approved courses delivered through the Plato software program. Individuals who have a GED, are currently enrolled at another high school and not beyond their graduation date are not eligible.

# **Independent Study**

Penn High School offers students the opportunity to take a variety of online courses through Independent Study. Students will engage in rigorous online course work delivered through Edmentum Plato, a computer software learning and curriculum program. Participation is by counselor recommendation and registration only.

# **EXCEPTIONAL EDUCATION**

Exceptional Education services are available to students who are eligible according to the Federal and State guidelines and who have current Individual Education Plans (I.E.P.s) specifying the type and amount of services to be provided. These services include, but are not limited to, the following:

#### **Consultation Services**

The student is served in the general education classroom with consultation and support from the exceptional education teacher. Accommodations are made individually through case conference decisions.

## **Resource Services**

The student is served in the general education classroom but receives regular, direct support from the exceptional education teacher. Resource services can be provided for 20% of the school day or less.

# Part-Time Exceptional Education Services

The student is served by an exceptional education teacher for 21% to 60% of the school day. Classes are offered in an exceptional education setting and taught by an exceptional education teacher.

# **Full-Time Exceptional Education Services**

The student is served by an exceptional education teacher for more than 60% of the school day. Full-time programs are provided to students who have such significant exceptional education needs that they cannot benefit from instruction with only part-time support. Full-time services include three program options.

#### **Applied Courses**

Students who elect applied courses are served by an exceptional education teacher in an exceptional education setting. These courses contain a modified curriculum. These courses on their own do not meet the state proficiency requirements for a diploma. These students are working on a vocational track towards earning a Certificate of Completion.

# The Functional Life Skills Program

This program is an activity/community based program designed to make students with significant disabilities as independent as possible within the school and community environments. Whenever appropriate, students receive their training in general education settings with non-disabled peers. Students do not earn course credit toward a diploma but will receive a Certificate for Completion of the Individual Education Plan and participate in graduation ceremonies.

# Indiana Certificate of Completion Course of Study

Effective with the students who enter high school in 2018-19 school year (class of 2022)

The Course of Study for the Certificate of Completion is a framework for aligning curriculum to grade level standards while meeting the individual goals and transition needs stated in the student's Individual Education Plan (IEP).

Minimum total 40 credits/applied units: It is expected that these requirements are met through enrollment in a combination of general education courses for credit, modified general education courses in which non-credit applied units are earned and special education courses in which non-credit applied units are earned.

Life Skills*		Applied**
LS Language Arts I LS Language Arts II	English/ Language Arts (8 Units)	Applied English 9 Applied English 10 Applied English 11 Applied English 12
LS Math I LS Math II	Mathematics (4 Units)	Applied Math I Applied Math II
LS Science	Science (4 Units)	Applied Biology
LS Social Studies	Social Studies (4 Units)	Applied Geography Applied Civics and Money Matters

(7 Units)	General Education Electives	Electives (7 Units)	General Education Electives
-----------	-----------------------------	------------------------	-----------------------------

Students earning a certificate of completion fulfill <u>at least one</u> of the following (aligned with transition goals):

- **1. Career Credential**: Complete an industry-recognized certification, one-year certificate or state-approved alternative
- 2. Career Experience: Complete project- or work-based learning experience or part time employment
- 3. Work Ethic Certificate: Earn a Work Ethic Certificate (criteria to be locally determined)
- 4. Other Work Related Activities: As determined by the case conference committee

<sup>\*</sup> Life Skills is intended for students who need more supported Exceptional Education level courses.

<sup>\*\*</sup> Applied is intended for students who need more rigorous Exceptional Education courses.

# EXCEPTIONAL EDUCATION COURSE DESCRIPTIONS

Penn# 1201 APPLIED ENGLISH 9

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1002

**Course Description:** 

This course contains a modified curriculum. This course is designed to give students the skills they need to fully understand the English language, as well as, the ability to read and interpret a variety of literature selections. Students analyze readings for content and meaning. This class is designed for students who need an alternative to the general education English 9 class. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 1203 APPLIED ENGLISH 10 Semesters: 2 Credits: 2

Grade Level: 10 Prerequisite: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1004

**Course Description:** 

This course contains a modified curriculum. This course is designed to give students the skills they need to fully understand the English language, as well as, the ability to read and interpret a variety of literature selections. Students analyze readings for content and meaning. This class is designed for

students who need an alternative to the general education English 10 class. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 1205 APPLIED ENGLISH 11

Semesters: 2 Credits: 2

Grade Level: 11

Prerequisite: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1006

**Course Description:** 

This course is designed for those students in Exceptional education who need an alternative to the general education curriculum. Everyday English skills will be emphasized in the course. Placement in this course is made on the recommendation of the case conference committee. Students in this course are working towards a Certificate of Completion.

Penn# 1207

APPLIED ENGLISH 12

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1008

**Course Description:** 

Applied English 12, an integrated English course based on the Indiana Content Connectors English/Language Arts in Grades 9-10 and applicable employability skills. This course is a study of language, literature, composition, and communication focusing on literature with an appropriate level of complexity for each individual student. Students analyze,

compare, and evaluate a variety of classic and contemporary literature and nonfiction texts, including those of historical or cultural significance. Students write narratives, responses to literature, academic responses analytical, (e.g. persuasive, expository, summary), and research tasks when appropriate. Students analyze and create visual information in the form of pictures. graphs, charts, and tables. Students write and deliver grade-appropriate presentations multimedia and access online information.

Penn# 1283/1285/1287

**CORRECTIVE READING I, II & III** 

Semesters: 2 Credits: 2

Grade Level: 9-12
Prerequisite: Must l

Prerequisite: Must be

**Education Plan** 

Weight: 4.0 IDOE: 1120

recommended in the Individual

**Course Description:** 

This is a supplemental course that provides students with individualized instruction designed to support success in completing coursework aligned with the Indiana Academic Standards for English/Language Arts focusing on the Reading Standards for Literature and Nonfiction.

Placement in the course is made on the recommendation of the case conference committee. This course is a remediation course as well as an elective course. Penn# 1265

**LEARNING STRATEGIES** 

Semesters: 2 Credits: 2

Grade Level: 9-12 Prerequisite: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 0500 Course Description:

This course is highly recommended for 9th, 10th, 11th, and 12th grade students with exceptional education needs. Basic Skills Development is a multidisciplinary course based on the Indiana Content Connectors for basic skills development in grades 9th-12th. Must be recommended in the Individual Education Plan by the case conference committee. This is an elective course. It is designed to students a system of teach strategies to plan, execute and evaluate their performance on the academic expectations that they encounter at Penn High School. Students learn specific strategies to be independent learners. Teaching methodology emphasizes generalization of the strategies to the academic classes the students are taking.

Penn# 1209 APPLIED GEOGRAPHY

Semesters: 2 Credits: 2

Grade Level: 9-10 Prerequisite: Must be

recommended in the Individual

AND HISTORY OF THE WORLD

**Education Plan** 

Weight: 4.0 IDOE: 1570

**Course Description:** 

This course contains a modified curriculum. This course is designed for those students in exceptional education who need an alternative to the general education Geography and History of the World course. This course will examine the human

and physical geography of the seven continents of the world. Students will learn map skills and vocabulary related to world geography. Placement is made on the recommendation of the case conference committee. This course is geared towards individual skill needs. Students in this course are working towards a Certificate of Completion.

Penn# 1213
APPLIED CIVICS

Semesters: 1 Credits: 1

Grade Level: 12
Prerequisites: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE# 1508

**Course Description:** 

This course contains a modified curriculum. This course is designed to be paired with Money Matters. It is a course that outlines our government in a student friendly manner.

Penn# 1216

**APPLIED MONEY MATTERS** 

Semesters: 1 Credits: 1 Grade Level: 11-12

Prerequisites: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1514

Course Description: This course contains a modified curriculum. This course is designed for those students in exceptional education who need an alternative to the general education Economics course. Students are acquainted with economic systems, supply and demand, consumer spending, and budgeting. Placement is made on the recommendation of the case conference committee. Students in

this course are working towards a Certificate of Completion.

Penn# 1235 APPLIED MATH I

Semesters: 2 Credits: 2

Grade Level: 9-10
Prerequisite: Must be recommended in the

Individualized Education Plan Weight: 4.0 IDOE: 2560

**Course Description:** 

Applied Mathematics provides students with individualized instruction designed to increase math related competencies and/or mathematics coursework aligned with Indiana's Content Connectors for Mathematics. Placement is made on the recommendation of the case conference committee. course is for students working towards a Certificate of Completion.

Penn# 1236 APPLIED MATH II

Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: Must be recommended in the

Individualized Education Plan Weight: 4.0 IDOE: 2560

**Course Description:** 

Mathematics Applied provides with individualized students instruction designed to increase math related competencies and/or mathematics coursework aligned with Indiana's Content Connectors for Mathematics. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 1237 **APPLIED BIOLOGY I** Semesters: 2 Credits: 2 Grade Level: 9-10 Prerequisites: Must be recommended in the Individual **Education Plan** IDOE: 3024

Weight: 4.0 **Course Description:** 

Applied Biology is modified а course based on the science following core topics: Std. 1 Cellular Structure and Function, Std. 2 Matter Cycles and Energy Transfer, Std. Interdependence Organisms, Std. 4 Inheritance & Variation in Traits, and Std. 5 Evolution. Multi-sensory learning and differentiated instruction should developing student focus on that scientific understanding knowledge is gained from observation of natural phenomena and experimentation, by designing investigations and conducting guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures. Students will address approaching standards for Science and Engineering Process Standards (SEPS) as well as the Content Connectors for the Indiana State Standards for Biology. Students may take Applied Biology 1B to continue content at a slower pace. Students will be assessed through Indiana's Alternate Measure (IAM) in the 10th grade year to measure student achievement and arowth according to Indiana's Content Connectors aligned to the Indiana Academic Standards.

Penn# 1238 **APPLIED BIOLOGY II** Semesters: 2 Credits: 2 Grade Level: 10

Prerequisites: Must be recommended in the Individual

**Education Plan** 

IDOE: 3024 Weight: 4.0

**Course Description:** 

This course contains a modified curriculum, which focuses on the IDOE Biology standards. ISTAR This course is designed for those students who need an alternative to general education science courses. Students explore the nature of science, structures and functions of living systems and changes in living systems. Students will learn content through interactive relationships between livina organisms and the environment. Students will learn content through a multi-sensory approach with differentiated instruction based on student needs. Students may be recommended to take a second year in this course of The **Biology** study. **ISTAR** assessment will be administered during the student's 10<sup>th</sup> grade year. Enrolled students are pursuing a Certificate of Completion.

Penn# 1229 OR 1230 **APPLIED HEALTH AND WELLNESS** 

Semesters: 1 Credits: 1

Grade Level: 9-12 Prerequisite: Must be recommended in the

Individualized Education Plan Weight: 4.0 IDOE: 3506

**Course Description:** 

Health & Wellness, a course based on Indiana's Academic Standards for Health & Wellness, provides the basis to help students adopt and maintain healthy behaviors. Through a variety of instructional strategies, students practice the development of functional health information. Students will determine personal values that support health behaviors and develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors. This course provides students with the knowledge and skills of health and wellness core analyzing influences, concepts, accessing information, interpersonal communication, decision-making goal-setting and skills, health-enhancing behaviors, and health and wellness advocacy skills.

Penn# 0503 APPLIED PHYSICAL EDUCATION I & II

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Case conference committee and medical statement

Weight: 4.0

on file

IDOE: 3542 & 3544 **Course Description:** 

Alternative for requirement. This course offers students with special mental. physical, sensory, or neurological problems lifetime fitness and health related activity. The program will include within the least restrictive environment, a variety of developmental activities, games, sports, and rhythms appropriate to the interests, capabilities, and limitations of the student. Opportunities will be given for students to achieve fitness concepts, fitness for enjoyment and interaction. as well different forms of movement and an aquatics unit.

Penn# 1266 **CAREER INFORMATION** Semesters: 2 Credits: 2 Grade Level: 9-10 Prerequisites: Must be recommended in the Individual

**Education Plan** 

IDOE: 0522 Weight: 4.0 **Course Description:** 

This course is designed to introduce students to many career fields and options, and to teach students to match their interests, abilities and lifestyle choices to compatible careers. Employability/workforce readiness skills (communication, organization, teamwork, punctuality, critical thinking/problem solving, social cues, adaptability and work ethic) are taught in order to enhance successful employment. Students create personal resume, participate in classroom vocational activities, complete job interest surveys and develop interview skills. This class is a prerequisite for the Work Experience Program. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 1239 1240 1241 1242 1243 1244 1245 1246

**WORK EXPERIENCE (WBL)** Semesters: 2 Credits: 2 per

block

Grade Level: 11-12 Prerequisites: Must be recommended in the Individual

Education Plan.

IDOE: 5974 Weiaht: 4.0 **Course Description:** 

These courses are designed to give students in exceptional education an opportunity to gain work experience through in school or community jobs. This program provides the first opportunity for students to experience real world requirements for success in the coaching workplace. Job frequent evaluations are used to teach students employability/workforce readiness skills (communication, organization, teamwork, punctuality, critical thinking/problem solving, social cues, adaptability and work ethic). Placement is made on the of recommendation the case conference committee.

### LS CLASSES

These classes contain a modified curriculum. They are designed to make students with significant disabilities as independent as possible within school and community environments. courses in this section are for students completing a Certificate of Completion. Students receive a high level of support.

Penn# 2202 **LIFE SKILLS** 

Semesters: 2 Credits: 2

Grade Level: 9-12 Prerequisites: Must be

recommended in the Individual

Education Plan.

IDOE: 0500 Weight: 4.0

**Course Description:** 

This multidisciplinary course provides students the opportunity to continue to develop basic skills including writing, math. organizational, and interpersonal skills. Students will work on home skills such as cooking, living cleaning, and laundry, as well as a employability variety of skills. Students will also learn about personal care, health, and safety. Skills will be emphasized for each student based on their Individualized Education Program (IEP) in line with content connectors. Community based instruction may also be used to practice daily living skills. This course is for students working towards a Certificate of Completion.

Penn# 2200 LS BIOLOGY I

Semesters: 2 Credits: 2

Grade Level: 9-12 Prerequisites: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 3024

**Course Description:** 

Lifeskills Biology is a modified science course based on the following core topics: Std. 1 Cellular Structure and Function, Std. 2 Matter Cycles and Energy Transfer, Std. 3 Interdependence Organisms, Std. 4 Inheritance & Variation in Traits, and Std. 5 Multi-sensory learning Evolution. and differentiated instruction should focus on developing student understanding that scientific knowledge from is gained observation of natural phenomena and experimentation, by designing conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures. Students will address approaching standards for Science and Engineering Process Standards (SEPS) as well as the Content Connectors for the Indiana State Standards for Biology. Practical application will be a primary focus to promote independent living skills and personal safety in the community.

Students may take Lifeskills Biology 1B to continue content at a much slower pace. Students will be assessed through Indiana's Alternate Measure (IAM) in the 10th grade year to measure student achievement and growth according to Indiana's Content Connectors aligned to the Indiana Academic Standards.

Penn# 2224 LS BIOLOGY II Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisites: Must be recommended in the Individual **Education Plan** Weight: 4.0 IDOE: 3024 **Course Description:** 

Lifeskills Biology is a modified science course based on the following core topics: Std. 1 Cellular Structure and Function, Std. 2 Matter Cycles and Energy Transfer, Std. Interdependence 3 Organisms, Std. 4 Inheritance & Variation in Traits, and Std. 5 Multi-sensory learning Evolution. and differentiated instruction should focus on developina student understanding that scientific knowledge is gained from observation of natural phenomena and experimentation, by designing conducting investigations guided by theory, and by evaluating and communicating the results of those investigations according to accepted procedures. Students will address approaching standards for Science and Engineering Process Standards (SEPS) as well as the Content Connectors for the Indiana State Standards for Biology. Practical application will be a primary focus to promote independent livina skills and personal safety in the community.

Students will be assessed through Indiana's Alternate Measure (IAM) in the 10th grade year to measure student achievement and growth according to Indiana's Content Connectors aligned to the Indiana Academic Standards.

Penn# 1233 LS MATH Semesters: 2 Credits: 2 Grade Level: 9-12 Prerequisites: Must be recommended in the Individual **Education Plan** Weight: 4.0 IDOE: 2560 **Course Description:** 

This course contains a modified curriculum. This course is designed for those students in exceptional education who need an alternative the general education mathematics courses. It focuses on developing math skills for real life situations such as measurement, money skills, time, basic addition and subtraction, and more. A variety of materials are used in individual and group instruction. This course is towards individual skill needs. Students in this course are working towards a Certificate of Completion. Students will be working on IAM standards.

Penn# 2208 LS SOCIAL STUDIES Semesters: 2 Credits: 2 Grade Level: 9-12 Prerequisites: Must be recommended in the Individual **Education Plan** Weiaht: 4.0 IDOE: 1508 **Course Description:** 

Students develop skills on their personal environment, community and world around them. Instruction is centered on the development of individual students and their use of the resources available.

Penn# 2204 LS LANGUAGE ARTS 9 Semesters: 2 Credits: 2 Grade Level: 9

Prerequisites: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1002 **Course Description:** 

Students develop reading writing skills. Students are taught at their academic level and supported with a high amount of support. The class is focused on everyday Language Arts skills.

Penn# 2226 **LS LANGUAGE ARTS 10** Semesters: 2 Credits: 2

Grade Level: 10

Prerequisites: Must be

recommended in the Individual

**Education Plan** 

Weight: 4.0 IDOE: 1004

**Course Description:** 

Students develop reading writing skills. Students are taught at their academic level and supported with a high amount of support. The class is focused on everyday Language Arts skills.

Penn# 2212 **LS LANGUAGE ARTS 11** Semesters: 2 Credits: 2

Grade Level: 11

Prerequisites: Must be

recommended in the Individual

Education Plan.

Weight: 4.0 IDOE: 1006 **Course Description:** 

Students receive focused instruction on reading through the use of current events. Specific curriculum used to accommodate the individual student at their reading level. Creative and timely materials are used to engage all learners.

Penn# 2228 LS LANGUAGE ARTS 12 Semesters: 2 Credits: 2

Grade Level: 12
Prerequisites: Must be

recommended in the Individual

Education Plan.

Penn# 2220

Weight: 4.0 IDOE: 1008
Course Description:

Students receive focused instruction on reading through the use of current events. Specific curriculum is used to accommodate the individual student at their reading level. Creative and timely materials are used to engage all learners.

LS WORK EXPERIENCE (WBL) Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: Must be recommended in the

Individualized Education Plan Weight: 4.0 IDOE: 5974

**Course Description:** 

These courses are designed to give students in exceptional education an opportunity to gain work experience through in school or community jobs. connectors Content as standards for classes not on diploma track. This program provides the first opportunity for students to experience real world requirements for success in the workplace. Job coaching frequent evaluations are used to teach students employability/workforce readiness skills (communication, organization, teamwork, punctuality, critical thinking/problem solvina. social cues, adaptability and work ethic). This course is for students working towards a Certificate of Completion and/or Diploma Track. Placement is made on the recommendation of the case conference committee.

Penn# 2222
LS EMPLOYABILITY
Semesters: 2 Credits: 2
Grade Level: 11-12
Prerequisite: Must be
recommended in the
Individualized Education Plan
Weight: 4.0 IDOE: 0522
Course Description:

LS Employability course provides students with opportunities to learn about themselves including interests, strengths and needed support while exploring various and traditional nontraditional occupations and careers. Students develop skills in employability, and career decision making planning. Opportunities are provided students to observe participate in various job situations through opportunities such community based instruction. internships, mock interviews, and guest speakers. Life Skill portfolio and resume development experience career-related and assessments may also be provided to students.

Penn# 2210
LS EDUCATION AND TRAINING
Semesters: 2 Credits: 2
Grade Level: 11-12
Prerequisite: Must be
recommended in the
Individualized Education Plan
Weight: 4.0 IDOE: 0500
Course Description:

LS Education and Training is a multidisciplinary course that provides students continuing opportunities to develop basic skills including: (1) reading, (2) writing, (3) listening, (4) speaking, (5)

mathematical computation, (6) study and organizational skills, and (7) problem-solving skills, (8)skills, employability which are essential for high school achievement and postsecondary outcomes. Determination of the skills to be emphasized in this course is based on Indiana's standards and Content Connectors and the student's Individualized Education Programs (IEP). Skills selected for developmental work provide students with the ability to continue to learn in a range of different life situations and may be applied using instructional practices related to community based instruction. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 2214
LS COMMUNITY LIVING
Semesters: 2 Credits: 2

Grade Level: 9-12
Prerequisite: Must be recommended in the

Individualized Education Plan Weight: 4.0 IDOE: 5330 Course Description:

Community Living is recommended for all students as life foundations for independent community living. This course builds knowledge, skills, attitudes, and behaviors that students will need as they complete high school and prepare to take the next steps toward adulthood in today's society. The course includes the study of interpersonal standards, lifespan roles and responsibilities, individual and family resource management, financial responsibility and resources. Placement is made on the recommendation of the case conference committee. This course is for students working towards a Certificate of Completion.

Penn# 2206
LS PERSONAL MANAGEMENT
Semesters: 2 Credits: 2
Grade Level: 9-12
Prerequisite: Must be
recommended in the
Individualized Education Plan
Weight: 4.0 IDOE: 5364
Course Description:

LS Personal Management is a course which focuses on essential life skills. This course addresses knowledge and skills needed for positive and productive relationships in career, community, and family

settings. Major course topics include communication skills; leadership, self-determination, teamwork, and collaboration; conflict prevention, resolution, and management; building maintaining and relationships; and individual needs and characteristics and their impacts on relationships.

Penn# 2100 AND/OR 2101 SASS INDEPENDENT STUDY/STUDY HALL Semesters: 1 or 2

Credits: 1 or 2
Grade Level: 9-12
Course Description:

Self Management and Social Skills. Students in the Exceptional Education program will gain credits through on-line learning. Students will be working on the credits needed as discussed in a case conference. Students will receive a high level of support. Placement is made on the recommendation of the case conference committee. This course is a noncredit behavioral support class.

# MULTIDISCIPLINARY COURSES

Penn# 1871
PREPARING FOR COLLEGE & CAREERS (PCC) WITH 1873
Semesters: 1 Credits: 1
Grade Level: 9
Weight: 4.0 IDOE: 5394
Course Description:
Students will automatically be enrolled in this course.

The focus of this course is on the impact of today's choices on tomorrow's possibilities. Topics will include exploration of personal aptitudes, interests, principles and goals; life and career exploration; college and/or military planning; employability skills; personal financial literacy; transferring school skills to life and work and good decision making. This course will provide a strong foundation for becoming an involved, independent, and responsible student, employee and citizen. Students will create and apply critical thinking strategies in areas of time management, media literacy, learning styles, study career planning, money management, resource utilization.

# Penn# 1862 CAREER INFORMATION AND EXPLORATION

Semesters: 1 (2nd semester)
Credits: 1 Grade Level: 9
Weight: 4.5 DOE# 0522
Course Description:

Career Information and Exploration provides students with opportunities

to learn about themselves and about various traditional and nontraditional occupations and careers. Students also gain an awareness of the type preparation or of occupational needed training for various occupations and careers. Students develop skills in: (1) employability, (2) understanding the economic process, and (3) career decision making and planning. Opportunities are provided for students to observe and participate in various job situations through opportunities such as field trips, internships, mock interviews, and guest speakers. Resume development experience and career- related testing are also provided to students.

Penn# 0680, 0681, 0682, 0683, 0684, 0685, 0686, 0687- 1 block 0674, 0675, 0679- 2 blocks WORK BASED LEARNING INTERNSHIP (WBL)

Semesters: 1 or 2

Credits: 1/block/semester

Grade Level: 11-12

Prerequisite: Any One CBDC

Course

Weight: 4.0 IDOE: 5974

**Course Description:** 

Students must provide their own transportation. Work Based Learning Internship is a career course that is designed to provide opportunities for students to explore careers that require additional degrees, certifications or training beyond high school. The emphasis of the experience is on applying skills developed through instruction from an adult mentor and learning

new career competencies at the internship site. Activities can be tailored to the unique needs and interests of the students. Internships may be paid or unpaid. A teacher monitors students in their field experiences. Students should enroll in the Internship class because the program provides an for a student to opportunity experience all aspects of "real world" requirements for success and the program is a means of linking academic learning with career and community experiences. As part of this Work-Based Learning experience, students will complete a number of components resulting in a portfolio.

Penn# 0690-0699 CBDC COLLEGE BASED DUAL CREDIT

Semesters: 1 or 2 Credit: 1/block/semester Grade Level: 11-12

Prerequisite: Meet Individual College admission requirements

Weight: 4.5

**Course Description:** 

Students may enroll in College Based Dual Credit for 1, 2, 3 or 4 periods. Student schedules are individualized according to the student's interests. Students are responsible for all costs associated with the college course. Students have the opportunity to enroll in a class at a local college through the Penn CBDC Program at Penn High School. This is an opportunity for students begin college to

coursework while still in high school. An individualized schedule and plan will be developed for each participant. Juniors and seniors choose an area that matches their intended college major, their career plan or personal interest area. Participating colleges are Bethel College, IUSB, Ivy Tech, Purdue Polytechnic, Southwestern Michigan College (Niles/Dowagiac), Michiana Beauty College and Vogue. Each student will enroll through Penn High School and a local college. Each student will receive college credit from the particular post-secondary institution and high school credit from the Penn CBDC Students will pay the program. textbook cost for that particular college (same as if the student had graduated from high school and was attending the college). **Students** must provide their own transportation. Complete details are listed in the Penn College Based Dual Credit **Program** section.

Penn# 1603
PEER LEADERS (WBL)
Semesters: 2 Credits: 2
Grade Level: 9-12
Prerequisite: Interview with

course instructor

Weight: 4.0 IDOE: 5974

**Course Description:** 

This course is designed to give high school students the opportunity to interact with and learn about people with disabilities. Students will provide 5 blocks over two weeks of in-class and/or community based instruction to students with moderate and severe disabilities under the personal supervision and direction of the course instructor or classroom teaching staff.

Penn# 1611
PEER LEADERS- YAP (WBL)
Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisite: Peer Leaders- 1603 Weight: 4.0 IDOE: 5974

**Course Description:** 

This course is designed to give high school students the opportunity to interact with people with disabilities and learn how to work with them. Students will provide 5 blocks over two weeks of in-class and/or community based instruction to students with moderate and severe disabilities in the Young Adult under the Program personal supervision and instruction of the YAP director.

Penn# ELD I (1655) ELD II (1656) ELD III (1657)

Semesters: 2 Credits: 2

Grade Level: 9-12

Recommendation: WIDA Scores Weight: 4.0 IDOE: 1012 Course Description:

English Language Development is a multidisciplinary which course provides students continuing opportunities to develop the basic skills including: (1) reading, (2) writing, (3) listening, (4) speaking, (5) note taking, (6) study organizational skills, and (7) problem-solving skills that essential for high school course work achievement. Determination of the skills to be emphasized in this course is based on the Indiana State English fluency proficiencies, school individual corporation general curriculum plans, student Individualized Learning Plan (ILP). Credits earned in this course are elective credits. For further information regarding ENL services, please contact your Guidance Counselor or ENL Coordinator. Level placement is based on English level assessment.

Penn# 1658 LANGUAGE LAB

Semesters: 2 Grade Level: 9-12 Weight: 4.0 IDOE: 0500 Recommendation: WIDA Scores Course Description:

Students enrolled in Language Lab complete personalized English grammar exercises that target areas needed for growth. The class also serves as a study hall with access to ENL staff who provide structured support and guidance on general education classroom assignments. It is not required that students also take ELD in conjunction with this course.

This class replaces the traditional study hall, and Language Lab students should not be enrolled in the online Interactive Media classes associated with the grade level study halls.

Penn# 0661 BBBS: 0662 WITH 1851 OR 1865 KINGSMEN TUTOR INTERNSHIP (WBL)

Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: Application, interview, teacher recommendations, clean

disciplinary and attendance record

recora

Weight: 4.0 IDOE: 5974 Course Description:

Kingsmen Tutor Internship provides students with opportunities to tutor peers and assist a teacher during the school year in the classroom. Tutors will receive training and attend monthly meetings with the Kingsmen Tutor Leaders. If you take

second semester for no credit then is this internship considered volunteer experience, earning approximately 70 volunteer hours in the semester. Many college admission offices and scholarship committees are looking for this kind of long term service. We strongly advise you to take this class as an elective, but it can also be taken in place of a study hall. The grade will homework be based on assignments, attendance and teacher evaluations. Kingsmen Tutors will be placed in classrooms for various subjects including but not limited to foreign language, Algebra I and II, Geometry, Biology, ICP, English and Chemistry.

Penn# 1605 & 1607
AP® CAPSTONE:
AP® SEMINAR & AP®
RESEARCH
(A 2 year course - 1605 first)

Semesters: 2 Credits: 4 (2/yr)

Grade Level: 11 & 12

Weight: 5.0 IDOE: 0552 & 0551

**Course Description:** 

In APRSeminar. students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidence-based arguments. Students who earn scores of 3 or higher in **AP**® Seminar and AP® Research and on four additional AP® Exams of their choosing will receive the AP® Capstone Diploma. Students who earn scores of 3 or higher in AP® Seminar and AP® Research but not on four additional AP® Exams will receive the AP® Seminar and Research Certificate. **AP®** 

Seminar may also be taken as a stand-alone option.

AP® Capstone Research, students cultivate the skills and discipline necessary to conduct independent research in order to produce and defend a scholarly academic thesis. Students who earn scores of 3 or higher in AP® Seminar and AP® Research and on four additional AP® Exams of their choosing will receive the AP® Capstone Diploma. Students who earn scores of 3 or higher in AP® Seminar and AP® Research but not on four additional AP® Exams will receive the AP® Seminar and Research Certificate. **AP®** Seminar may also be taken as a stand-alone option. AP® Seminar would be taught to Juniors; AP® Research would be taught to Seniors.

Penn# 1869
COMMUNICATION & PUBLIC
RELATIONS INTERNSHIP (WBL)
Semesters: 2 Credits: 2

Grade Level: 10-12

Weight: 4.0 IDOE: 5974

**Course Description:** 

This internship - which is focused on promoting the events and people of Penn High School and the Penn-Harris-Madison School Corporation - is designed for students who wish to apply the practices of public relations (written and visual) in order to gain experience and build a portfolio. Students should already have a strong understanding of writing, journalistic and public relations principles, or students need to have strong graphic design/videography skills and a command of Adobe Photoshop, Adobe Illustrator,

InDesign, and/or videography skills, including Adobe Premiere Pro. Students will implement media relations strategies such as crafting press releases, writing news/features articles, or producing graphic designs or videos to promote Penn/P-H-M events/people through social/traditional media.

# **EARLY COLLEGE (EC)**

# 9TH GRADE COURSE INFORMATION

Penn# 2301

ENGLISH 9 (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 1002

**Course Description:** 

English 9 PAEC focuses increasing student understanding of our common humanity through literature. This is accomplished through a synthesis of literature, composition, research, grammar, usage, mechanics, public speaking and vocabulary; formative and summative assessments will follow in all of the above areas. Along with students becoming stronger writers, speakers, listeners and readers, they will also be better equipped for even more rigorous future English classes for college credit. Unique to PAEC English 9, students will have opportunity the to use project-based, authentic learning across the curriculum...

Penn# 2306
ALGEBRA I (EC)
Semesters: 2 Credits: 2

Oracle Levels 0

Grade Level: 9

Weight: 4.0 DOE# 2520

**Course Description:** 

The Mathematics standards for Algebra I are made up of 5 strands: Real Numbers and Expressions; linear Functions: equations, Inequalities, and Functions: Systems of Equations and Inequalities: Quadratic and Exponential Equations and Functions; and Data Analysis and Statistics. Algebra I is a required course for graduation.

Penn# 2319

BIOLOGY I (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 3024

**Course Description:** 

The course highlights how biology applies to and potentially improves human life. To help students productive develop into responsible citizens, they will make connections between biological concepts and real life applications. Through regular use of Science and Practices, Engineering inquiry laboratory investigations, data analysis, demonstrations, reading, research, group discussion, and computer simulations, Early College Biology Honors provides a study of four major themes: Biochemistry and Cells - Organic molecules, cellular components and functions. Ecology - study of the relationships between living organisms and the environment. Genetics - study of the molecular basis of heredity and inheritance of traits. Evolution mechanism for change over time

and the unity and diversity of life. In the spring, students will take Indiana Statewide Testing for ILEARN in Biology.

Penn# 2305

GEOMETRY (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 2532

**Course Description:** 

This course is for students enrolled in the Early College Program. The curriculum will be the standards for Geometry and an in-depth review of topics preparing Algebra students for Algebra II Honors their sophomore year. Geometry is designed to study the pattern and structure of geometry using the inductive techniques of and deductive reasoning. The properties and relationships of geometric figures will include the study of angles, lines, planes, congruent and similar triangles, trigonometric ratios, polygons, and circles. An understanding of proof and logic will be developed and formal proof will be emphasized.

Penn# 2308

ALGEBRA II (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Algebra I Weight: 4.0 DOE# 2522

**Course Description:** 

The Mathematics standards for Algebra II are made up of 5 strands: Complex Numbers and

Expressions; Functions; Systems of Equations; Quadratic Equations and Functions; Exponential & Logarithmic Equations and Functions; Polynomial, Rational, and Other Equations and Functions; and Data Analysis, Statistics, and Probability. Students who complete this course will enroll in Geometry 728.

A scientific calculator is required and students will gain experience using the graphing calculator.

Penn# 2309 SPANISH I (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 2120

**Course Description:** 

Spanish 1 EC is designed to prepare highly capable, motivated students to achieve dual credit through Ivy Tech in their junior or seniors. This course introduces students to the Spanish language by the basic language practicing acquisition skills of reading, writing, listening, and speaking on a daily basis. The goal of Spanish 1 EC is to establish a solid foundation in the Spanish language as well as to apply various strategies for learning a language. Within this context, Spanish 1 EC provides students with opportunities to:

- Comprehend new language through dialogues, clip art, rhymes, visuals, and video
- Practice communication through listening exercises, paired activities, and group activities
- Answer questions and express personal opinions both verbally and in writing

- Compare languages and cultures through grammar study, pronunciation, art, and readings in authentic settings
- Demonstrate all language skills through a variety of tasks and projects presented in the classroom

earth in context. The course supplements these perspectives with historic, economic, civic and cultural perspectives to frame a distinctly geographic way of looking at the world.

Penn# 2311 

IVYT 111 STUDY SKILLS (EC)
WITH 1871C/1873C PCC
Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.5 DOE# 0500 DOE: Basic Skills Development

College Credits: 3
Course Description:

Enhances success in college by assisting students in obtaining skills necessary to educational, career and life objectives. Students will create and apply critical thinking strategies of in areas time management, media literacy, learning styles, study skills, career planning, money management, resource utilization.

Penn# 2307

GEOGRAPHY AND HISTORY OF THE WORLD, (EC)

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 1570

**Course Description:** 

Honors Geography focuses on integrating the spatial and ecological geographic perspectives. Using critical thinking, and analysis the course aims to allow students to study the interdependence of the Earth's physical and human systems, putting humans and the

# 10th GRADE COURSE INFORMATION

Penn# 2315

ENGLISH 10 (EC)

Semesters: 2 Credits: 2

Grade Level: 10

Prerequisites: English 9 Weight: 4.5 **DOE# 1004** 

**Course Description:** 

English 10 PAEC is designed to prepare students for success in future dual credit classes, building on the literary and study skills they developed in English 9 PAEC. This course also pushes students to be prepared for the Accuplacer and PSAT tests, of which a certain level of competency is required for college credit classes. In addition to the curriculum developed by Penn teachers, Ivy Tech's Integrated Reading and Writing Course will also be used to help make the above goals achievable. Students and respond through analyze writing, speaking, reading, listening to a variety of fiction and non-fiction pieces of literature, as well as informational texts, giving students the necessary skills to be college-level readers successful, and writers.

Penn# 2303 😡 🚾

INTEGRATED CHEMISTRY AND PHYSICS (EC)

Semesters: 2 Credits: 2

Grade Level: 10

Prerequisites: Biology 1 **DOE# 3108** Weight: 4.0

**Course Description:** 

The course is required for students entering the Early College Program and prepares students for taking dual credit science classes through Ivy Tech Community College. This interdisciplinary science class investigates themes of chemistry and physics through a real world, project/lab-based approach which emphasizes scientific inquiry and process skills. The course will primarily focus on the following themes: Motion, Energy, Properties of Matter, Chemical Reactions, and Science in Society.

Penn# 2333

**CHEM 101 INTRODUCTION TO** CHEMISTRY (EC)

Semesters: 2 Credits: 2 Grade Level: 10 or 12

Prerequisites: Passing score on the English and Math Knowledge Assessment through Ivy Tech and completion of Alg I and Geometry

Weight: 4.5 **DOE# 3066** 

DOE- Chemistry II College Credits: 3 **Course Description:** 

An introductory course that includes the science of chemistry and measurement, atomic theory and periodic table, chemical bondina. equation writing and balancing, stoichiometry, gasses and acids/bases.

Penn# 2323

SPANISH II (EC)

Semesters: 2 Credits: 2

Grade Level: 10

Prerequisites: Spanish I Weiaht: 4.0 **DOE# 2122** 

**Course Description:** 

Spanish 2 EC is the continuation of preparing the students to achieve dual credit through Ivy Tech in their junior and senior years. This course continues to focus on the important skills of reading, writing, listening, and speaking while studying new tenses. Special emphasis will be placed on open-ended writing as well as oral proficiency that includes studying and applying pronunciation rules. Within this context, Spanish 2 students EC provides opportunities to:

- Comprehend new language through dialogues, clip art, rhymes, visuals, video, and games
- Practice communication through listening exercises, paired activities, and group activities
- Answer questions and express personal opinions both verbally and in writing
- Compare languages and cultures through grammar study, pronunciation, art, and readings in authentic settings
- Demonstrate all language skills through a variety of tasks and projects presented in the classroom

Penn# 2326 OR 2327 **CINS 101 INTRODUCTION TO** MICROCOMPUTERS (EC)

CHEM 101 INTRODUCTION TO CHEMISTRY (EC)

Semesters: 2 Credits: 2 Grade Level: 10 or 12

Prerequisites: Passing score on the English and Math Knowledge Assessment through Ivy Tech and completion of Alg I and

Geometry
Weight: 4.5 DOE#

Weight: 4.5 DOE# 3066 DOE- Chemistry II

College Credits: 3
Course Description:

An introductory course that includes the science of chemistry and measurement, atomic theory and the periodic table, chemical bonding, equation writing and balancing, stoichiometry, gasses and acids/bases.

Penn# 2367

MATH 135 FINITE MATH (EC)

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: MATH 136/MATH 137 and passing score on the Math Knowledge Assessment or PSAT.

Weight: 4.5 DOE# 2530 DOE-Finite Mathematics

College Credit: 3
Course Description:

This course is designed for college bound students. Topics include solving and graphing linear and equations inequalities, elementary set theory, matrices and applications, linear their programming, and elementary probability. This is a standard finite mathematics course. Ivy Tech Credit may be earned.

Penn# 2353 MATH 211 CALCULUS I (EC) Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: Demonstrated competency through appropriate assessment or successful completion Math 136 College Algebra and Math 137 Trigonometry with Analytic Geometry.

Weight: 4.5 DOE# 2527

**DOE- Calculus** College Credit: 4 **Course Description:** 

Reviews the concepts of exponential, logarithmic and inverse functions. Studies in depth the fundamental concepts and operations of calculus including limits, continuity, differentiation including implicit and logarithmic differentiation. Applies differential calculus to solve problems in the natural and social sciences, to solve estimation problems and to solve optimization problems. Applies differential calculus to sketch curves and to identify local and global extrema, inflection points. increasing/decreasing behavior, concavity, behavior at infinity, horizontal and vertical tangents and asymptotes, and slant asymptotes. Applies the concept of Riemann sums and antiderivatives to find Riemann integrals. Applies the fundamental theorem of calculus to solve initial value problems, and to find areas and volumes and the average values of a function.

Penn#2351/2352 SPAN 201 SPANISH LEVEL III / SPAN 202 SPANISH LEVEL IV (PAEC)

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: Passing score on

the English Knowledge Assessment, PSAT, or a cumulative GPA of 2.6 or higher and grade of C or higher in SPAN 102.

Weight: 4.5 **DOE# 2126** 

DOE- Spanish IV College Credit: 6

Course Description: [IDOE 2126] Spanish is the primary medium of instruction. The goal of the course is to continue the development and reinforcement of the skills of the target language: listening, speaking, reading and writing at an intermediate level. The course continues the study of grammar and syntax, vocabulary building, and Spanish and Latin American civilizations, cultures, and literature through discussion and written and oral reports.

Penn# 2365/2366 **GENS 279 GENERAL STUDIES CAPSTONE COURSE (PAEC)** Semesters: 1 Credits: 1

Grade Level: 12

Prerequisites: Students should only enroll in this course if they are on track to complete their lvy Tech Associate's Degree of

General Studies. College Credits: 3 **Course Description:** 

For the Early College Capstone Project, students will develop a semester-long multimedia project guided by an early college staff member. Students will be mentored in this endeavor, culminating in a reflective final project and presentation at the end of the semester which highlights one or multiple aspects of their education throughout their tenure in the Early College program at Penn, as well as potentially directing them toward their future path. This course will require both independent study and class instruction.

# FRESHMAN ACADEMY

Penn# 0301 ENGLISH 9 NCAA

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 1002

**Course Description:** 

The focus of this course is to increase student understanding of our common humanity through literature and to develop reading, writing and speaking skills. A synthesis of all the components of language arts is emphasized: literature, composition, research, grammar, usage, mechanics, public speaking, and vocabulary. Assessments include narrative writing, writing, summary thesis-based essays, and journal writing. Students will study novels, short stories, poetry and drama and informational texts. **English** students will complete multiple requirements including writing process papers and timed writing.

Penn# 0305 ENGLISH 9 HONORS

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 1002

**Course Description:** 

This course is designed for the highly motivated student who has demonstrated a high reading level and a reasonable mastery of written and spoken English. The focus of this course is to increase student understanding of our common humanity through literature and to continue communication and skill development. A synthesis of all the components of language arts is emphasized: literature, composition, research, grammar, usage, mechanics, public speaking, and

vocabulary. Assessments include narrative writing, summary writing, thesis-based essays, and journal writing. Students will study novels, short stories, poetry, drama and informational texts. Students will be expected to complete independent reading and writing, both in the summer and during the school year. English 9 Honors students will multiple complete writing including process requirements papers and timed writing.

Penn# 0355

**DEVELOPMENTAL READING I** 

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Test results, teacher

referral, and counselor

recommendation

Weight: 4.0 DOE# 1120

**Course Description:** 

This course is intended to support and enhance a student's experience with the Penn High School Freshman Academy curriculum by helping students develop understanding of themselves as readers and writers while acquiring the strategies used by highly effective readers and writers. The goal is to use contemporary, high-interest, accessible texts as the foundation around which and through which students build personal literacy identities and literacy processes. The goal is not to teach specific texts or to re-teach 9 curriculum. English Instead. students who leave this course will better understand themselves as readers and writers and, therefore, will be more strategic about how they approach reading, writing, and learning tasks. Armed with this newfound confidence, students will find themselves more prepared to engage successfully with the many learning opportunities that are offered here at Penn High School. This is an elective course; it does not satisfy the state English graduation requirement. This elective will help students start their educational career here at Penn High School on a positive note.

Penn# 0905 BIOLOGY I

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 3024

**Course Description:** 

The course highlights how biology has both personal and global implications in human lives. To help students develop into productive and responsible citizens, they will between make connections biological concepts and real life applications. Through regular use Science and Engineering Practices, laboratory investigations, projects, reading, research, group discussion, computer simulations, and videos, Biology I provides a of four major themes: study Biochemistry and Cells - organic molecules, cellular components and functions, Ecology - study of relationships between living organisms and the environment, Genetics - study of heredity and inheritance of traits, Evolution mechanism for change over time and the diversity of life. In the spring, students will take Indiana Statewide Testing for ILEARN in Biology.

Penn# 0907

**BIOLOGY I HONORS** 

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 **DOE# 3024** 

**Course Description:** 

Students with an A or B in any 8th grade science should take this course. The course highlights how biology has both personal and global implications in human lives. To help students develop into productive and responsible citizens, they will make connections between biological concepts and real life applications. Through regular laboratory investigations, projects, reading, research, group discussion, computer simulations, and videos, Biology I Honors provides a study of four major themes: Biochemistry and Cells -organic molecules, cellular components and functions, Ecology - the study of relationships between living organisms and the environment, Genetics - the study of heredity and inheritance of traits, Evolutionmechanism the change over time and the diversity of life.

Penn# 1105

THE WORLD Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 **DOE# 1570** 

**Course Description:** 

Students develop and use the six elements of geography to better understand current events and issues facing the world today. These elements are: The World in Spatial Terms, **Places** and Regions, Physical Systems, Human Systems, Environment and Society, and the Uses of Geography. Students will

demonstrate an understanding of these elements of geography in the context of world history, primarily from 1450 to the present. This geographic and historical framework provides students a unique insight. focus This course will fundamental questions, such as "Where is something? Why is it there? How did it get there? How does it interact with other things? What does it mean for the future? How does geography shape the past, present and future?" The primary subject matter is the Earth's surface and the processes that shape it; the historical context people connecting and environments; the skills necessary to read maps, graphs and other geographic data; and the skills required to conduct research and improve writing skills.

Penn# 1163 **AP® WORLD HISTORY** Semesters: 2 Credits: 2

Grade Level: 9

Weight: 5.0 DOE# 1612 **Course Description:** 

In AP® World History students investigate significant events, developments, individuals. and processes in historical periods from approximately 1200 CE to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary developing historical arguments; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans the environment. cultural developments and interactions, governance, economic systems,

economic systems, social interactions and organization, and technology and innovation.

Penn# 0717

**ALGEBRA I** Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 2520

**Course Description:** 

The Mathematics standards for Algebra I are made up of 5 strands: Real Numbers and Expressions; Functions; Linear Equations, Inequalities, and Functions: **Systems** of Equations and Quadratic Inequalities; and Exponential **Equations** and Functions; and Data Analysis and Statistics. Algebra 1 is a required course for graduation.

Penn# 0726-N

**GEOMETRY ACCELERATED 9** 

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Algebra I Weight: 4.0 **DOE# 2532** 

**Course Description:** 

The Mathematics standards for Geometry are made up of 5 strands: Logic and Proofs; Points, Lines, Angles, and Planes; Triangles; Quadrilaterals and Other Polygons; Circles: Transformations; Three-dimensional Solids. Algebra skills will reviewed be and remediated in this course.

Penn# 0713

NCAA

ALGEBRA II HONORS

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Algebra I and

Geometry

Weight: 4.0 DOE# 2522

**Course Description:** 

Students with an A or B in Algebra and Geometry should take this course. The Mathematics standards for Algebra II are made up of 5 strands: Complex Numbers and Expressions; Functions: Systems of Equations; Quadratic **Equations** Functions; and Exponential & Logarithmic and Functions; **Equations** Polynomial, Rational, and Other Equations and Functions; and Data Analysis, Statistics, and Probability. This course is for students with superior performance in math. Compared to Algebra II, the pace of this course is accelerated and topics are covered in greater depth. Students will gain experience using the graphing calculator. A scientific calculator is required and a graphing calculator is highly recommended.

Penn# 0725

**ALGEBRA II ACCELERATED** 

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisite: Algebra I Weight: 4.0 DOE# 2522

**Course Description:** 

The Mathematics standards for Algebra II are made up of 5 strands: Complex Numbers Expressions; Functions; Systems of Equations; Quadratic Equations and Functions; Exponential Logarithmic Equations and Functions; Polynomial, Rational, and Other Equations and Functions; and Data Analysis, Statistics, and Probability. Students who are successful in this course should take Pre-Calculus Accelerated. A scientific calculator is required and students will gain experience using a graphing calculator.

# **ENGLISH**

NOTE: Students must take four years of English, selecting one required course from each grade level. In addition to the required classes, students may also take classes from the electives list.

Prerequisite: English 10 AND

meet I.U. admissions

requirements

Weight: 5.0 DOE# 1006/1542 IU- HIST-H 105 American History I / HIST-H 106 American History II

College Credits: 6
Course Description:

This is a college course designed for capable juniors who meet the standards of academic rigors and success equaling those of a college freshman. Students will receive 2 **HS Credits in English 11 Honors** & 2 HS Credits in ACP US History. Although this course is offered to meet Indiana's state standards for US History credit, its applicants must meet guidelines prescribed by Indiana University. Students will earn six credit hours that are accepted at not only Indiana but all other state University, schools as well as over 700 colleges and universities across the country. The student will be awarded a weighted grade for the history portion of the class. The course will focus on various themes beginning with the age of exploration and continuing through the Reagan presidency. Students will focus on themes through various strategies including reading primary and secondary sources, and historical writing projects and presentations. ACP United States History is a course that allows students an in-depth study of the history of our great nation. Students are awarded three credit hours per semester for earning a C or better.

Students must meet admission requirements to attend Indiana University if they are taking the course for I.U. credit. The course will also develop students' skills in writing, critical thinking, literary analysis, and close reading. Texts that support the historical context will be explored including poetry, short stories, novels, etc. Students will be asked to work individually as well as collaboratively throughout the year.

Penn# 0321 ENGLISH 12

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: English 11 Weight: 4.0 DOE# 1008

**Course Description:** 

This course is a culminating arts experience language seniors. It seeks to pursue these essential questions: What are the antecedents of modern media representations in our culture? How do modern media representations affect culture and society? What do see problems we with representations of race, class, gender and sexuality in modern media? Students will be challenged summarize, analyze, and synthesize reading, speaking, viewing, and listening experiences through the writing process. Students will write frequent informal writing pieces, as well as formal, full-process essays that include multiple drafts and revisions. will Students write grade-appropriate fictional narrative, responses to literature and media, historical/ research-based reports, and create and deliver multimedia presentations. The curriculum will be a rich mixture that includes

classic literature, poetry, music, sports and current events. mythology, art, film, television, and other popular culture texts and media. This will be a unique class environment that requires interactive, engaged approach by the student; in return, the instructor provide relevant, exciting content that ranges from Homer to Edgar Allan Poe to Christopher Nolan. Ultimately, this course can unlock the potential for students to become producers of media rather than mere consumers of it.

Grade Level: 9-12

Weight: 4.5 DOE# 7139 (5986)
IVY TECH: VISC 105 Video &

Sound

College Credits: 3
Course Description:

In this introductory class to mass media and journalism, students will develop media literacy through instruction and practice. Students engage in all facets of production, and they will develop a portfolio of work that will include news-writing, broadcast production, multimedia stories, and storytelling in new and emerging media. Students will learn all aspects of production in the PNN television studio, and in the second semester, they will produce a daily news show pnn.phmschools.org. for This publications class lavs the groundwork for further study in this field (and for Audio & Video Production Essentials, 0371). More information can be found massmediastudies.net.

Penn# 0371 

AUDIO & VIDEO PRODUCTION
ESSENTIALS
(RADIO & TELEVISION II)
Semesters: 2 Credits: 2
Grade Level: 9-12
Prerequisite: Radio & TV I and
Application
Weight: 4.5 DOE# 7306 (5992)
IVY TECH: VISC 210 Production
Editing 1
College Credits: 3

**Course Description:** 

After taking **Principles** of 0369. **Broadcasting** these publications students will continue their work in the PNN Studio and at pnn.phmschools.org. This class runs the newsroom and studio for 180 days, and they are responsible for providing Penn High School complete coverage of school news. These students shoot 90 shows per year, and compete in state and national competitions. As requirement of the class, students are expected to work outside of school hours to cover events that include extra-curricular functions at Penn High School and in Saint Joseph County. Students can enroll in local production internships, and if eligible, may take the class for dual credit. More information can be found at massmediastudies.net.

Penn# 0373 OR 0374 FILM LITERATURE Semesters: 1 Credits: 1

Semesters: 1 Credits: 1
Grade Level: 10-12

Weight: 4.0 DOE# 1034

**Course Description:** 

Beginning with media literacy, students participating in this class will not only develop a critical analysis of the moving picture medium, but they will also produce independent film projects. Students will examine production from the authoring of screenplays all the way through the production, stages of post-production film creation. Instruction will be provided through selected readings, and the study of the history of filmmaking, utilization of various technologies, lab work, and time in the field producing independent film projects. Students will have the opportunity to screen their work in competitions and film festivals. The class will culminate with Penn High School's own Film Festival held in May. More information can be found at http://massmediastudies.net.

Penn# 0161
MASS MEDIA PRODUCTION
(WBL)

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Complete at least one advanced career and technical education course from a program or program of study. Worksite placement must align to the student

pathway.

Weight: 4.5 DOE# 5974
Course Description:

In this class, students may develop media literacy through instruction and practice, and they engage in all facets of production in the PNN television studio. Students may also а professional participate in internship with local Media companies. Members of the class produce a variety of projects in the studio, and they take them from concept to complete. Students develop a portfolio of work that includes television productions, news segments, music videos, service announcements, public commercial spots, live broadcasts, and multimedia stories. Students gain experience in all aspects of production in the PNN television studio, and they sometimes produce shows news for pnn.phmschools.org. This publications class lays the groundwork for further study in this field and other publications classes such as Audio & Video Production Essentials, 0371, More information be found massmediastudies.net.

# Penn# 0397 THEMES IN LITERATURE-**MYTHOLOGY** Semesters: 2 Credits: 2

Grade Level: 10-12 **DOE# 1048** Weight: 4.0

Counts as English credits for all diplomas

# **Course Description:**

Are you the type of student who reads the latest Rick Riordan. fantasy, or Harry Potter novel late into the night? Penn# 0149 INTRODUCTION TO TWO-DIMENSIONAL ART

Semesters: 1 Credit: 1 Grade Level: 9-12

**DOE# 4000** Weight: 4.0

**Course Description:** 

Introduction to 2-Dimensional Art is a 1-semester course intended to provide students with the basic skills and techniques in drawing, painting, design and printmaking. The 2/D course will help students generate new ideas, develop artistic skills, foster student imagination. Pencil, chalk, charcoal, colored pencil, marker, tempera, acrylics, oil pastels and scratchboard may be some of the materials students will explore. Our goal is one in which students gain an appreciation for the arts, and learn how the arts can be integrated into other areas of study.

Penn# 0150 **INTRODUCTION TO** THREE-DIMENSIONAL ART

Semesters: 1 Credit: 1 Grade Level: 9-12

Weight: 4.0

DOE# 4002 **Course Description:** 

Students who have previously received credit in ceramics or sculpture can not take this course. This course is not intended for students with previous credit in ceramics or sculpture. Introduction to 3-Dimensional Art is the next phase of the introductory course intended to provide students with the basic skills and techniques in ceramics. sculpture and Clav. plaster, cardboard, textiles, and other 3-dimensional materials may be explored. Through these art experiences, young adult artists will gratification in creating three-dimensional works of art. Our goal is one in which students gain an appreciation for the arts, and learn how the arts can be integrated into other areas of study.

### **CERAMICS**

Penn# 0109/0110 **CERAMICS I & II** 

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.0 **DOE# 4040** 

**Course Description:** 

This is a 2-semester course where you will learn to make your childhood mud pies into creative and useful artwork. Your artwork will not only be a decorative piece of art, but you will be able to use it in your daily life or give it to someone as a gift of love. Students will explore pinch, drape slab, sculpture techniques to construct animal sculptures, bowls, boxes, masks, teapots, tiles and vessels that have a strong sense of color and texture designs.

Penn# 0111/0112 **CERAMICS III & IV** 

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Ceramics I-II

Weight: 4.0 DOE# 4040

**Course Description:** 

This course is a further study of clay, glazing, staining and design techniques. Wheel thrown pottery will be introduced. Independent studio practices emphasizing creativity and exploration into the realm of clay as pottery will be applied to non functional and functional ware.

Penn# 0113/0114 **CERAMICS V & VI** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Ceramics III-IV **DOE# 4040** Weight: 4.0 **Course Description:** 

This course is a continuing study

and development of ceramic skills and techniques, emphasizing the development of individual style. Traditional and contemporary clay sculpture will be applied as students work on free form ceramics and the potter's wheel to create a series of nonfunctional and functional pottery.

Penn# 0115/0116 **CERAMICS VII & VIII** 

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Ceramics V-VI Weight: 4.0 DOE# 4040

**Course Description:** 

Ceramic students participating in this class are urged to create high quality artwork to be put into their portfolio. This class is designed for a student who wants to research a techniques bevond of previous levels to develop a personal concentration in their own style of artwork.

## **DRAWING**

Penn# 0117/0118 **DRAWING I & II** 

Semesters: 2 Credits: 2

Grade Level: 9-12

Weiaht: 4.0 **DOE# 4060** 

**Course Description:** 

Intro to 2-D or 3-D Art is recommended. This course is an introduction to the basic skills and techniques of drawing and composition. Emphasis will placed on the elements of structure: line, shape, form, space, value, texture, and color as well as principles of arrangement. Students will explore various media such as pencil, charcoal, pastels, pen and ink, watercolor, marker, techniques. printmaking Assignments may include: still life drawing, portraiture, perspective figure drawing, drawing, printmaking, scratchboard, graphic and abstract design. Students will be required to keep a sketchbook.

Penn# 0119/0120 **DRAWING III & IV** 

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Drawing I & II Weight: 4.0 **DOE# 4060** 

**Course Description:** 

This course is a further study of the elements and principles of drawing and design. Students will explore a wide range of techniques as it applies to the various media. Assignments may include: landscape, life drawing, architectural and fashion design, illustration printmaking techniques such as linoleum, intaglio and monoprints, and mixed media. Students will be required to keep a sketchbook quarterly and shoot 1 roll of film per semester for visual references.

Penn# 0121/0122 **DRAWING V & VI** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Drawing III & IV Weight: 4.0 **DOE# 4060** 

**Course Description:** 

This course is a continuing study of drawing and design techniques. Students that advance to this level have more project choices and are encouraged to develop a more personal style/focus. Students will

be required to keep a sketchbook quarterly and shoot 1 roll of film per semester for visual references. Assignments include: may landscape, life drawing, architectural and fashion design, illustration printmaking techniques such as linoleum, intaglio and monoprints, and mixed media. This course combines particularly well with AP Studio Art senior year.

Penn# 0123/0124 **DRAWING VII & VIII** 

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Drawing V & VI **DOE# 4060** Weight: 4.0

**Course Description:** 

This course is a continuing study of drawing and design techniques. Students that advance to this level have more project choices and are encouraged to develop a more personal style/focus. Students will be required to keep a sketchbook quarterly and shoot 1 roll of film per semester for visual references. Assignments mav include: landscape, life drawing, architectural and fashion design, illustration printmaking techniques such as linoleum, intaglio and monoprints, and mixed media.

### **GRAPHIC DESIGN**

**Digital Design Pathway:** (does not count as fine art credit)

Penn# 0133 PRINCIPLES OF DIGITAL DESIGN Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.5 **DOE# 7140** Ivy Tech- VISC 101 Design

**Fundamentals** College Credits: 3 **Course Description:**  Students will be introduced to fundamental design theory as it relates to digital art and graphic design. No prior graphic design knowledge is necessary, you will learn it all here! This course will focus on learning how to use professional design software such as Adobe Photoshop, Illustrator, and InDesign. Projects include making stickers, t-shirts, and more - all of which you will get to take home with you. Investigations into design theory will provide experiences in application, and creative ideas problem solving, and technical skills.

Penn# 0135 **DIGITAL DESIGN GRAPHICS** Semesters: 2 Credits: 2

Prerequisite: Principles of Digital

Desian

Weight: 4.5 **DOE#7141** Ivy Tech- VISC 102 Raster

**Graphics** 

College Credits: 3 **Course Description:** 

Grade Level: 10-12

Take your graphic design skills to the next level in this second year course. Students now have the background knowledge of how to use the Adobe Creative Suite and can really start to focus on applying those skills by creating their own from designs conception completion. Projects will be guided to help students learn the creative process. Topics will include logo design, designing for print (posters, brochures, flyers, business cards, etc.), the study of typography, and more.

Penn# 0137 **GRAPHIC DESIGN & LAYOUT** Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Principles of Digital

Design AND Digital Design

**Graphics** 

Weight: 4.5 DOE# 5550 Ivy Tech- VISC 115 Vector **Graphics & Publication Design** College Credits: 3

**Course Description:** 

This third year course will build upon previous courses while utilizing the Adobe Creative Suite and offer more open-ended projects. Students will have much more autonomy in making projects their own. The class will also work as a team to run a production shop for real customers by taking on roles and completing jobs from customer inquiry to delivery of the product. Students will learn about package design and the importance of creating a brand. In this class, students will really hone in on their graphic design skills by creating industry level products through innovation.

Penn# 0139 **DIGITAL DESIGN CAPSTONE** (WBL)

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: Graphic Design &

Layout

Weight: 4.0 **DOE# 7246 Course Description:** 

This course will be run similar to an independent study. Students will be able to choose their projects, focusing on creating a web-based portfolio for college and/or to take to interviews when applying for jobs. Students will have the opportunity to work on industry-grade projects for real clients. If desired, students can become an Adobe Certified Expert (ACE) in the Adobe Creative Suite programs. Students are also encouraged to explore additional graphic based software including but not limited to - video editing, web design, and animation.

### PHOTOGRAPHY

Penn# 0141/0142 PHOTOGRAPHY I & II

Semesters: 2 Credits: 2 Grade Level: 10-12

Weight: 4.0 **DOE# 4062** 

**Course Description:** 

2-D Intro to or 3-D Art Students must recommended. have access to a 35mm SLR manual camera. Students will explore the basic principles of black and white 35 mm photography. Shutter speed, aperture, depth of field, ASA/ISO film speed, lighting, processing developing and techniques will be taught. Emphasis will be placed on lighting, composition, subject matter, and darkroom techniques. Other methods for making visual images will be explored such as pinhole photography, photograms, hand coloring, and toning. Students will gain familiarity with the history of photography.

Penn# 0143/0144 **PHOTOGRAPHY III & IV** Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisite: Photography I & II Weight: 4.0 **DOE# 4062** 

**Course Description:** 

Students must have access to a digital camera along with their 35mm manual camera. Students will further explore black and white 35mm photography. Students will focus on building their skills using creative controls of aperture, shutter speed, film, and focusing. Emphasis will be placed on composition, lighting, subject matter, and darkroom techniques. Students will begin to explore digital photography.

Penn# 0173 AP® 2D ART & DESIGN: **PHOTOGRAPHY** 

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Photography III & IV

Weight: 5.0 **DOE# 4050** 

**Course Description:** 

Students will further explore the world of digital photography creating portfolio quality works and gaining essential photoshop skills. Advanced Placement® (AP®) Studio Art program enables highly motivated students to college-level work in studio art while still in high school. The program is intended to help students build a professional portfolio that can be submitted for entrance to an Art College, University, or Institute as well as scholarship opportunities. Guidelines for Advanced Placement® Studio Art portfolios been designed have accommodate a variety of interests and approaches to art. Students must submit 24 pieces that will be evaluated on the basis of quality (student's most successful works with respect to form and content,) concentration (sustained, deep, and multi-perspective investigation of a student-selected topic,) and breadth (a range of ideas and approaches to art-making.). Portfolios will be submitted for evaluation at the end of the semester to the AP® College Board. It is highly recommended that you reference this link regarding

the AP® Studio Art 2-D Design Portfolio: <a href="http://apcentral.collegebo">http://apcentral.collegebo</a> ard.com/apc/members/exam/exa m\_information/2134.html

#### **PAINTING**

Penn# 0101/0102 PAINTING I & II

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.0 DOE# 4064

**Course Description:** 

Intro to 2-D or 3-D Art recommended. This course is an introduction to the basic principles of painting. Students will have an opportunity to explore various techniques associated with watercolor, tempera, acrylics, and oil paints. Connections will be made between historically significant painters and periods of art. First year painting students will learn to merge the brush stroke with their imagination.

Penn# 0103/0104 PAINTING III & IV

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Painting I & II

Weight: 4.0 DOE# 4064

**Course Description:** 

This course gives students the opportunity to expand upon the methods of painting learned in beginning painting. Students will experiment with new techniques and begin to develop a personal style.

Penn# 0105/0106 PAINTING V & VI

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Painting III & IV

Weight: 4.0 DOE# 4064
Course Description:

This course is a continuing study of painting principles and techniques emphasizing the development of an individual style. Assignments will be open-ended and student driven, while attempting to create a personal portfolio.

Penn# 0107/0108
PAINTING VII & VIII

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Painting III & IV Weight: 4.0 DOE# 4064

**Course Description:** 

This course is a continuing study of painting principles and techniques emphasizing the development of an individual style. Assignments will be open-ended and student driven, while attempting to create a personal portfolio.

#### **SCULPTURE**

Penn# 0125/0126 SCULPTURE I & II

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.0 DOE# 4044

**Course Description:** 

This course introduces the basic and techniques principles of sculpture using а variety of materials. Assignments will include sculptural techniques and methods subtractive, additive, constructive processes using such materials as clay, cardboard, paper, foam board, wire, plaster, found objects, paper mache', etc.

Penn# 0127/0128 SCULPTURE III & IV

Semesters: 2 Credits: 2

Grade Level: 10-12

Prerequisite: Sculpture I & II
Weight: 4.0 DOE# 4044

**Course Description:** 

Application, and 2nd semester enrollment required. This course is a further study of sculpture with emphasis on the human form and the relationships of size, space and forms in the environment. Students carve a sculpture from soapstone. Other assignments may include: clay, plaster, cardboard, wood carving, paper mache' sculptures, constructism bust, and creating 3-Dimensional buildings, etc.

Penn# 0129/0130 SCULPTURE V & VI Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisite: Sculpture III & IV Weight: 4.0 DOE# 4044

**Course Description:** 

Application, and 2nd semester enrollment required. This course is a continuing study of sculptural techniques principles and emphasizing the development of an individual style. Student assignments may include: realistic clay bust, alabaster sculpture, wax sculpture, found objects in metal, plaster, and casting of the human form, wood carving, glass creations etc...

Penn# 0131/0132 SCULPTURE VII & VIII

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Sculpture V & VI Weight: 4.0 DOE# 4044

**Course Description:** 

Application, and 2nd semester enrollment required. This course is an advanced study of sculpture principles and techniques emphasizing advanced materials, tools, and sculpting methods.

Penn# 0155/0156 **ART HISTORY & ADVANCED ART** 

**HISTORY** 

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Intro to 2-D or 3-D

Art recommended.

DOE# 4024 & 4020 Weight: 4.0

**Course Description:** 

Through lectures. slide presentations. videos, guest speakers, and special art projects, art history students will develop an appreciation for art history and cultures. #### **PHYSICAL EDUCATION (9)**

Penn# 0501/0502 PHYSICAL EDUCATION I & II Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 3542 & 3544)

**Course Description:** 

Required attire: Gold shirt & Black shorts. Secondary Physical Education I & II are based on fitness health-related and developing the skills and habits necessary for a lifetime of activity. This course includes the five components of physical fitness. Activities such as aerobic activity, aquatics, team sports, recreational sports, individual and dual sports will be used to create an interest in developing and maintaining physical fitness. Students will evaluate their own fitness level through a fitness assessment in fall and winter. Students will complete nutrition, fitness and wellness through interactive physical education in a blended learning environment. Vital knowledge will be conveyed through this learning to stay fit, healthy and happy while creating extended opportunities in class participation.

### **ELECTIVE PHYSICAL EDUCATION COURSES**

Classes in Advanced PE can be taken a second time for credit. Students need to be in good standing for dress and participation, receiving A or B in the course the first time. Teacher discretion can be implemented.

Penn# 0537/0538 (for credit) 0551/0552 (for no credit) 0525/0526 ("0"Hour) 0555/0556 (PE-9)

PHYSICAL CONDITIONING
Semesters: 1 Credits: 1

Grade Level: 9-12

Prerequisite: Desire to tryout and/or participate on a Penn

athletic team

Weight: 4.0 DOE# 3560 Course Description:

This is a performance based class and participants will be expected to work through a prescribed workout under the guidance of a Certified Strength and Conditioning Coach. Student-athletes will learn a variety of techniques that can be used to improve all aspects of physical fitness and performance. Students will explore how to improve upper, lower, and core body flexibility, strength and power. They will work on ways to improve agility, speed, and nutrition.

Penn# 0505 AND/OR 0506 FITNESS I

Semesters: 1 Credits: 1 Grade Level: 10-12

Prerequisite: B or better in Physical Education I & II OR

teacher approval

Weight: 4.0 DOE# 3560

**Course Description:** 

This class will offer a set routine that will encompass total-body muscle fitness, as well as cardiovascular fitness. Students will utilize muscle fitness and cardiovascular machines (no free weights). Students will learn proper work habits and good time management skills. Correct technique for weight training will be introduced and implemented by all students, whether beginners or experienced lifters. Throughout the semester students will gain an understanding of how to develop muscle group, each how to maximize workout benefits, how to monitor and assess progress, and how to achieve personal goals. Near the end of the semester. students will determine and utilize their own muscle fitness routine. To take the course a second time: students must have earned an "A" or "B" in Fitness I the first time.

Penn# 0509 AND/OR 0510 FITNESS II

Semesters: 1 Credits: 1 Grade Level: 11-12

Prerequisite: B or better in Fitness I OR teacher approval Weight: 4.0 DOE# 3560 Course Description:

This will be a continuation of skills learned in Fitness I. new individualized programs, continued learning of muscle groups and workouts to aid in lifetime fitness. The course will offer individualized programs for physical improvement. Correct techniques for use of weights and three different programs for weight training will be introduced and implemented. An individualized program will be set up to meet each student's needs. Machine weights and cardiovascular machines will be utilized, not free weights. To take course a second

time: student must have earned an "A" or "B" in Fitness II the first time.

#### Penn# 0533 AND/OR 0534 XFIT

Semesters: 1 Credits: 1 Grade Level: 10-12

Prerequisites: B or better in Physical Education I & II OR

teacher approval

Weight: 4.0 DOE# 3560
Course Description:

XFIT is a strength and conditioning program. It is not sport specific and promotes general overall physical fitness. XFit workouts call for participants to work hard and fast with little rest. Competence will be required in

cardiovascular/respiratory endurance, stamina. strength, flexibility, power, speed, agility, balance, coordination and accuracy. Α combination of athletic conditioning, plyometrics, Olympic weightlifting, medicine ball and dumbbell training, some swimming possible, body weight movements, running and jump roping will be used. The workouts are always varied. Application must be filled out and approved by teacher in order to take XFit twice.

Penn# 0513 AND/OR 0514
LIFEGUARD TRAINING
Semesters: 1 Credits: 1
Grade Level: 10-12
Prerequisite: B or better in
Physical Education I & II AND
Pass Swim Test
Weight: 4.0 DOE# 3560
Course Description:

Swim Test consists of: 550 yard swim including breaststroke & front crawl with rhythmic breathing, swim 20 yds., surface dive to a depth of 7 ft., retrieve a 10 lb. object, return to

the surface, and swim 20 yds. back to the starting point, and exit without a ladder ( 1 minute, 40 seconds). Swim 5 yds; submerge and retrieve three diving rings placed 5 yds apart in 4-7 feet of water; resurface; and swim 5 yds to the side of the pool. This course provides participants with the knowledge, skill, and practice needed to become well-trained and effective lifeguards at pools and at a waterfront environment. Certificates are given.

## Penn# 1858 (1857 0 credit) PENN LIFEGUARD INTERNSHIP (WBL)

Semesters: 2 Credits: 2
Grade Level: 11-12
Prerequisite: Lifeguard
Certification and First Aid, CPR
and AED Certification
Weight: 4.0 DOE# 5974
Course Description:

This course is intended to help develop strong skills and work ethic in student lifeguards. Students will be responsible for ensuring the patrons safety of facility by preventing and responding emergencies. Students will perform lifeguard surveillance. rescue techniques, emergency preparations, and head, neck and back management skills. Students will perform various maintenance duties to meet class standards and the duties of a lifeguard. Students will also be expected to participate in mandatory in-service training. Student interns will be highly recommended for paid lifeguard positions through Penn High School Aquatics.

### Penn# 0521 AND/OR 0522 WATER ACTIVITIES

Semesters: 1 Credits: 1 Grade Level: 10-12

Prerequisite: Physical Education
I & II AND Pass Swim test OR
Case Conference Committee
recommendation

eight: 4.0 DOE# 3560 Course Description:

Swim Test includes: 4 laps of pool. Tread water for 5 minutes, Comfortable swimming in deep water for long periods of time. Water Activities is a one-semester course where students may enhance their physical fitness through water related activities. Students use their swimming ability to play a variety of water games and team challenges such as water polo, ultimate torpedo, water basketball, diving board games and water soccer. Students have the opportunity to be introduced to scuba diving and experience an actual dive in the pool. Students will create and present their own pool game.

### Penn# 0507 AND/OR 0508 (Coed) 0547 AND/OR 0548 (Girls) ADVANCED TEAM SPORTS

Semesters: 1 Credits: 1
Grade Level: 10-12
Prerequisite: Phys Ed I & II
Weight: 4.0 DOE# 3560
Course Description:

Advanced Team Sports promotes lifelong physical activity through team sports. Students will incorporate daily fitness into a lifetime routine. This elective will feature advanced fundamentals, techniques, and strategies of the following activities: softball, tennis, flag football, ultimate frisbee, indoor soccer, volleyball, basketball, and recreational sports.

To take a course a second time: student must have earned an "A" or "B" in ATS the first time.

\*\*We do offer a female section as well as the coed option.

Penn# 0541 AND/OR 0542
BASKETBALL-Recreational
Semesters: 1 Credits: 1
Grade Level: 11-12
Prerequisite: B or better in
Physical Education I & II OR
teacher approval
Weight: 4.0 DOE# 3560
Course Description:

This one semester course is designed to meet the fitness needs of both boys and girls who want to use the sport of basketball for cardiovascular exercise. With the class focus on basketball game play, students will use half of the daily class time in half court 5 on 5 competition and the other half of class on full court 5 on 5 competition. ΑII students will demonstrate basketball game play knowledge and take turns with officiating responsibilities of the full court game. Daily sportsmanship is required. Course can only be taken one time each semester.

#### Penn# 0543 / 0544 OFFICIATING

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: PE I & II Weight: 4.0 DOE# 3560

(Students can take 2 semesters)

**Course Description:** 

Officiating is a course created in partnership with the IHSAA. Students will study and practice officiating in 2 sports each semester. Once students have learned the rules and standards of officiating they will take the IHSAA test and become licensed officials. Student

Officials can officiate middle school and little league sports.

Field experience is required and may happen outside of class time and/or outside of the school day. The teacher will coordinate with students.

Some sports knowledge is required for students to be successful in this course.

### <u>HEALTH</u>

Penn# 0515 OR 0516 HEALTH & WELLNESS EDUCATION

Semesters: 1 Credits: 1

Grade Level: 10

Weight: 4.0 DOE# 3506

**Course Description:** 

All things talked about in Health apply to everyday life, now and forever. Health Education designed to foster knowledge and attitudes leading to wellness and healthy lifestyles choices. This course includes wellness, mental health and mental illness, stress CPR, management, dating relationships (including dating violence), human sexuality, pregnancy and sexually transmitted infections, suicide, nutrition, and drug and alcohol education, including prescription drugs and vaping. This course assists students in understanding that health is a lifetime commitment by analyzing individual risk factors and health decisions that promote health and prevent disease. A variety of instructional strategies and current events will bring this course to life. Peer class discussions also make this a don't miss class.

Penn# 0517 OR 0518

**ADVANCED HEALTH EDUCATION** 

Semesters: 1 Credits: 1 Grade Level: 10-12

Prerequisite: Health & Wellness

Education

Weight: 4.0 DOE# 3500

**Course Description:** 

Advanced Health Education is a health elective course for those students who may be interested in a health related career. Students will study the history of medicine, systems of the body, bones and muscles, CPR, Torts, risk appraisals and current health trends. Careers in health are researched, explored and job shadowed. Canvas work and job interviews are also included.

Penn# 0535
PRINCIPLES OF EXERCISE
SCIENCE

(HEALTH SCIENCE EDUCATION I)

Semesters: 2 Credits: 2 Grade Level: 10-12

Weight: 4.0 DOE# 7320 (5282)

**Course Description:** 

Physical Therapy/Athletic Training. Health Science Education I is a course designed to provide a foundation of skill development to health careers. Students will receive healthcare introduction to systems, anatomy, physiology and terminology. Laboratory medical experiences are organized and around the planned activities associated with the student's career objectives. This course will include CPR/AED/First Aid Certification and taping technique labs and modality use.

Penn# 0557
KINESIOLOGY
2 Semesters 2 Credits Grade

Level: 11-12

Prerequisite: Health Science

Education I

Weight: 4.0 DOE # 7321

**Course Description:** 

Extended laboratory experience at a qualified clinical site designed for students to assume the role of a student athletic trainer assistant and practice using the technical skills and information previously learned in the classroom. This course with prepares students knowledge, skills and attitude essential for providing basic care under the direction of licensed Athletic Trainers.

Penn# 0559 HEALTH SCIENCE EDUCATION II: PHYSICAL THERAPY

2 Semesters 2 Credits Grade

Level: 11-12

Prerequisite: Health Science

Education I

Counts as 3rd science course Weight: 4.0 DOE # 5215 Course Description:

Extended laboratory experience at a qualified clinical site designed for students to assume the role of a physical therapy assistant and practice using the technical skills and information previously learned in the classroom. This course prepares students with the skills and attitude knowledge, essential for providing basic care under the direction of licensed Physical Therapists.

### **SOCIAL SCIENCES**

#### **SOCIAL SCIENCES**

Penn# 1137

AP® HUMAN GEOGRAPHY Semesters: 2 Credits: 2

Grade Level: 10-12

Prerequisite: Geography and

History of the World
Weight: 5.0 DOE# 1572
Course Description:

The purpose of this course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ spatial concepts and landscape analysis to analyze human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. All students enrolled in this course will take the AP® Human Geography exam in the spring.

Penn# 1103

WORLD HISTORY AND CIVILIZATION

Semesters: 2 Credits: 2 Grade Level: 10-12 Weight: 4.0 DOE# 1548

Course Description:

This course is designed to give a panorama of history from earliest times to 1900. It covers the traditional societies of the West, Asia, and Africa. The course is designed to show the continuity of

history; forces and ideas that have shaped history; and developments in the arts, religion, and social life.

Penn# 1163 (9)

Penn# 1164 (10-12)
AP® WORLD HISTORY

Penn# 1171/1172 SOCIAL JUSTICE SOCIOLOGY & ANTHROPOLOGY

Semesters: 2 Credits: 2

Grade Level: 12

Weight: 4.0 DOE# 1534/1502

**Course Description:** 

Students will receive 1 HS Credit in Sociology & 1 HS Credit in Anthropology. Gandhi said, "Be the change you wish to see in the world" as he recognized the need to improve the world in which he lived. Social justice provides this opportunity to look at social and cultural issues locally, nationally, and globally. Sociology will focus on the society in which we live by examining topics such inequalities of race and ethnicity, gender and age, social status, and culture. The course expands beyond the United States to look at anthropology, the science humankind. Specific focus will be put on culture including education, political/economic institutions, and family. Various religion, traditions, beliefs, values, social institutions, art, and the impact of humans on other humans will be considered. During the duration of the course students are required to go outside of the classroom and do as Gandhi said by providing service to others. An intricate element of the course is to apply the knowledge learned in class to others locally, nationally, and globally through service learning.

INTRODUCTION TO COMPUTER
SCIENCE (PLTW-CSE)

Semesters: 1 Credits: 1
Grade Level: 9-10

Weight: 4.0 DOE# 4803

**Course Description:** 

Introduction to Computer Science allows students to explore the world of computer science. Students will gain a broad understanding of the areas composing computer science. Designed to be the first computer science course for students who have never programmed before, Introduction to Computer Science is good starting point of the Computer Science Pathway. Students work in teams to create apps for mobile devices using MIT App Inventor®. They explore the impact of computing in society and build skills in digital citizenship and cyber-security. Beyond learning the programming, fundamentals of students build computational-thinking skills bγ applying computer science collaboration tools, modeling and simulation, and data analysis. In addition. students transfer

understanding of programming gained in App Inventor to text-based programming in Python® and apply their knowledge to create algorithms for games of chance and strategy.

#### **COMPUTER SCIENCE**

**Computer Science Pathway:** 

Penn# 0217

CS PRINCIPLES OF COMPUTING (COMPUTER SCIENCE I)

Semesters: 2 Credits: 2 Grade Level: 9-12

Counts as 3rd science course

Weight: 4.5 DOE# 7183 (4801)

Ivy Tech- SDEV 120 Computing

Logic

College Credits: 3
Course Description:

This course is designed for students with no previous programming experience, who are good problem solvers, who have acquired basic Windows skills and are interested in computer science or related career fields. This course will help students learn how to plan, create and debug their own interactive Windows applications and games using the programming language, Visual Basic 2012.

Penn# 0219

TOPICS IN COMPUTER SCIENCE (COMPUTER SCIENCE II)

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: CS Principles of Computing (Computer Science I) Counts as 3rd science course Weight: 4.5 DOE# 7351 (5236) Ivy Tech- SDEV 140 Introduction to Software Development

College Credits: 3
Course Description:

This course is designed for students with a greater interest in computer

science and related career fields. This course will develop and explore various techniques from previous programming classes and apply them using the programming language, C++ in a console environment using Visual Studio.

Penn# 0221

AP® COMPUTER SCIENCE A (COMPUTER SCIENCE)
Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisite: Topics in Computer Science (Computer Science II) Counts as 3rd science course Weight: 5.0 DOE# 7352 Course Description:

**AP®** Computer Science introduces students to computer science through programming. Fundamental topics include the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and discover new information, the analysis of potential solutions, and the ethical and social implications of computing systems. The course emphasizes object-oriented programming and design using the Java programming language.

# INFORMATION TECHNOLOGY

Information Technology Operations Pathway:

Penn# 0615 

IT PRINCIPLES OF COMPUTING
(INFORMATION TECHNOLOGY
SUPPORT I)

Semesters: 2 Credits: 2 Grade Level: 9-12

Counts as 3rd science course Weight: 4.5 DOE# 7183 (5230)

Ivy Tech- INFM 109 Informatics Fundamentals & ITSP 135 Hardware/Software Support College Credits: 7 Course Description:

This course allows students to explore how computers work. Students learn the functionality of hardware and software components as well as suggested best practices in maintenance and safety issues. Through hands-on activities and students learn labs, how to assemble and configure a computer, install operating systems software, and troubleshoot hardware and software problems.

Penn# 1852

INFORMATION TECHNOLOGY FUNDAMENTALS

(INFORMATION TECHNOLOGY SUPPORT II: CAPSTONE)

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisites: Information

Technology Support I

Weight: 4.5 DOE# 7180 (5231)
Course Description:

IT Support Interns will learn how to troubleshoot computers and maintain technology equipment. Objectives of this course include IT support for teacher laptops, student teacher Chromebooks maintaining the technology infrastructure to help meet Penn High School technology. In addition, students will learn Linux, cyber security, and server skills.

Weight: 4.0 DOE# 7181 (5253) Ivy Tech- NETI 104 Introduction to Networking

College Credits: 3
Course Description:

This course introduces the secure software development process including designing secure applications, writing secure code designed to withstand various types of attacks, and security testing and auditing. It focuses on the security issues a developer faces, common security vulnerabilities and flaws, and security threats. The course principles, security explains strategies, coding techniques, and tools that can help make software fault tolerant and resistant to attacks.

Penn# 1823 IT STUDENT ASSIST 2 Semesters 2 Credits Grade Level: 11-12

Prerequisites: IT Principles of

Computing

Weight: 4.0 DOE# 7245 (5974)

**Course Description:** 

IT Support Interns will learn how to troubleshoot computers and maintain technology equipment. Objectives of this course include IT support for teacher laptops, student & teacher Chromebooks and maintaining the technology infrastructure to help meet Penn High School technology.

Penn# 0261 😡

AP® COMPUTER SCIENCE PRINCIPLES (PLTW CSP) Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Introduction to

Science I

Counts as a math course Counts as 3rd science course Weight: 5.0 DOE# 4568 Course Description:

Computer Science OR Computer

The AP® Computer Science Principles course will introduce you to the essential ideas of computer science and show how computing and technology can influence the world around you. Students will creatively address real-world issues and concerns while using the same processes and tools as artists, writers, computer scientists, and engineers to bring ideas to life.

# **MATH**

# Typical PHM Math Sequence

# **MATHEMATICS**

Penn# 0718 ALGEBRA I

Semesters: 2 Credits: 2 Grade Level: 10-12 Weight: 4.0 DOE# 2520

**Course Description:** 

The Mathematics standards for Algebra I are made up of 5 strands: Real Numbers and Expressions; Functions; Linear Equations, Inequalities, and Functions: Systems of **Equations** and Inequalities; Quadratic and Exponential **Equations** and Functions; and Data Analysis and Statistics.

Penn# 0728 GEOMETRY

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Algebra I (0717)
Weight: 4.0 DOE# 2532
Course Description:

The Mathematics standards for Geometry are made up of 5 strands: Logic and Proofs; Points, Lines, Angles, and Planes; Triangles; Quadrilaterals and Other Polygons; Circles; Transformations; and Three-dimensional Solids. Algebra skills will be reviewed and remediated in this course.

Penn# 0726

**GEOMETRY ACCELERATED 10** 

Semesters: 2 Credits: 2
Grade Level: 10-12
Prerequisite: Algebra I 8
Weight: 4.0 DOE# 2532
Course Description:

The Mathematics standards for Geometry are made up of 5 strands: Logic and Proofs; Points, Lines,

Angles, and Planes; Triangles; Quadrilaterals and Other Polygons; Circles; Transformations; and Three-dimensional Solids. Algebra skills will be reviewed and remediated in this course.

Penn# 0724 ALGEBRA II

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Geometry (0728)
Weight: 4.0 DOE# 2522
Course Description:

The Mathematics standards for Algebra II are made up of 5 strands: Complex **Numbers** and Expressions; Functions; Systems of Equations; Quadratic Equations and Exponential Functions: & **Equations** Logarithmic and Polynomial, Rational, Functions; and Other Equations and Functions; and Data Analysis, Statistics, and Probability. Students who complete this course will enroll in Geometry 728.

A scientific calculator is required and students will gain experience using the graphing calculator.

Penn# 0710
ANALYTICAL ALGEBRA II
Semesters: 2 Credits: 2
Grade Level: 10-12
Prerequisite: Geometry
Weight: 4.0 DOE# 2524
Course Description:

This course is designed for students who do not have an Algebra II credit and are planning on earning a Core 40 Diploma. Analytical Algebra II should focus on the application of mathematics in various disciplines including business, finance, science, career and technical education, and social sciences. This course covers most of the traditional Algebra II

standards, but the focus is on the application of algebraic concepts rather than theoretical concepts. This course is for those students who may plan to go to college but not necessarily majoring in a heavy Math-related field.

\*Parents must sign a form for students to be enrolled in this course that will inform the parents that the enrollment in Analytical Algebra II might affect the student's acceptance into particular postsecondary programs or institutions.

Penn# 0789

COLLEGE ALGEBRA Semesters: 2 Credits: 2 Grade Level: 11-12

3 College Credits can be earned Prerequisites: Algebra II and

Geometry

Weight: 4.5 DOE# 2564 IVY TECH- MATH 136 College Algebra

**Course Description:** 

This course is designed for students that need additional work in Algebra before attempting Pre-calculus. College Algebra - Ivy Tech 136 presents an in-depth study of functions, quadratic, polynomial, and rational equations, radical, radicals, complex numbers, systems of equations, rational fractions and exponential and logarithmic functions. Ivy Tech Credit may be Topical areas of study earned. polynomial, include: Quadratic. rational and radical equations, Complex Numbers, Exponential and logarithmic functions, Radicals and rational expressions, Graphs of equations and functions, Variation, and Systems of equations.

Penn# 0759 FINITE MATH

Semesters: 2 Credits: 2

Grade Level: 12

IVY TECH- MATH 135 Finite Math 3 College Credits can be earned Prerequisite: Algebra II and Geometry or Pre-Calculus Weight: 4.5 DOE# 2530 Course Description:

This course is designed for college bound students. Topics include graphing linear solvina and equations and inequalities, elementary set theory, matrices and applications, their linear programming, and elementary probability. This is a standard finite mathematics course.

Penn# 0753 PRE-CALCULUS

Semesters: 1 Credits: 1 Grade Level: 10-12 IVY TECH - MATH 136 Prerequisite: Algebra II and

Geometry

Weight: 4.5 DOE# 2564

**Course Description:** 

Also register for 0732. This course extends the foundations of algebra and functions developed in previous courses to new functions. The course includes concepts that must be mastered prior to enrollment in a college-level calculus class. functional approach provides a means for examining linear. quadratic, higher degree, rational and relationships logarithmic functions. A scientific calculator is required and a graphing calculator is highly recommended.

Penn# 0732

TRIGONOMETRY

Semesters: 1 Credits: 1 Grade Level: 10-12 IVY TECH - Math 137

Prerequisite: Algebra II and

Geometry

Weight: 4.0 DOE# 2566

**Course Description:** 

register for 0753. Also Trigonometric relationships will be developed from an understanding of the circular function and their properties and graphs. Inverse trig functions, trig equations and identities, the Law of Sines and Cosines and applications of trig functions will be studied. The course also includes arithmetic and geometric sequences.

Penn# 0735

PRE-CALCULUS ACCELERATED

Semesters: 1 Credits: 1
Grade Level: 10-12
IVY TECH - MATH 136
Prerequisite: Algebra II
Accelerated OR Honors
Weight: 4.5 DOE# 2564

**Course Description:** 

register for 0736. Also Pre-Calculus extends the foundation of algebra and functions developed in previous courses to new functions and to a more advanced level. Pre-Calculus is made up of the Following strands: Complex Numbers, Functions, Quadratic, Polynomial and Rational Equations and Functions, Exponential and Logarithmic **Equations** and Functions. This course is designed to provide students with a strong foundation for Calculus. This course is preparing the students for ACP Calculus 215. A scientific calculator is required and a graphing calculator is highly recommended.

Penn# 0736

TRIGONOMETRY ACCELERATED

Semesters: 1 Credits: 1 Grade Level: 10-12 IVY TECH - MATH 137 Prerequisite: Algebra II Accelerated OR Honors Weight: 4.5 DOE# 2566

**Course Description:** 

register 0735 Also for Trigonometry Accelerated provides students the with skills understandings that are necessary for advanced manipulation of angles and measurement. Trigonometry consists of: Conics, Unit Circle, Periodic Functions, Identities, Polar Coordinates Vectors. and Trigonometry provides the foundation for common periodic functions that are encountered nearly all STEM disciplines. This course is preparing the students for ACP Calculus 215.

Penn# 0733

AP® PRE-CALCULUS Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Algebra II Honors Weight: 5.0 DOE# 2563

**Course Description:** 

AP Pre-Calculus is an Honors course that extends the foundation of algebra and functions developed in previous courses to new functions and to a more advanced level. Pre-Calculus is made up of the following strands: Functions: Quadratic, Polynomial, and Rational **Equations** and Functions: Exponential and Logarithmic Functions; Sequences and Series; and Conics. This course is designed

to provide students with a strong foundation for Calculus. This course is preparing the students for AP® Calculus AB and for students who expect math to be a major component of their college courses. A scientific calculator is required and a graphing calculator is highly recommended.

Penn# 0787

**ACP BRIEF SURVEY OF** CALCULUS I Semesters: 2

Credits: 2 Grade Level: 11-12

Prerequisite: Pre-Calculus AND meet IU admission requirements DOE# 2527 Weiaht: 5.0 IU- MATH-M 119 Brief Survey of

Calculus I College Credits: 3 **Course Description:** 

This course is an in-depth study of functions, graphs, limits, continuity, derivatives, and integrals of those functions and their applications. It provides rigorous instruction in mathematical modeling concepts and skills presented in the context of real-world applications. It may be taken for college credit for students pursuing a liberal arts program in college. NOTE: In order to receive weighted credit on transcripts, students must successfully complete both semesters of the course and take the I.U. final exam. An hourly fee for 3 credits will be assessed by Indiana University for students opting for college credit.

Penn# 0765 **ACP CALCULUS I** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Pre-Calculus Accelerated OR Honors AND meet IU admission requirements Weiaht: 5.0 DOE# 2527 IU- MATH-M 215 Calculus I

College Credits: 5 **Course Description:** 

This is a college Calculus course, which is comparable to the length and difficulty of a first semester college calculus course. It is an in-depth study of functions, limits, graphs, continuity, derivatives, and integrals of those functions and their applications. Students who apply, qualify and successfully complete the course will receive five Indiana University credits that may be transferable to other colleges. NOTE: In order to receive weighted credit on transcripts, students must complete successfully both semesters of the course and take the I.U. final exam. An hourly fee for 5 credits will be assessed by Indiana University for students opting for college credit.

**ACP CALCULUS II** Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: ACP Calculus M215 OR AP® Calculus AB AND meet IU admission requirements Weight: 5.0 DOE# 2544 IU- MATH-M 216 Calculus II College Credits: 5

**Course Description:** 

Penn# 0769

This course is an in-depth study of advanced techniques in integration, volumes of solids of revolution, sequences and series. Students

qualify who and successfully complete the course will receive five Indiana University credits that may be transferable to other colleges. NOTE: In order to receive weighted credit on transcripts, students must successfully complete both semesters of the course and take the I.U. final exam. An hourly fee for 5 credits will be assessed by Indiana University for students opting for college credit.

Penn# 0737 **AP® CALCULUS AB** 

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Pre-Calculus

Honors and Algebra Weight: 5.0 DOE# 2562 **Course Description:** 

This is a college Calculus course. It is designed for students who have demonstrated superior а performance in math. The pace of this course is more accelerated and the content depth is greater than in Honors courses. The course includes advanced integration and differentiation techniques. The use of a graphing calculator is central to the course. Students should be prepared to do a self-paced intensive Pre-Calculus review during the summer prior to entering the It is required that each course. student has a graphing calculator. A student may gain college credit with a successful score on the AP® exam. NOTE: In order to receive weighted credit and the Advanced Placement® designation on transcripts, students must successfully complete both semesters of the Advanced Placement® course and take the Advanced Placement® examination in that course.

Penn# 0745

**AP® CALCULUS BC** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: AP® Calculus AB Weight: 5.0 DOE# 2572

**Course Description:** 

This is a second year course that complies with and exceeds the College Board standards. It is an in-depth study of advanced techniques of integrations, improper integrals, sequences and series, differential equations, topics three-dimensional space and It is required that each vectors. student has a graphing calculator. A student may gain college credit with a successful score on the AP® exam. NOTE: In order to receive weighted credit and the Advanced **Placement®** designation on transcripts, students must successfully complete both semesters of the Advanced Placement® course and take the Advanced Placement® examination in that course.

Penn# 0747/0749

MULTIVARIABLE CALCULUS & DIFFERENTIAL EQUATIONS

Semesters: 2 Credits: 2 Grade Level: 12

Prerequisite: AP® Calculus BC

Ball State- MATH 267

Multivariable Calculus / MATH 374

Differential Equations
College Credits: 6

Weight: 4.5 DOE# 2544

**Course Description:** 

Topics include three-dimensional vector calculus, Gauss's theorem, Green's theorem, and Stoke's theorem. Introduction to nth-order ordinary differential equations, equations of order one, elementary

applications, linear equations with constant coefficients. nonhomogeneous equations, undetermined coefficients, variation of parameters, linear systems of and equations, the Laplace transform. This course includes the use of graphing calculators and computer software. This course is offered as distance learning through Ball State University. Students will participate during the school day. The course requires special registration through the Counseling Office and the Math Instructional Leader. There will be a fee payable to Ball State University for Dual Credit.

Penn# 0771 OR 0772

PROBABILITY AND STATISTICS

Semesters: 1 Credits: 1 Grade Level: 11-12

Prerequisite: Algebra II and

Geometry

Weight: 4.0 DOE# 2546 Course Description:

This course includes the concepts and skills needed to apply statistical techniques in the decision-making process. Students will learn the basics populations about samples and how to design, implement, collect and interpret a study, and learn the basics of hypothesis testing. The course is designed around in-class use of graphing calculators in addition to simple hand calculations.

Penn# 0767

**AP® STATISTICS** 

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Algebra II and

Geometry

Weight: 5.0 DOE# 2570

**Course Description:** 

This course is for mathematically able students who can work at a fast pace and wish to complete studies in high school, equivalent to a one-semester, non-calculus based college course in introductory statistics. It is recommended for iuniors or seniors who will be exposed to four broad conceptual themes: exploring data by observing patterns and departures patterns; planning a study to decide what and how to measure: producing models using probability and simulation; and using statistical inference to confirm models. The use of computer software and graphing calculator technology will be an integral part of the course. It is required that each student has a graphing calculator with statistical capabilities (the TI-83 or TI-84 is recommended. A student may gain college credit with a successful score on the AP exam.

Penn# 0775 (with 0778) ALGEBRA I LAB

Semesters: 2 Credits: 2

Grade Level: 9

Prerequisites: Students are placed in the course based on standardized test scores (NWEA, or ISTEP) and/or teacher recommendation

Weight: 4.0 DOE# 2516
Course Description:

Algebra I Lab is a mathematics support course for Algebra I. The students course provides with additional the time to build necessary for foundations high school math courses, while having access concurrently to rigorous, grade-level appropriate courses. The five critical areas of Algebra I Lab align with the critical areas of Algebra I. Relationships between Quantities and Reasoning Equations; with Linear and Exponential Relationships; Descriptive Statistics; Expressions and Equations; and Quadratic Functions and Modeling. However, Algebra whereas Ι contains grade-level content. exclusively Algebra I Lab combines standards from high school courses with foundational standards from the middle grades. Algebra I Lab is designed as a support course for Algebra I. As such, a student taking Algebra I Lab must also be enrolled in Algebra I during the same academic year.

Penn# 0739

CCR BRIDGE: MATH
Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Algebra II or

Analytical Algebra II or Integrated

Mathematics III:Weight: 4.0

**DOE# 2595** 

**Course Description:** 

The CCR Bridge: Math Ready course will include and reinforce the Algebra 1, Geometry, Algebra 2 and **Statistics** skills. This course emphasizes understanding of math concepts rather than just memorizing procedures. Math Ready students learn the context behind the procedure: why to use a certain formula or method to solve a problem, for example. This equips them with higher-order thinking skills in order to apply math skills, functions and concepts in different situations. The content of this course is designed to enhance students' math skills so that they are college-level ready for math assignments.

Counts as a Mathematics Course for all diplomas.

Penn# 1790

MEDICAL STATISTICS
Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: AP® Statistics
Weight: 4.5 DOE# 2543
Course Description:

This is a second year course that applies statistics into the field of science and medicine. The topics that are covered are regression analysis, ANOVA, nonparametric, Chi-Square. and statistical processes. In addition to these topics, students will learn specific concepts that pertain to medical research that will help any student wanting to study a science field or medicine. Students will also learn the basics of abnormal psychology, medical terminology, and read autobiographies that support specific illnesses that are studied during class. Students must have a graphing calculator for this class. In order to receive weighted credit for students this class, must successfully complete the STEM data analysis project given to them each semester.

# **SCIENCE**

# **SCIENCE**

Penn# 0935

**AP® BIOLOGY** 

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisites: Biology I and Chemistry I (or concurrent enrollment in Chemistry I) Weight: 5.0 DOE# 3020 Course Description:

Advanced Placement® Biology is a challenging course college-level which follows College Board Entrance Examination guidelines for Advanced Placement® Biology. The AP® Biology course and the AP® Biology Examination stress biological facts, the synthesis of those facts into concepts, themes and science processes. The major areas of study are evolution, energy and systems. Students taking AP® Biology engage in college-level laboratory work.

Penn# 0965 ACP BIOLOGY

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Biology I AND
Chemistry I AND meet IU
admission requirements
Weight: 5.0 DOE# 3090
IU- BIOL-L 100 Humans and the
Biological World

College Credits: 3
Course Description:

This college-level course emphasizes how biology has both

personal and global implications in human lives. It examines central themes of biology includina biochemistry, genetics, evolution, ecology, and human physiology. Students taking this course will investigate biological concepts while developing critical thinking and problem solving skills. This course meets Indiana University biological departmental standards. To earn five college credits a student must enroll following the **IU-ACP** application procedure, make a necessary tuition payment, and earn a C or better in the class. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0971 

BIOL 101 INTRODUCTORY
BIOLOGY

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: Passing score on the English and Math Knowledge

Assessment, PSAT, or a

cumulative GPA of 2.6 or higher.

Weight: 4.5 DOE# 3026

DOE- Biology II College Credit: 3

**COURSE DESCRIPTION:** 

Introduces the basic concepts of life. Includes discussion of cellular and organismal biology, genetics, evolution, ecology, and interaction among all living organisms.

Addresses applications of biology in a global community.

Penn# 0913

**ANATOMY AND PHYSIOLOGY** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Biology I and

Chemistry I

Weight: 4.5 DOE# 5276

**Course Description:** 

Course Description: The course is primarily for students intended interested medical-related in careers. Students will investigate concepts related to Health Science, with emphasis on interdependence of systems and contributions of each system to the maintenance of healthy body. The course introduces students to the cell, and covers tissues, integumentary, muscular, and nervous skeletal, as an integrated unit. systems Through extensive anatomy understanding, laboratory dissections, modeling and diagramming for understanding, and researching medical case studies, students apply concepts associated with Human Anatomy & Physiology. Students will understand the structure, organization and function of the various components of the healthy body in order to apply this knowledge in all health related fields. All students must participate the laboratory dissections. Students pursuing a medical career

in college are highly recommended to take two years of high school chemistry. Students can take anatomy and a second year of chemistry in the same year. This course fulfills a science requirement for all diplomas.

Integrated Chemistry-Physics is a course focused on the following core topics: motion and energy of macroscopic objects; chemical, electrical, mechanical and nuclear energy; properties of matter; transport of energy; magnetism; energy production and relationship to the environment and economy. Instruction will focus on developing student understanding that scientific knowledge is gained observation of natural from phenomena and experimentation by and conducting designing investigations guided by theory and by evaluating and communicating the results of those investigations according to accepted procedures. The course will prepare students to complete future coursework in Chemistry I and Physics I. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0921 CHEMISTRY I

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisites: Biology I and

Algebra I

Weight: 4.0 DOE# 3064
Course Description:

Chemistry lets you understand the world around you. It helps you to understand what you eat, what you wear, and what you observe. It is often called the central science as it connects many other sciences. In this course you will study matter, energy, counting and measuring atoms and their compounds, atomic structure and chemical reactions. The concepts will be presented through laboratory experiments that will involve making observations and predictions, collecting data, analyzing data, and communicating results. Problem solving skills, critical thinking and multiple representations of knowledge will be stressed. Upon successful completion of this course and if you are planning a career in a health, medical or STEM field, you are strongly encouraged to Chemistry II during your junior or senior year. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0919 Q CHEMISTRY I HONORS Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisites: Biology I AND an

"A" in Algebra

Weight: 4.0 DOE# 3064
Course Description:

Chemistry lets you understand the world around you. It helps you to understand what you eat, what you wear, and what you observe. It is often called the central science as it connects many other sciences. Chemistry I Honors is designed for the college-bound student interested in a science career (medical related, engineering, etc.), and/or who has a high interest in science. The honors level of chemistry has a much deeper application of mathematics and the pace is much faster than Chemistry I. You will often be expected to independently apply and extend your knowledge to new situations. In this course you will study matter, energy, counting and measuring atoms and their compounds, atomic structure, chemical reactions and bonding. The concepts will be presented through laboratory experiments that will involve making observations and predictions, collecting analyzing data, and communicating results. Problem solving skills, critical thinking and multiple representations of knowledge will be successful stressed. Upon completion of this course you will be well prepared and encouraged to take Chemistry II and /or AP® Chemistry during your junior or senior year. This course fulfills a science requirement for Core 40. Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0923

**CHEMISTRY II** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Chemistry I and

Algebra II

Weight: 4.0 **DOE# 3066 Course Description:** 

Chemistry II expands and deepens the understanding of concepts studied in Chemistry I. Additional emphasis will be placed on molecular structure. thermodynamics, acid-base theories, hydrolysis, kinetics, equilibrium, and redox reactions. Experiments requiring quantitative calculations and formal written reports will be performed in the laboratory. It differs from AP® Chemistry in that not all AP® Chemistry topics will be studied, or will not be studied at the depth at which they would be assessed on the AP® exam. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors. Students taking regular Chemistry I are required to take Chemistry II before taking AP® Chemistry.

Penn# 0937

**AP® CHEMISTRY** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Chemistry I and

Pre-Calculus (or pre-Calc

concurrently)

Weight: 5.0 DOE# 3060

**Course Description:** 

Chemistry, Advanced Placement® is a course which follows College Board entrance examination guidelines for Advanced Placement® chemistry. Topics included are atomic and molecular

structure, equilibria, oxidation-reduction,

thermochemistry, electrochemistry, kinetics and acid-base chemistry. This course also includes extensive college-level laboratory work stressing acquisition data and interpretation. Students are required keep a laboratory to manual. Students prepare for and are required to take the AP® Chemistry Exam given in May. To succeed in this course, students should be highly motivated, organized, and have good study habits. College credit will be earned upon successful completion of the AP® Exam. Dual credit through Ivy Tech is also available at no cost. specific colleges Check and universities for their policies. There is a short summer assignment over basic Chemistry I principles. This course fulfills a science requirement for Core 40. Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0925

**ASTRONOMY** 

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Geometry Weight: 4.0 DOE# 3092

**Course Description:** 

Astronomy provides for the in-depth investigation of astronomy. course is а comprehensive, practical sequential, application course that utilizes the P-H-M Digital Video Theater (formerly Planetarium) in the study of the: Celestial Sphere: Celestial Coordinates: Constellations: Solar System; Moon and Moon Phases; Eclipses; Sun as a star; Theories on the origin of our Solar System, Milky Way Galaxy, and Universe; Scale Models of: Earth-Sun, Solar System to our nearest star Alpha Centauri, and our Galaxy; Stellar Astronomy (all the things beyond the edge of our Solar System); Lives and Deaths of Stars; Spectroscopy; H&R Diagram; Cosmic Time Scale; Time Travel (Relativity); Life in the universe; Interstellar Space Travel; and the History of Manned Space Flight. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0943

**ENVIRONMENTAL SCIENCE** 

Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: ICP OR

Chemistry I

Weight: 4.0 DOE# 3010 **Course Description:** 

Environmental Science introduces fundamental environmental ecological issues. Students will do laboratory investigations as well as participate in group class discussions to debate pertinent topics. Many laboratory activities take place outside will require walking to an outdoor laboratory. Outside reading and research may be required as well as reading from do a text. Students will significant amount of writing to demonstrate their understanding. Some concepts that will be covered include: Ecology, The Atmosphere, Conservation, Water, and Energy. The goal of the course is to prepare students to be literate citizens capable of using their knowledge of environmental science to make decisions to solve problems and make personal, social and ethical decisions that will have consequences for theirs and future

generations. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0945

**AP® ENVIRONMENTAL SCIENCE** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Chemistry OR

Earth/Space Science Weight: 5.0 **DOE# 3012 Course Description:** 

The AP® Environmental Science course is a more advanced study of topics in environmental science. The goal of the AP® Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Considerable emphasis is placed on outdoor field investigations as well as on indoor laboratory study. Students are required to take the **AP**® Environmental Science Examination upon completion of the course in order to receive the weighted grade. It is necessary to have reading and study skills at a high enough level to read and comprehend college-level text and write college level papers and This course fulfills a reports. science requirement for Core 40. Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0929 PHYSICS I

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Chemistry I AND

Algebra II (or concurrent enrollment in Algebra II) Weight: 4.0 DOE# 3084

**Course Description:** 

Physics is the study of the behavior and interactions of matter and energy in space and time. Physics I is designed particularly for students intending to pursue university studies in any of the fields of mathematics, science. or engineering (including architecture.) This course is the content equivalent of AP®-C Mechanics, but does not include the calculus. Topics include kinematics, kinetics, gravitation, circular motion, conservation of energy momentum. rotational dynamics, statics. fluid mechanics. Students are challenged with more complex problems in each of these areas. Approximately 33% of the course time is laboratory related with a particular emphasis on error analysis and the explanation of anomalous behavior. The depth of the laboratory work frequently involves reconsideration of the experimental results over a period of weeks or months. Emphasis is placed on problem-solving. laboratory techniques, applications of interactive software for data acquisition, processing and modeling. Enrollment in the Junior year is encouraged, so that students may elect to enroll in Physics II or AP® E&M in their Senior year. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0963

**AP® PHYSICS I - C: MECHANICS** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Physics I AND Calculus I (or concurrent enrollment in Calculus I) Weight: 5.0 **DOE# 3088** 

**Course Description:** 

Physics I AP® -C Mechanics is an advanced and very rigorous first level of physics designed particularly for students intending to pursue university studies in any of the fields of mathematics, science, or engineering. This course is Calculus based and uses differential and integral calculus. This physics course utilizes guided inquiry and student-centered learning techniques to foster the development of critical thinking skills. Students will be challenged with more complex problems in all topic areas. and be given opportunities to further develop creative problem solving skills, data analysis procedures, and experimental design techniques. Emphasis is on problem solving techniques, laboratory techniques, applications of interactive software for data acquisition and processing. They will also develop skills in the application of interactive software and the use of state-of-the-art laboratory instruments and techniques. Topics include: Kinematics, Projectile motion, Forces, Energy, Momentum, Rotational Motion, and Oscillations. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0933

PHYSICS II

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Physics I AND
Pre-Calculus (or concurrent
enrollment in Pre-calculus)
Weight: 4.0 DOE# 3086
Course Description:

Physics II is an advanced level of physics designed particularly for intending to students pursue university studies in any of the fields mathematics, science. engineering. This course is the second half of the algebra based physics sequence. This physics course utilizes guided inquiry and student-centered learning techniques to foster the development of critical thinking skills. Students will be challenged with more complex problems in all topic areas, and be given opportunities to further develop creative problem solving skills, data procedures, analysis and experimental design techniques. Emphasis is on problem solving techniques, laboratory techniques, applications of interactive software for data acquisition and processing. They will also develop skills in the application of interactive software and the use of state-of-the-art laboratory instruments and techniques. Topics include oscillations, electrostatics, current, DC circuits, magnetism, electromagnetism, thermodynamics, optics, and modern physics.

This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0969

AP® PHYSICS I: ALGEBRA

BASED

2 Semesters 2 Credits Grade Level: 10-12 Weight: 5.0 DOE# 3080 Prerequisites: Algebra II &

Chemistry

**IVY TECH - PHYS 101** 

This is a Quantitative Reasoning course

#### **Course Description:**

AP® Physics1 is a course based on content established copyrighted by the College Board. The course is not intended to be used as a dual credit course. AP® 1: Algebra **Physics** based is equivalent to а first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, power; mechanical waves sound. It will also introduce electric circuits.

Penn# 0947

AP® PHYSICS II – C: ELECTRICITY & MAGNETISM

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: AP® Physics I OR

Physics I with concurrent enrollment in Calculus
Weight: 5.0 DOE# 3088

**Course Description:** 

AP® E&M is an advanced level of physics designed particularly for students intending to pursue university studies in any of the fields mathematics, science, engineering. This course is Calculus based and а good understanding of differential, integral, and vector calculus is required. This physics course utilizes quided inquiry and student-centered learning techniques foster the to

development of critical thinking skills. Students will be challenged with more complex problems in all topic areas, and given be opportunities to further develop creative problem solving skills, data procedures, analysis and experimental design techniques. Emphasis is on problem solving techniques, laboratory techniques, applications of interactive software for data acquisition and processing. They will also develop skills in the application of interactive software and the use of state-of-the-art laboratory instruments and techniques. Topics include oscillations, electrostatics, current, DC circuits, magnetism, electromagnetism, and AC circuits. This course is equivalent to a one semester, introductory Electricity & Magnetism college course. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0941

EARTH AND SPACE SCIENCE

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: ICP or Chemistry I (or concurrent enrollment in

Chemistry I)

Weight: 4.0 DOE# 3044
Course Description:

Earth and Space science is a science elective for juniors and seniors. Topics include: gems/minerals, earthquakes/plate tectonics, fossil/dinosaurs, space/astronomy, and atmospheric science/weather prediction. Students have opportunities to gain an understanding of the history of

the development of the earth and space sciences, to explore the uses

of knowledge of the earth and its environment in various careers, and to investigate problems related to personal needs and social issues. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0951 OR 0952 FORENSIC SCIENCE

Prerequisites: ICP OR Chemistry (or concurrent enrollment in

Chemistry)

Weight: 4.0 DOE# 3092 Course Description:

Forensic science is а laboratory-based course that integrates aspects of biology, chemistry and physics to interpret evidence physical from crime scenes. In this class students will learn how physical evidence is collected and handled and perform laboratory investigations to analyze the evidence. The final project will involve collecting and analyzing evidence from a mock crime scene to solve a case. In the process, students will develop and improve their analytical and problem solving skills, which are imperative to any profession. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0955
OCEANOGRAPHY

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: ICP OR Chemistry I

Weight: 4.0 DOE# 3092

**Course Description:** 

Oceanography is a Core 40 science elective for juniors and seniors. Topics include: oceanic relevance and importance, geological features of the ocean, oceanic properties and characteristics, the relationship between the ocean and marine life, and the role of human impact on the Students will have ocean. opportunities to gain an understanding of the history of our research the unique oceans, oceanic life forms, and investigate problems related to personal needs, social issues, and global decisions that affect our planet. The goal of class is for students to recognize the importance of the ocean for all life and the role in its care and humans play maintenance. Students will become equipped with the knowledge and skills to make educated decisions about our oceanic planet. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

### **BIOMEDICAL SCIENCE**

Penn# 0909

PLTW PRINCIPLES OF BIOMEDICAL SCIENCES (PBS)

Semesters: 2 Credits: 2

Grade Level: 9-12

Prerequisite: Biology I (or current enrollment in Biology I)
Counts as science course
Weight: 4.5 DOE# 5218

**Course Description:** 

Principles of Biomedical Sciences is a hands-on project based Project Lead the Way (PLTW) course. Students investigate various health conditions including heart disease, diabetes, sickle-cell disease, hyper-cholesterolemia, and infectious diseases. The activities and projects introduce students to human physiology, medicine, and research processes. This course provides an overview of all the courses in the Biomedical Sciences program and lays the scientific foundation for subsequent courses. This course is designed for 9th -12th grade students. College credit is offered if students obtain a satisfactory score on the EoC and a satisfactory grade in the course. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0911

PLTW HUMAN BODY SYSTEMS (HBS)

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: PBS

Counts as 3rd science course
Weight: 4.5 DOE# 5216
Course Description:

Human Body systems is a hands-on project based Project Lead the Way (PLTW) course. Students examine the interactions of human body systems as they explore identity, communication, power, movement, and homeostasis. protection. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement. reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissue on a skeletal manikin, work through interesting real world cases and often play the roles of biomedical professionals to solve medical mysteries. This course is designed for 10th, 11th or 12<sup>th</sup> grade students. College credit offered through IUPUI for students that earn an EOC score of a 6 and above and a satisfactory grade in the course. The credit is accepted as a 100 level science elective. IUPUI offers letters of completion to students attending other colleges. Currently there is no fee for credits associated with PLTW for students enrolled at IUPUI. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0961

# **PLTW MEDICAL INTERVENTIONS** (MI)

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisites: PBS AND (HBS or Anatomy & Physiology)

Counts as 3rd science course Weight: 4.5 **DOE# 5217 Course Description:** 

Medical Interventions is the third course in the PLTW Biomedical Sciences program. In this year long course, students investigate variety of interventions involved in prevention, diagnosis treatment of disease as they follow the life of a fictitious family. The course is a "How-To" manual for maintaining overall health and homeostasis in the body. Students explore how to prevent and fight infection; screen and evaluate the code in human DNA; prevent, diagnose and treat cancer; and prevail when the organs of the body Through these begin to fail. scenarios, students are exposed to a range of interventions related to immunology, genetics, surgery, pharmacology, medical devices, and diagnostics. This course is designed for 10th - 12th grade students. College credit is offered through IUPUI for students that earn an EOC score of a 6 and above and a satisfactory grade in the course. The credit is accepted as a 100 level science elective. IUPUI offers letters of completion to students attending other colleges. Currently there is no fee for credits associated with PLTW for students enrolled at IUPUI. This course fulfills a science requirement for Core 40, Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0967

## PLTW BIOMEDICAL INNOVATION (BI)

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisites: Principles of Biomedical Sciences, MI **DOE# 5219** Weight: 4.5

**Course Description:** 

Biomedical Innovation is a capstone course designed to give students the opportunity to design innovative solutions for the health challenges of the 21st century as they work through progressively challenging open ended problems, addressing topics such as clinical medicine, physiology, biomedical engineering, and public health. They have the opportunity to work on independent project and may work with a mentor or advisor from a university. hospital, physician's office or industry. Throughout the course the students are expected to present their work to an adult audience that include may the local representatives from business and health care community. This course fulfills a science requirement for Core 40,

Core 40 with Academic Honors and Core 40 with Technical Honors.

Penn# 0949/0950 **NANOTECHNOLOGY** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Biology and ICP or Biology and Chemistry (or

concurrent enrollment in

Chemistry)

Weight: 4.0 DOE# 3092

**Course Description:** 

Nanotechnology is the fastest growing field of scientific research dealing with technology that is 1,000,000 times smaller than the diameter of the average human hair. This course will use modeling and laboratory investigations to learn how properties of materials change they progress from macroscale, through the microscale, to the nanoscale. As we do this, we will learn how things like biosensors, nanomagnets and computer and cell phone microchips are made. Along the way we will discuss and investigate practical applications which are currently being used and those which are being developed for use in the near future.

Penn# 0953 SCIENCE RESEARCH INDEPENDENT STUDY

Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisites: Recommendation from Science teacher AND Physics I (or concurrent enrollment in Physics I) Weight: 4.5 DOE# 3008

**Course Description:** 

This course is designed to provide students with unique opportunities for independent, in-depth study of one specific scientific problem. Students will develop research skills and a familiarity with the laboratory used in research. procedures Students will be expected to complete a science project that will be exhibited in a science fair or comparable competition and/or end-of-course project such as a research paper and poster presentation of their findings. This course counts as a science course for Core - 40, Core-40 with Academic Honors and Core 40 with Technical Honors diplomas. This course may be taken two years in a row.

# **AGRICULTURE**

Penn# 0644 
PRINCIPLES OF AGRICULTURE
Semesters: 2 Credits: 2
Grade Level: 9-12

Weight: 4.5 DOE# 7117

**Course Description:** 

Principles of Agriculture is a prerequisite to and a foundation for all other agricultural classes. The nature of this course is to provide students with an introduction to the fundamentals agricultural of science and business. Topics to be covered include: animal science, plant and soil science, food horticultural science. science. agricultural business management, landscape management, natural agriculture resources. power, structure and technology, development, leadership supervised agricultural experience and career opportunities in the area of agriculture, food and natural resources. Counts as an elective Course for the Core 40. Core 40 with Academic Honors and Core 40 with Technical Honors diplomas.

# AGRI-SCIENCE ANIMALS

**Agri-Science Animals Pathway:** 

Penn# 0643 

ANIMAL SCIENCE
Semesters: 2 Credits: 2
Grade Level: 10-12

Prerequisite: Principles of

Agriculture

College Credits: 3

Counts as 3rd science course Weight: 4.5 DOE# 5008 Ivy Tech AGRI 103 Animal Science

### **Course Description:**

This year-long course provides students with an overview of the field of animal science. Students will study large and small animal species. Topics to be addressed include: careers in animal science, animal science, anatomy, physiology, genetics, reproduction, nutrition, common diseases and parasites, management practices for the care and maintenance of animals, social and political issues related to the animal industry, and aquaculture. Guest speakers, field trips, practical skills laboratories, multimedia projects, and actual on" "hands experience with animals will aid in course instruction. Students may use this course to meet one of the requirements for the Academic or Technical Honors Diploma if they fulfill the following: Students completing the course with a grade of "C" or higher will earn free college credit from Ivy Tech Community College Indiana. Any student earning dual credit may apply those credits to the academic or technical honors diploma.

Penn# 0645

# **ADVANCED LIFE SCIENCES:**

**ANIMALS** 

Semesters: 2 Credits: 2
Grade Level: 11-12
Prerequisite: Biology I,
Chemistry I & Animal Science
Weight: 4.5 DOE# 5070
Ivy Tech AGRI 107 Advanced

Animal Science
College Credits: 3
Course Description:

Students should not take this class concurrently with Animal Science. This year long Advanced Credit Examination (ACE) course allows students to investigate concepts that enable them to understand animal life and animal science as it pertains to companion animals. Students interested in careers in Veterinary Medicine, Veterinary Technology, Biotechnology, and Life Sciences will be challenged instruction, including through laboratory and fieldwork. They will recognize concepts associated with animal taxonomy, life at the cellular level, organ systems, genetics, evolution, ecology, and historical and current issues in animal agriculture. Students will have the opportunity to "test out" of Animal Science 106 at Purdue University. This end of course assessment will grant students who successfully

complete the test the opportunity to earn Purdue University College Advanced credit (at minimal cost) move directly into and more advanced level science and agricultural science studies. This course fulfills a Core 40 science requirement for the General Core 40, Core 40 with Academic Honors or the Core 40 with Technical Honors high school diploma.

### **HORTICULTURE**

**Horticulture Pathway:** 

Penn# 0659 

HORTICULTURAL SCIENCE
Semesters: 2 Credits: 2
Grade Level: 10-12
Weight: 4.5 DOE# 5132
Ivy Tech AGRI 116 Survey of
Horticulture
College Credits: 3
Course Description:

This course provides students with overview of the field It addresses horticulture science. and the biology technology involved the production, in marketing processing, and horticulture plants (such as flowers, houseplants, landscape plants, fruits, nuts and vegetables) and their products. Topics covered include: reproduction and propagation of plants, plant growth, media, greenhouse growth management, marketing, concepts, production of herbaceous, woody and nursery stock plants, fruit, nut and vegetable production and pest management. Students will be involved in the management and operation of the Penn High School greenhouse. Students may use this course to meet one of the requirements for the Academic or Technical Honors Diploma if they fulfill the following: Students completing the course with a grade of "C" or higher will earn free college credit from Ivy Tech Community College Indiana. Any student earning dual credit may apply those credits to the Academic or Technical honors diploma.

Quantitative Reasoning Course Weight: 4.5 DOE# 5136 Ivy Tech AGRI 164 Landscape

Design I

College Credits: 3
Course Description:

Landscape Management year-long course that provides the student with an overview of the field of landscape management. Students are introduced to the procedures used in the planning and design of landscapes, the principles and procedures involved with landscaping construction, the determination of maintenance schedules, communications, and management skills necessary in landscaping operations and the care and use of equipment utilized by landscapers. Students will design and be involved in the installation of the Penn High School Building Trades house landscape. Students will also be involved with the operation and management of the Penn High School greenhouse. Junior and senior students will have the opportunity to earn Accredited Horticulturist Certification from the Indiana Nursery and Landscape Association and Landscape

Industry Certified Technical Certification from the Professional Landscape Network (PLANET). Students completing the course with a grade of "C" or higher will earn free college credit from Ivy Tech Community College Indiana. Any student earning dual credit may apply those credits to the Academic or Technical honors diploma.

## **OTHER AG COURSES**

This dual credit course presents the concepts necessary agriculture-related managing businesses such as lawn and centers, garden landscape nurseries. lawn care services, greenhouses, animal supply stores, pet care shops, farm supply stores, produce markets. livestock production, machinery repairs and environmental consulting firms. Concepts covered include: identification of careers; safety management; entrepreneurship; the planning, organizing, controlling and directing of an agribusiness; effects of government organizations; economic principles; credit; record keeping; budgeting; fundamentals of cash flow; the tax insurance; marketing; system; cooperatives; purchasing: technology; resources; human management; business relations responsibilities. Guest and

speakers, field trips, laboratories, and business simulation projects will aid in course instruction.

Students may use this course to meet one of the requirements for the Academic or Technical Honors Diploma if they fulfill the following: Students completing the course with a grade of "C" or higher will earn free college credit from Ivy Tech Community College Indiana. Any student earning dual credit may apply those credits to the academic or technical honors diploma.

Penn# 0649 

NATURAL RESOURCES

Semesters: 2 Credits: 2

Grade Level: 10-12

Counts as 3rd science course

Weight: 4.5 DOE# 5180

Ivy Tech AGRI 115 Natural

Resources Management

College Credits: 3

Course Description:

This dual credit course provides students with a background in natural resource management. Students are introduced to career opportunities in natural resource management and related industries, the history of the forest industry and forest policy, the importance and uses of forest plants, factors which influence the development of forests, forest improvement and management, proper care and use of forest tools, effects of management practices on the environment, conservation practices, water and its importance, hazardous waste management, native wildlife, waterfowl and fish management, surveying and map use, management of recreational areas,

outdoor safety, weather, and Guest energy resources. speakers, field trips, practical skills laboratories, and natural resource improvement projects will aid in course instruction. Students will be involved with the Water Watchers of Indiana, River Watch Project and the Environmental and Natural Resources Management Career Development Competition. Students may use this course to meet one of the requirements for the Academic or Technical Honors Diploma if they fulfill the following: Students completing the course with a grade of "C" or higher will earn free college credit from Ivy Tech Community College Indiana. Any student earning dual credit may apply those credits to the academic or technical honors diploma.

INTRODUCTION TO
ENGINEERING DESIGN (IED)
Semesters: 2 Credits: 2
Grade Level: 9-12
Weight: 4.5 DOE# 4802
Ivy Tech- DESN 101 Intro to
Design Technology
College Credits: 3
Course Description:

(IED) Introduction to Engineering and Design is an introductory course, which develops student problem solving skills with emphasis on the development of three-dimensional (3-D) solid models. Students will work both individually and in teams to design solutions to a variety of problems using 3D modeling

software. Students use the design process, applying math, science, and

engineering standards to hands-on projects. Models of product solutions are created, analyzed and communicated using Autodesk Inventor. This course also works in a variety of project based learning activities such as The Innovation Challenge, Canstruction, and Mission to Engineer.

Penn# 0607 

PRINCIPLES OF ENGINEERING (POE)

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Introduction to Engineering Design (IED) Counts as 3rd science course Weight: 4.5 DOE# 5644 Ivy Tech- DESN 104 Mechanical Graphics

College Credits: 3
Course Description:

Principles of Engineering (POE) is a course that focuses on the process of applying engineering, technological, scientific mathematical principles in the design, production, and operation products, structures, This is a hands-on systems. course designed to provide students interested in engineering careers to explore experiences related to specialized fields such as civil, mechanical, electrical and materials engineering. Students will engage research, in development, planning, design, production, project and management to simulate a career in engineering. The topics of ethics and the impacts of engineering

decisions are also addressed. Classroom activities are organized to allow students to work in teams and use modern technological processes, computers, CAD software, and projection systems in developing and presenting solutions to engineering problems.

# Penn# 0653 **AEROSPACE ENGINEERING** (AE)

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: IED and POE Counts as 3rd science course

Weight: 4.5 **DOE# 5518** 

**Course Description:** 

Aerospace Engineering ignites students' learning in the fundamentals of atmospheric and space flight. Aerospace Engineering is one of the specialization courses in the PLTW Engineering program. The course deepens the skills and knowledge of an engineering student within the context of atmospheric and space flight. Students explore the fundamentals of flight in air and space as they bring the concepts to life by designing and testing components related to flight such as an airfoil, propulsion systems, and a rocket. They learn orbital mechanics concepts and apply these by creating models using industry-standard software. They also apply aerospace concepts to alternative applications such as a wind turbine and parachute. Students simulate a progression of operations to explore a planet, including creating a map of the terrain with a model satellite and using the map to execute a mission using an autonomous robot.

Penn# 0655

**CIVIL ENGINEERING AND** ARCHITECTURE (CEA)

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: IED and POE Weight: 4.5 DOE# 5650

Ivy Tech- DESN 105 Architectural

Design I

College Credits: 3 **Course Description:** 

Civil Engineering and Architecture introduces students to the fundamental design and development aspects of civil engineering and architectural planning activities. Application and design principles will be used in conjunction with mathematical and scientific knowledge. Computer software programs (Revit) will allow students opportunities to design, simulate. and evaluate the construction of buildings and communities. During the planning and design phases, instructional emphasis will be placed on related transportation, water resource, and environmental issues. Activities will include the preparation of cost structure estimates. design, surveying, model building, as well а review of regulatory procedures that would affect the project design.

Penn# 0613

**DIGITAL ELECTRONICS (DE)** 

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: IED and POE Weight: 4.5 DOE# 5538 Ivy Tech- EECT 112 Digital

**Fundamentals** College Credits: 3 **Course Description:** 

Digital Electronics is a course of study in applied digital logic that

encompasses the design and application of electronic circuits and devices found in video games, watches, calculators, digital cameras, and thousands of other devices. Instruction includes the application of engineering and scientific principles as well as the use of Boolean algebra to solve design problems. Using computer software that reflects current industry standards, activities will provide opportunities for students to design, construct, test, and analyze simple and complex digital circuitry. Software will be used to develop and evaluate the product design. This course engages students in critical thinking and problem-solving skills, time management and teamwork skills.

Penn# 0608

**ENGINEERING DESIGN & DEVELOPMENT (EDD)** 

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Three PLTW courses or permission from

instructor

Weight: 4.5 **DOE# 5698 Course Description:** 

Engineering Design and Development is an engineering research course in which students work in teams to research, design, test, and construct a solution to an open-ended engineering problem. The product development life cycle and a design process are used to guide the team to reach a solution to the problems. The team presents and defends their solution to a panel of outside reviewers at the conclusion of the course. The EDD course allows students to apply all the skills and knowledge learned in previous pre-engineering courses. This course also engages students in critical thinking and problem-solving skills, time management and teamwork skills, a valuable set for students' future careers.

### **ROBOTICS**

**Industry 4.0 Pathway:** 

Penn# 0602
ROBOTICS I
PRINCIPLES OF INDUSTRY 4.0
Semesters: 2 Credits: 2
Grade Level: 9-12
Weight: 4.0 DOE# 7220
Course Description:

Students can choose to take this course as a 0 hour class or a normal class. 0 hour class will meet outside the school day. Robotics I is designed for students work together solving engineering problem. Teams of responsible students are for designing, building, and their programming competition robots. Competitions are held throughout Indiana and the nation. Students will learn and use the design process to guide their work in class. Families will be expected to attend informational meetings in the evenings. Many skills and processes are learned in Robotics I to build the individual towards an effective team member for the Robotics Classes (FRC 11th and 12th grade years). Students get to Design, build, and program robots, Apply real-world math and science concepts, Develop strategic problem solving, organizational, and team building skills, Compete and cooperate in Alliances at tournaments, Earn a place in the World Championships, Qualify for scholarships at over 100 colleges/universities

\*There will be evening and weekend commitments to participating in this class. Students will ride a school bus and stay overnight at certain competitions.

Penn# 0612 
ROBOTICS II
PRINCIPLES OF INDUSTRY 4.0
10 Semesters: 2 Credits: 2
Grade Level: 10-12
Prerequisite: Robotics II (FTC 9)
Weight: 4.0 DOE# 7220

**Course Description:** 

Students can choose to take this course as a 0 hour class or a normal class. 0 hour class will meet outside the school day. Robotics II is designed for students work together solving engineering problem. Teams of students are responsible for designing, building, and programming their competition robots. Competitions are held throughout Indiana and the nation. Students will learn and use the design process to guide their work in class. Families will be expected to attend informational meetings in Many skills and the evenings. processes are learned in Robotics II to build the individual towards an effective team member for the Robotics Classes (FRC 11th and 12th grade years). Students get to Design, build, and program robots, Apply real-world math and science concepts, Develop strategic problem solving, organizational, and team building skills, Compete and cooperate in Alliances at tournaments, Earn a place in the World Championships, Qualify for scholarships at over 100 colleges/universities

\*There will be evening and weekend commitments to participating in this class. Students will ride a school bus and stay overnight at certain competitions.

Penn# 0609 

ROBOTICS III

PRINCIPLES OF INDUSTRY 4.0

Semesters: 2 Credits: 2

Grade Level: 11-12

Prerequisite: Robotics II (FTC

10)

Weight: 4.5 DOE# 7220
This course is weighted on a 4.5 scale if taken with Penn FIRST Robotics Internship I.
Ivy Tech- INDT 113 Basic Electricity
College Credits: 3
Course Description:

This course is designed to give students an experience in the Design Process as it relates to building a competition robot. Since 1998 this class has participated in the FIRST (for inspiration and recognition of Science and Technology) Competition. Students will dedicate the entire year learning the necessary skills processes needed and contribute to building Penn High School's FRC Robot, "The Black Knight!" Experiences such as 3D Modeling, 3D Printing, Machining, Welding, Wiring, Programming, Assembling, Controlling, Driving are all topics of study. Students that successfully complete both classes Automation & Robotics and Penn FIRST Robotics Internship will receive a weighted grade.

\*Students should plan to take both Automation & Robotics as

well as Penn FIRST Robotics Internship.

\* Q Penn# 0610 **ROBOTICS IV AUTOMATION & ROBOTICS II** Semesters: 2 Credits: 2 Grade Level: 12 Prerequisite: Robotics III: Automation & Robotics I Weight: 4.5 DOE# 5612 This course is weighted on a 4.5 scale if taken with Penn FIRST Robotics Internship II. Ivy Tech- ADMF 122 Automation Mechatronics Electrical Systems College Credits: 3 **Course Description:** 

This course is designed to give students an experience in the Design Process as it relates to building a competition robot. # ARCHITECTURE Design Technology Pathway:

Penn# 0604 

ARCHITECTURAL DESIGN

Principles of Architecture

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.5 DOE# 7295 (5640)

Ivy Tech- DESN 101 Intro to

Design Technology College Credits: 3 Course Description:

Architectural Drafting and Design I gives students basic understanding of the detailing skills commonly used by architectural Areas of study technicians. include: sketching, proper use of equipment, geometric constructions. and general residential design. This course includes the creation and interpretation of construction documents. Methods of geometric construction, three-dimensional drawing techniques, and sketching will be presented as well as elementary aspects of residential design and site work. Areas of emphasis will include print reading and drawing. This course also provides students with a basic understanding of the features and considerations associated with the operation of a computer-aided design (CAD) system. They will be expected to complete several projects relating to command topics. Topics include: 2D drawing commands, coordinate systems, editing commands, paper and model space, inquiry commands, layers, plotting, text, and basic dimensioning.

Penn# 0656 

ARCHITECTURAL DESIGN II

Surveying

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisites: Architectural

**Drafting and Design I** 

Weight: 4.5 DOE# 7296 (5652)

Ivy Tech- DESN 105 Architectural

Design I

College Credits: 3
Course Description:

Architectural Design II builds on the concepts of Architectural Design I and presents a history and survey of architecture with a focus on the creative design of buildings in a studio environment. This course site facilities covers analysis, programming, space planning. conceptual design, and the proper use of materials. Students will presentation drawings, develop give oral presentations, critique works. Generation of form and space is addressed through basic architectural theory, related architectural styles, design strategies, and а visual representation of the student's design process. This course will focus on advanced Computer Aided Design (CAD) techniques. It includes an overview of modeling, graphical manipulation, part structuring, and modeling strategies. Various Architectural software packages and applications will be used.

Penn# 0654 

ARCHITECTURAL DESIGN III

Advanced Architectural Drafting

& Design

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisites: Architectural

Design II

Weight: 4.5 DOE# 7389 (5650) Ivy Tech- DESN 105 Architectural Design I

College Credits: 3
Course Description:

Course Description: CEA Non PLTW introduces students to the fundamental design and development aspects civil of engineering and architectural planning activities. Application and design principles will be used in conjunction with mathematical and scientific knowledge. Computer software programs should allow students opportunities to design, and evaluate simulate, the buildinas construction of and communities. During the planning and design phases, instructional emphasis should be placed on related transportation, water resource. and environmental issues. Activities should include the preparation of cost estimates as well as a review of regulatory procedures that would affect the project design.

### **TECHNOLOGY:**

Penn# 0603 

COMPUTERS IN DESIGN & PRODUCTION

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.5 DOE# 4800 Ivy Tech- DESN 101 Intro to

Design Technology College Credit: 3 Course Description:

Computers in Design and Production is а course that specializes in design using code and 3D modeling while addressing various topics in Engineering, Electronics Architecture, Robotics. Students will use the design process and documentation process while producing hands-on projects.

### **MANUFACTURING**

Industrial Technical Maintenance Pathway:

Penn# 0625
PRINCIPLES OF ADVANCED
MANUFACTURING
(ADVANCED MANUFACTURING
I)

Semesters: 2 Credits: 2 Grade Level: 9-12

Weight: 4.0 DOE# 7108 (5608)
Course Description:

Advanced Manufacturing is designed to provide students with a basic understanding of the precision machining processes used in industry, manufacturing, maintenance, and repair. The course instructs students in industrial safety, terminology, tools and machine tools. measurement and layout. Students will become familiar with the setup and operation of power saws, drill presses, lathes, milling machines, grinders, welding and an introduction to CNC (computer controlled) machines.

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Advanced

Manufacturing I

Weight: 4.0 DOE# 7103 (5606)
Course Description:

Advanced Manufacturing II is a more in-depth study of skills learned in Advanced Manufacturing I, with a stronger focus in CNC setup/operation/programming.

Classroom activities will concentrate on precision set-up and inspection work as well as machine shop calculations. Students will develop skills in advanced machining and measuring parts.

Penn# 0620
INDUSTRIAL MAINTENANCE
FUNDAMENTALS
(WELDING TECHNOLOGY I)
Semesters: 2 Credits: 2
Grade Level: 11-12

Prerequisite: Advanced

Manufacturing II

Weight: 4.0 DOE# 5776
Course Description:

Welding Technology I includes classroom and laboratory experiences that develop a variety of skills in oxy-fuel cutting and Shielded Metal Arc welding. This course is designed for individuals who intend to make a career as a Welder, Technician, Sales, Designer, Researcher or Engineer.

Emphasis is placed on safety at all times. OSHA standards and guidelines endorsed by the American Welding Society (AWS) are used. Instructional activities emphasize properties of metals, safety issues, blueprint reading, electrical principles, welding symbols, and mechanical drawing through projects and exercises that teach students how to weld and be prepared for college and career success. This course qualifies for General, Core 40 Academic Honors and Core 40 with Technical Honors diplomas.

### CONSTRUCTION

**Civil Construction Pathway:** 

Penn# 0629
PRINCIPLES OF
CONSTRUCTION
(CONSTRUCTION TRADES I)
Semesters: 2 Credits: 2

Grade Level: 9-12 Weight: 4.0 DOE# 7130 (5580)

**Course Description:** 

Construction Trades I is an entry-level course that emphasizes the use of tools, materials, and techniques used in the construction industry. Students will learn how to safely operate various hand and power tools. Joinery and assembly methods will also be studied. Students will use these methods to produce a wide variety of projects.

Penn# 0631 CIVIL CONSTRUCTION
FUNDAMENTALS
(CONSTRUCTION TRADES II)

Semesters: 2 Credits: 2 Grade Level: 10-12

Prerequisite: Construction

Trades I

Weight: 4.0 DOE# 7121 (5578)

**Course Description:** 

Civil Construction Fundamentals is a specialized course that builds on the fundamentals acquired in the Principles of Construction class to further understand the technological processes used in the civil construction industry. Orientation to the trade, identification of equipment used in heavy highway construction, heavy highway construction safety, work-zone safety, soils, site work, excavation math, and interpreting civil drawings.

Penn# 0628 ADVANCED CIVIL CONSTRUCTION

(Third level course for Civil Construction Pathway) Semesters: 2 Credits: 2 Grade Level: 11-12

**Prerequisite: Civil Construction** 

**Fundamentals** 

Weight: 4.0 DOE# 7118 Course Description:

Advanced Civil Construction builds upon the knowledge and skills learned in the fundamentals course. Its modules cover topics such as general construction, asphalt paving, rigging practices, crane safety and emergency procedures, basic principles of and cranes. crane communications.

## CONSTRUCTION-BUILDING TRADES

**Construction Trades Pathway:** 

Penn# 0632, 0633 & 0634 (with 1357)

VOCATIONAL BUILDING TRADES I

(BT Principles, BT Carpentry, BT

Framing & Finishing)
(4 Blocks- 2 each day)
Semesters: 2 Credits: 6
Grade Level: 11-12

Weight: 4.0 DOE# 7130, 7123

& 7122

#### **Course Description:**

Students will spend 1st and 2nd periods every day at the Building Trades site. This course designed to give students practical experiences in the different phases of house construction through the building of a house on a site near the school. Students will gain some knowledge and experience in house wiring, plumbing, heating, concrete and masonry work, painting, drywall application, landscaping, and carpentry. After successful completion of this course, students should be prepared to enter some phase of the building trades. This class will help with future projects in your home!

Students will earn an OSHA 10 certification. Students will need a basic set of tools. Students are responsible for their own transportation to the construction site and back to school after class.

Penn# 0635 (with 1357) 
VOCATIONAL BUILDING
TRADES II
(BT Capstone)
(4 Blocks- 2 each day)
Semesters: 2 Credits: 6

Grade Level: 12
Prerequisite: Principles of

Construction Trades;

Construction Trades: General Carpentry; and Construction Trades: Framing and Finishing Weight: 4.0 DOE# 7242

**Course Description:** 

Students will spend 1st and 2nd periods every day at the Building Trades site. Students will have the same opportunities that they had in Vocational Building Trades Students will be able to specialize in a specific area of house construction, with an emphasis on the installation, operation, and maintenance of HVAC systems. After successful completion of the course, students will be prepared to enter some phase of the building trades. Students will earn an OSHA 10 certification. Students will need a basic set of tools. Students are responsible for their own transportation to the construction site and back to school after class.

# **WORLD LANGUAGES**

### **WORLD LANGUAGES**

With the exception of Spanish for Spanish Speakers, all World Language courses qualify for CORE 40 and Academic Honors Diploma. Students <u>may</u> qualify for Core 40 without world language; however, <u>many</u> colleges <u>require</u> 2 years of World Language for admission. Please check with individual colleges for admissions requirements.

For students to receive Academic Honors, students must take the class in a traditional classroom setting and not through any online program.

Penn# 0401 FRENCH I

NCAA

Semesters: 2 Credits: 2 Grade Level: 9-12

Weight: 4.0 DOE# 2020

**Course Description:** 

Level I French provides instruction enabling students to discuss the many reasons for learning languages and to develop an understanding of the people who speak them. Students are able to apply effective strategies language learning and show a willingness to experience various aspects of the cultures. Within this context, course provides the students with opportunities respond to and give oral directions and commands and to make routine requests in the classroom and in public places. understand and use appropriate forms of address in courtesy expressions and be able to tell about daily routines and events, ask and answer simple questions and participate in brief quided their conversations related to needs and interests, read isolated words and phrases in a situational context, such as menus, signs, and schedules, comprehend written directions and information. read short narrative texts on simple topics and, write familiar words and

phrases in appropriate contexts and respond in writing to various stimuli. Additionally, students learn about nonverbal communication, gestures and body language, about awareness of current events in the cultures, the major holidays and geographical features of the countries being studied, greeting and leave taking behaviors in a variety of social situations, the appropriate way to respond to introductions and use courtesy behaviors and, appropriate etiquette in a variety of social settings

Penn# 0403 FRENCH II

Semesters: 2 Credits: 2
Grade Level: 10-12
Prerequisite: French I
Weight: 4.0 DOE# 2022
Course Description:

Level II French enables students to participate in classroom and extracurricular activities related to the language studied as well as to participate in conversations dealing with daily activities and personal interests. Students will be able to ask questions regarding routine activities, participate in conversations on a variety of topics, relate a simple narrative about a personal experience or

event, interact in a variety of situations to meet personal needs, such as asking permission, asking for or responding to an offer of help, and expressing preferences pertaining to everyday life. understand main ideas and facts from simple texts over familiar topics, read aloud with appropriate intonation and pronunciation and, write briefly in response to given situations, for example postcards, personal notes, phone messages. and directions, as well as write letters using culturally appropriate format and style. Additionally. students become familiar with geographical features. major historical events, and political structures of the countries being familiar with different aspects of the culture, including the visual arts, architecture, literature and music, using the foreign language where appropriate, able extend and respond hospitality as a host or guest and, aware of time expectations, such as arriving for appointments and social engagements

Penn# 0405 **FRENCH III** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: French I and II Weight: 4.0 DOE# 2024

**Course Description:** 

Level Ш French provides instruction enabling students to understand and appreciate other comparing cultures by behaviors and values of people using the languages being learned. Students must be willing to initiate and participate in discussions concerning these cultures. addition, students will be able to respond to factual and interpretive questions and interact in a variety of social situations, such as expressing regrets, condolences, and complaints, and using more than rote memory formula phrases, read for comprehension from a variety of authentic materials, such as advertisements in newspapers and magazines, and cartoons and personal correspondence, short literary selections of poetry, plays, and short stories, complete authentic forms and documents and take notes that require familiar vocabulary and structures, write paraphrases, summaries, and brief compositions, describe different aspects of the culture, using the foreign language where appropriate, including: (1) major historical events, (2) political structures, (3) value systems, (4) visual arts, (5) architecture, (6) literature, and (7) music and, seek help in a crisis situation and participate appropriately at special family occasions, such birthdays, weddings, funerals, and anniversaries

Penn# 0407 **FRENCH IV** 

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: French I, II and III Weight: 4.0 **DOE# 2026** 

**Course Description:** 

Level IV French enables students to participate in classroom and extra-curricular activities related to the language studied, such as presentations to the student body and to parent groups and taking leadership roles in language clubs. Students must be willing to participate in conversations with native and advanced non-native speakers, either in their community or in the school. This course also enables students to respond to factual and interpretive questions, interact in complex social situations, and express opinions and make judgments, give presentations on cultural topics (1) traditions, including: and historical contemporary events, and (3) major historical and artistic figures, paraphrase restate what someone else has said, read for comprehension from a variety of longer authentic materials, such as newspapers and magazine articles, novels, and essays, as well as make judgments about what is read, write well organized compositions on a given topic and. begin usina language creatively in writing simple poetry and prose

Students are also aware of the relationship between various art forms in at least one major historical period, aware of the major literary, musical, and artistic periods and genres of at least one of the cultures in which the language is spoken, able to adjust speech appropriate to the situation and audience and. able appropriately participate in variety of specific circumstances which could include public meetings, attending concerts, and using public transportation

Penn# 0408

**AP® FRENCH** 

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: French I. II and III Weight: 5.0 **DOE# 2032** 

**Course Description:** 

Advanced Placement® French enables students to participate in activities beyond the classroom that could include concerts, theatre performances. and community activities. Students are willing to participate in conversations with native speakers in the community and promote among their peers, and others, the benefits of foreign language study and the study of the cultures in which the language is spoken. In addition, students are able to initiate and participate in conversations on current or past events that are of significance in the foreign culture, develop and propose solutions to issues and problems that are of concern to members of their own culture and the foreign culture being studied, demonstrate an understanding of the principal elements of nonfiction, articles in newspapers, magazines, and e-mail on topics of current and historical importance to members of the culture, analyze the main plot, subplot, characters and their descriptions, roles, and significance in authentic literary texts, create stories and poems, short plays, and skits based on personal experiences and

exposure to themes, ideas, and perspectives from the foreign cultures and, summarize content of an article intended for native speakers in order to discuss the topics in writing for speakers of the language. Additionally, students gain a general knowledge of the literary and artistic major movements within the cultures where the foreign language is spoken, become aware of the relationships, in these periods among the various art forms and, demonstrate near native behaviors, using the appropriate verbal and nonverbal cues in a variety of cultural contexts, that reflect both peer group and adult activities within the cultures studied.

Penn# 0409 GERMAN I

Weight: 4.0 DOE# 2040

**Course Description:** 

Level I German provides instruction enabling students to discuss the reasons for manv learning languages and to develop an understanding of the people who speak them. Students are able to effective strategies language learning and show a willingness to experience various aspects of the cultures. Within this context. the course provides students with opportunities respond to and give oral directions and commands and to make routine requests in the classroom and in public places, understand and use appropriate forms of address in courtesy expressions and be able to tell about daily and events, ask and routines simple questions answer

participate in brief guided conversations related to their needs and interests, read isolated words and phrases in a situational context, such as menus, signs, and schedules, comprehend written directions and information, read short narrative texts on simple topics and, write familiar words and phrases in appropriate contexts and respond in writing to various stimuli. Additionally, students learn, about nonverbal communication, gestures and body such as about awareness of language, current events in the cultures, the major holidays and geographical features of the countries being studied, greeting and leave taking behaviors in a variety of social situations, the appropriate way to respond to introductions and use behaviors courtesy and, appropriate etiquette in a variety of social settings

Penn# 0411 GERMAN II

Semesters: 2 Credits: 2
Grade Level: 10-12
Prerequisite: German I
Weight: 4.0 DOE# 2042
Course Description:

Level II German enables students to participate in classroom and extracurricular activities related to the language studied as well as to participate in conversations dealing with daily activities and personal interests. Students will be able to ask questions regarding routine activities, participate conversations on a variety of topics, relate a simple narrative about a personal experience or event - orally or written, interact in a variety of situations to meet personal needs, understand main ideas and facts from simple texts over familiar topics, read aloud with appropriate intonation and pronunciation, and give short formal presentations, write briefly in response to given situations, for example write letters using culturally appropriate format and Additionally, students style. become familiar with different aspects of the culture

Penn# 0413 GERMAN III

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: German I and II
Weight: 4.0 DOE# 2044
Course Description:

Level Ш German provides instruction enabling students to understand and appreciate other by comparing cultures behaviors and values of people using the languages being learned. Students must be willing to initiate and participate in discussions concerning these cultures. addition, students will be able to respond to factual and interpretive questions and interact in a variety of social situations, read for comprehension from a variety of authentic materials, and short literary selections which include fairy tales, short stories and books of appropriate length for third year students.

Penn# 0415 GERMAN IV

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: German I, II and III

Weight: 4.0 DOE# 2046

**Course Description:** 

Level IV German students will learn 20<sup>th</sup> Century German history and advanced grammar topics; students will read authentic works from the 19<sup>th</sup> & 20<sup>th</sup> Centuries, including poetry, short stories and plays; students will write lengthy essays and creative pieces. The German IV class is conducted in German and students will speak German.

Penn# 0416

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: German I, II and

Ш

Weight: 5.0 DOE# 2052 Course Description:

Advanced Placement® German enables students to participate in activities beyond the classroom that could include concerts, theatre performances. and community activities. Students are willing to participate in conversations with native speakers in the community and promote among their peers, and others, the benefits of foreign language study and the study of the cultures in which the language is spoken. In addition, students will be able to initiate and participate in conversations on current or past events that are of significance in the foreign culture, develop and propose solutions to issues and problems that are of concern to members of their own culture and the foreign culture being studied, demonstrate an understanding of the principal elements of nonfiction, articles in newspapers, magazines, and e-mail on topics of current and historical importance to members of the culture, analyze the main plot, subplot, characters and their

and descriptions, roles, significance in authentic literary texts, create stories and poems, short plays, and skits based on personal experiences and exposure to themes, ideas, and perspectives from the foreign cultures and. summarize the content of an article intended for native speakers in order to discuss the topics in writing for speakers of the language. Additionally, students gain a general knowledge of the major literary and artistic movements within the cultures where the foreign language is spoken, become aware of the relationships, in these periods among the various art forms, and demonstrate near native behaviors, using the appropriate verbal and nonverbal cues in a variety of cultural contexts, that reflect both peer group and adult activities within the cultures studied.

Penn# 0475 GERMAN AMERICAN PARTNERSHIP PROGRAM (GAPP)

Semesters: 1 (Summer) Credits:

Grade Level: 10-11

Prerequisites: German II AND

application

Counts as an Elective for all diplomas

Weight: 4.0 DOE# 0514
Course Description:

3+ weeks to be determined approximately one year before travel. Course is limited to 18 participants. A course in humanities provides for the study of content drawn from history, philosophy, literature, languages, and the arts. The Penn GAPProgram includes an in-depth study of the German Language,

Broad Culture and History. emphasis will be placed on the National Standards for Foreign Language Learning. The students will live with host families, attend school and travel. It is through these activities and experiences that students will gain an understanding of the target language; develop insight into the nature of the culture communicate in a language other than English. Pre-trip preparations and course work will help the students develop an understanding of the German language, its culture and its rich history and how to actually apply it to the human environment.

Penn# 0425 JAPANESE I

Semesters: 2 Credits: 2

Grade Level: 9-12

Weight: 4.0 DOE# 2060
Course Description:

Level Japanese Ι provides instruction enabling students to discuss the many reasons for learning languages and to develop an understanding of the people who speak them. Students are able to apply effective strategies for language learning and show a willingness to experience various aspects of the cultures. Within this context, the course provides with students opportunities to respond to and give oral directions and commands and to make routine requests in the classroom and in public places, understand and use appropriate forms of address in courtesy expressions and be able to tell about daily routines and events, ask and answer simple questions and participate brief guided in

conversations related to their needs and interests, read isolated words and phrases in a situational context, comprehend brief written directions and information, read short narrative texts on simple topics and, write familiar words and phrases in appropriate contexts and respond in writing to various stimuli. Additionally, students learn about nonverbal communication, gestures and such as language, about awareness of current events in the cultures, the major holidays and geographical features of the country being studied, greeting and leave taking behaviors in a variety of social situations, the appropriate way to respond to introductions and use behaviors courtesy and, appropriate etiquette in a variety of social settings

Penn# 0431 **JAPANESE II** 

Semesters: 2 Credits: 2 Grade Level: 10-12 Prerequisite: Japanese I Weiaht: 4.0 **DOE# 2062** 

**Course Description:** 

Level II Japanese enables students to participate in classroom and extracurricular activities related to the language studied as well as to participate in conversations dealing with daily activities and personal interests. Students will be able to ask questions regarding routine participate activities. conversations on a variety topics, relate a simple narrative about a personal experience or interact in a variety of event, situations to meet personal needs, such as asking permission, asking for or responding to an invitation, and expressing preferences pertaining to everyday life, understand main ideas and facts from simple texts over familiar topics, read aloud with appropriate intonation and pronunciation and, write briefly in response to given situations, for example postcards, personal notes. and phone messages, as well as write letters using culturally appropriate format and style. Additionally, students become able to extend respond to hospitality as a host or quest and, aware of time expectations, such as arriving for appointments social and engagements.

Penn# 0433

JAPANESE III

Semesters: 2 Credits: 2 Grade Level: 11-12 Prerequisite: Japanese II Weight: 4.0 **DOE# 2064 Course Description:** 

Ш Japanese provides Level instruction enabling students to understand and appreciate other cultures by comparing behaviors and values of people using the languages being learned. Students must be willing to initiate and participate in discussions concerning these cultures. addition, students will be able to respond to factual and interpretive questions and interact in a variety situations, such as of social expressing regrets, condolences, and complaints, and using more than rote memory formula phrases, read for comprehension from a variety of authentic materials, such as advertisements in newspapers and magazines, and cartoons and correspondence, personal complete authentic forms documents and take notes that

require familiar vocabulary and structures, write paraphrases, summaries, and brief compositions.

Penn# 0435

JAPANESE IV

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Japanese I, II and

Weight: 4.0 **DOE# 2066 Course Description:** 

IV Japanese enables Level students to participate in classroom and extracurricular activities related to the language studied. Students must be willing to participate in conversations with native and advanced non-native speakers, either in their community or in the school. This course also enables students to respond to factual and interpretive questions, interact in complex social situations, and opinions express and make judgments, write well organized compositions on a given topic, begin using the language creatively in writing simple poetry and prose and conversation, seek help in a situation and participate at special family appropriately occasions, as birthdays, such weddings and anniversaries. Students will also become able to adjust speech appropriate to the situation and audience and able to participate appropriately variety of specific circumstances include which could public meetings, attending concerts, and using public transportation.

Penn# 0427 JAPANESE V

Semesters: 2 Credits: 2

Grade Level: 12

Prerequisite: Japanese I, II, III

and IV

Weight: 4.0 DOE# 2068
Course Description:

Level V Japanese is an advanced study of the Japanese language and culture. Some independent study may be required.

Penn# 0417 SPANISH I

Weight: 4.0 DOE# 2120

**Course Description:** 

Level 1 Spanish introduces students to the Spanish language by practicing reading, writing, listening, and speaking skills on a daily basis. The goal of level 1 is to establish a solid foundation in the Spanish language. Students will learn strategies to become effective language learners. Within this context, the course provides students with opportunities to comprehend new language through dialogues, clip art, rhymes, visuals, and video, practice communication through use of technology, answer questions and express personal opinions both verbally and in writing, compare languages and cultures through grammar study, pronunciation, art, and readings in authentic settings, demonstrate all language skills through a variety of tasks and projects presented in the classroom.

Penn# 0445

**SPANISH I ACCELERATED** 

Semesters: 2 Credits: 2

Grade Level: 9

Weight: 4.0 DOE# 2120

**Course Description:** 

Spanish I Accelerated is designed prepare capable. hiahlv motivated students for future AP study and examination. This course is the first in a series of accelerated courses. Through a compacted curriculum, students will learn more vocabulary and more grammatical structures than is typically possible in a regular level I language class. Students need to have adeptness for applying effective language learning strategies, as demonstrated on a language aptitude test administered prior to enrollment and show a willingness to experience various aspects of the cultures. Students will move quickly through the basic language acquisition skills of listening, speaking, reading, and writing. Within this context, Spanish I Accelerated provides students with opportunities to comprehend new language through dialogues, clip art, rhymes, visuals, and video, practice communication through listening exercises, paired and group activities, and through using technology, answer questions and express personal opinions both verbally and in writing, compare languages and cultures through grammar study, pronunciation, art, and readings in authentic settings, demonstrate all language skills through a variety of tasks and projects presented the in classroom.

Penn# 0419 SPANISH II

**Course Description:** 

Level II takes what the student learned in Level I and builds upon We continue to practice the by reading, language writina. listening, and speaking Spanish on a daily basis. The goal of Level II is to expand students' ability to talk about school activities, living in the city, one's daily routine, and other topics that the student might use in real life. As the library of useful vocabulary grows for the student, so does the ability to talk and write about more topics in a more The authentic way. course provides the students with opportunities to comprehend new language through dialogues, clip art, visuals, and video, practice communication through listening exercises, paired activities, and through the use of technology, answer questions and express personal opinions both verbally and in writing, compare languages and cultures through grammar study, pronunciation and cultural information. demonstrate all language skills through a variety of tasks and projects

0674, 0675, 0679- 2 blocks WORK BASED LEARNING INTERNSHIP (WBL) Semesters: 1 or 2

One Block: 1 credit per semester

Two Blocks: 2 credits per

semester

Grade Level: 11-12

Prerequisite: One CTE Course Weight: 4.0 IDOE: 5974

**Course Description:** 

Students must provide their own transportation. Professional Career Internship is a career course that is designed to provide opportunities for students to explore careers that require additional degrees, certifications or training beyond high The emphasis of the school. experience is on applying skills developed through instruction from an adult mentor and learning new competencies career at the internship site. Activities can be tailored to the unique needs and of the students. interests Internships may be paid or unpaid. A teacher monitors students in their field experiences. Students should enroll in the Internship class because the program provides an opportunity for а student experience all aspects of "real world" requirements for success and the program is a means of linking academic learning with career and community experiences. As part of this Work-Based Learning experience, students will complete a number of components resulting in a portfolio.

Penn# 1603
PEER LEADERS (WBL)
Semesters: 2 Credits: 2

Grade Level: 9-12

Prerequisite: Application, Interview with course instructor Weight: 4.0 IDOE: 5974

**Course Description:** 

This course is designed to give high school students the opportunity to interact with and learn about people with disabilities. Students will provide 5 blocks over two weeks of in-class and/or community based instruction to students with moderate and severe disabilities under the personal supervision and direction of the course instructor or classroom teaching staff.

Penn# 1611
PEER LEADERS- YAP (WBL)
Semesters: 2 Credits: 2
Grade Level: 11-12

Prerequisite: Peer Leaders- 1603 Weight: 4.0 IDOE: 5974

**Course Description:** 

This course is designed to give high school students the opportunity to interact with people with disabilities and learn how to work with them. Students will provide 5 blocks over two weeks of in-class and/or community based instruction to students with moderate and severe disabilities in the Young Adult Program under the personal supervision and instruction of the YAP director.

Penn# 0661 BBBS: 0662 WITH 1851 OR 1865 KINGSMEN TUTOR INTERNSHIP (WBL)

Semesters: 2 Credits: 2 Grade Level: 11-12

Prerequisite: Application,

interview, teacher

recommendations, clean disciplinary and attendance

record

Weight: 4.0 IDOE: 5974

**Course Description:** 

Kingsmen Tutor Internship provides students with opportunities to tutor peers and assist a teacher during the school year in the classroom. Tutors will receive training and attend monthly meetings with the Kingsmen Tutor Leaders. If you take the second semester for no credit then this internship is considered volunteer experience, earning approximately 70 volunteer hours in semester. Many college admission offices and scholarship committees are looking for this kind of long term service. We strongly advise you to take this class as an elective, but it can also be taken in place of a study hall. The grade will be based on homework assignments, attendance and teacher evaluations. Kingsmen Tutors will be placed in classrooms for various subjects including but not limited to foreign language, Algebra I and II, Geometry, Biology, ICP, English and Chemistry.

Penn# 1869

# COMMUNICATION & PUBLIC RELATIONS INTERNSHIP (WBL)

Semesters: 2 Credits: 2
Grade Level: 10-12
Weight: 4.0 IDOE: 5974
